

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-72052; File No. SR-NYSE-2014-22)

April 30, 2014

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing of Proposed Rule Change Adding New Paragraphs (j) and (k) to Rule 128, Entitled “Clearly Erroneous Executions For NYSE Equities”

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on April 21, 2014, New York Stock Exchange LLC (“NYSE” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to add new paragraphs (j) and (k) to Rule 128, entitled “Clearly Erroneous Executions For NYSE Equities.” The text of the proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places

¹ 15 U.S.C.78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to add new paragraph (j) to Rule 128 to provide the Exchange with authority to nullify transactions that were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information even if such transactions occur over a period of several days, as further described below. An example of fundamentally incorrect and grossly misinterpreted issuance information that led to a severe valuation error is included below for illustrative purposes.

The Exchange also proposes to add new paragraph (k) to Rule 128 to make clear that in the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of the Exchange, another market center or responsible single plan processor in connection with the transmittal or receipt of a regulatory trading halt, suspension or pause (hereafter generally referred to as a "trading halt" for ease of reference), the Exchange will nullify any transaction that occurs after the primary listing market for a security declares a trading halt with respect to such security. In the event a trading halt is declared, then prematurely lifted in error, and then re-instituted, proposed paragraph (k) would also result in nullification of any transactions that occur before the official, final end of the trading halt according to the primary listing market.

The Exchange also proposes a change to certain cross-references in Rule 128 due to the addition of (j) and (k). Specifically, the Exchange proposes to update cross-references in existing paragraph (i) of Rule 128 in order to make clear that the provisions of paragraph (i) do

not alter the application of other provisions of Rule 128, including new paragraphs (j) and (k).

Background

On September 10, 2010, the Commission approved, on a pilot basis, changes to Rule 128 to provide for uniform treatment: (1) of clearly erroneous execution reviews in multi-stock events involving twenty or more securities; and (2) in the event transactions occur that result in the issuance of an individual stock trading pause by the primary listing market and subsequent transactions that occur before the trading pause is in effect on the Exchange.⁴ The Exchange also adopted additional changes to Rule 128 that reduced the ability of the Exchange to deviate from the objective standards set forth in Rule 128,⁵ and in 2013, adopted a provision designed to address the operation of the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act (the “Limit Up-Limit Down Plan” or the “Plan”).⁶ Most recently, the Exchange removed the specific provisions related to individual stock trading pauses and extended the pilot program to coincide with the pilot period for the Limit Up-Limit Down Plan, including any extensions thereof, applicable to certain provisions of Rule 128.⁷

As proposed, similar to other provisions added in recent years, as described above, both paragraph (j) and paragraph (k) would be subject to the pilot period, and thus, would coincide with the pilot period for the Limit Up-Limit Down Plan, unless extended or made permanent.

⁴ See Securities Exchange Act Release No. 62886 (Sept. 10, 2010), 75 FR 56613 (Sept. 16, 2010) (SR- NYSE-2010-47).

⁵ Id.

⁷ Paragraphs (c), (e)(2), (f), (g), and (i) of Rule 128 are currently subject to a pilot program. See Securities Exchange Act Release No. 70519 (September 26, 2013), 78 FR 60969 (October 2, 2013) (SR-NYSE-2013-65); Securities Exchange Act Release No. 71821 (March 27, 2014), 79 FR 18592 (April 2, 2014) (SR-NYSE-2014-17).

Executions Based on Incorrect or Grossly Misinterpreted Issuance Information

The Exchange proposes to adopt a new provision, paragraph (j), to Rule 128, which would provide that a series of transactions in a particular security on one or more trading days may be viewed as one event if all such transactions were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information (e.g., with respect to a stock split or corporate dividend) resulting in a severe valuation error for all such transactions (the “Event”).

As proposed, an Officer, acting on his or her own motion, would be required to take action to declare all transactions that occurred during the Event null and void not later than the start of trading on the day following the last transaction in the Event. If trading in the security is halted before the valuation error is corrected, the Officer would be required to take action to declare all transactions that occurred during the Event null and void prior to the resumption of trading. The Exchange proposes to make clear that no action can be taken pursuant to proposed paragraph (j) with respect to any transactions that have reached settlement date for the security or that result from an initial public offering of a security. The Exchange believes that declaring a trade null and void after settlement date would be complex to administer and unfair to the affected parties. The Exchange also believes that excluding IPOs from the proposed rule will ensure that transactions in a new security for which there is no benchmark information are not called into question, as it is the IPO process itself, including the extensive public disclosure associated with IPOs, that is intended to drive price formation.

Further, the Exchange proposes that to the extent transactions related to an Event occur on one or more other market centers, the Exchange will promptly coordinate with such other market center(s) to ensure consistent treatment of the transactions related to the Event, if

practicable. The Exchange also proposes to state in the Rule that any action taken in connection with paragraph (j) will be taken without regard to the Numerical Guidelines set forth in paragraph (c)(1) of Rule 128. In particular, the Exchange believes that there could be scenarios where there are erroneous transactions related to an Event that do not meet applicable Numerical Guidelines but that are, upon review, clearly erroneous. One example of a situation that could occur is a corporate action, such as a stock split, that results in the dissemination of fundamentally incorrect or grossly misinterpreted issuance information and leads to erroneous transactions at a price that is close to the price at which the security was previously trading. Even if such trading is consistent with prior trading activity for the security, and thus would not meet applicable Numerical Guidelines, the Exchange would have the authority to nullify such transactions if they were affected based on the same fundamentally incorrect or grossly misinterpreted issuance information and there was a severe valuation error as a result (i.e., although the security should be trading at a price further away from its previous range, due to fundamentally incorrect or grossly misinterpreted issuance information with respect to the corporate action the security continues to trade at a price that does not meet applicable Numerical Guidelines).

The Exchange also proposes to include a provision, as it does in many other subparagraphs of Rule 128, stating that each member or member organization involved in a transaction subject to proposed paragraph (j) shall be notified as soon as practicable by the Exchange, and that the party aggrieved by the action may appeal such action in accordance with Exchange Rule 128(e)(2).

In particular, the Exchange believes it is necessary to have authority to nullify trades that occur in an event similar to an event involving an exchange offer (“Exchange Offer”) made by

U.S. Bancorp on the NYSE in 2010 in which there were a series of executions based on incorrect or grossly misinterpreted issuance information. As a result of such information, the securities traded at severely dislocated prices. At the time, the NYSE filed an emergency rule filing in order to respond to that event.⁸ With the filing the NYSE interpreted the rule applicable to clearly erroneous executions as permitting the NYSE to nullify all trades resulting after the Exchange Offer at severely dislocated prices.⁹ The Exchange believes it is important to have in place a rule to break such trades if an event like the U.S. Bancorp event occurs again in the future. The U.S. Bancorp event is described in further detail below and is intended to be illustrative of the manner in which the Exchange proposes to utilize proposed paragraph (j), if necessary.

In May 2010, U.S. Bancorp commenced an offer to exchange up to 1,250,000 Depositary Shares, each representing a 1/100 interest in a share of Series A Non-Cumulative Perpetual Preferred Stock, \$100,000 liquidation preference per share (the “Depositary Shares”) for any and all of the 1,250,000 outstanding 6.189% Fixed-to-Floating Rate Normal ITS issued by U.S. Bancorp Capital IX, each with a liquidation amount of \$1,000 (the “Normal ITS”). The Depositary Shares were approved for listing on the NYSE under the symbol USB PRA. On June 11, 2010, the NYSE opened the shares on a quote, but trading did not commence until June 16, 2010 at prices in the range of \$79.00 per share. There were additional executions on the NYSE in that price range on June 17 and 18, 2010. On June 18, 2010, NYSE staff learned that the prices at which trades had executed were not consistent with the value of the security, which was closer to an \$800 price. Upon learning of the pricing disparity, NYSE immediately halted

⁸ See Securities Exchange Act Release No. 62609 (July 30, 2010), 75 FR 47327 (August 5, 2010) (SR-NYSE-2010-55).

⁹ Id.

trading in the Depositary Shares on all markets and alerted U.S. Bancorp and other exchanges that traded the Depositary Shares of the pricing discrepancy.

In order to address the situation, the NYSE filed a proposal to interpret its existing clearly erroneous execution rule such that the trading in Depositary Shares from June 16 to June 18 constituted a single event because that trading was based on incorrect or grossly misinterpreted issuance information that resulted in severe price dislocation (the “U.S. Bancorp Event”).¹⁰ Because the Depositary Shares were halted before the price of the Depositary Shares ceased to be dislocated, and remain halted, the NYSE was able to review trading in Depositary Shares and declare null and void all trading in the U.S. Bancorp Event before the security resumed trading.

Rather than filing a proposal in response to a similar event happening again, the Exchange proposes to add paragraph (j) in order to nullify transactions consistent with the description of the proposed Rule above.

Executions After a Trading Halt Has Been Declared

The Exchange proposes to add new paragraph (k) to Rule 128 to make clear that in the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of the Exchange, another market center or responsible single plan processor in connection with the transmittal or receipt of a trading halt, the Exchange will nullify any transaction that occurs after the primary listing market for a security declares a trading halt and before such trading halt with respect to such security has officially ended according to the primary listing market. In addition, proposed paragraph (k) will make clear that in the event a trading halt is declared, then prematurely lifted in error and then re-instituted, the Exchange will nullify transactions that occur before the official, final end of the trading halt according to the

¹⁰

Id.

primary listing market.

As with other provisions in Rule 128, including proposed paragraph (j) as discussed above, the authority to nullify transactions pursuant to paragraph (k) would be vested in an Officer, acting on his or her own motion. Any action taken in connection with paragraph (k) would be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction and in no circumstances later than the start of regular trading hours¹¹ on the trading day following the date of execution(s) under review. The Exchange also proposes to specify that any action taken in connection with proposed paragraph (k) will be taken without regard to the Numerical Guidelines set forth in paragraph (c)(1) of Rule 128. The Exchange believes it is appropriate to act to nullify transactions pursuant to proposed paragraph (k) without regard to applicable Numerical Guidelines because in the situations covered by paragraph (k), such transactions should not have occurred in the first instance, and thus, their nullification does not put parties in any different position than they should have been. The Exchange also believes that the certainty that the proposed rule provides is critical in situations involving trading halts.

As it has proposed for paragraph (j), as described above, the Exchange also proposes to an [sic] include a provision stating that each member or member organization involved in a transaction subject to proposed paragraph (k) shall be notified as soon as practicable by the Exchange, and that the party aggrieved by the action may appeal such action in accordance with Exchange Rule 128(e)(2).

The Exchange notes that trading in a security is typically halted immediately on the Exchange when the primary listing market issues a trading halt in such security. However, in certain circumstances, due to a technical issue related to the transmission or receipt of the

¹¹ The regular trade hours [sic] on the Exchange are defined in Rule 51 and is generally the time between 9:30 a.m. to 4:00 p.m. E.T.

electronic message instituting such trading halt or due to other extraordinary circumstances, executions can occur on the Exchange following the declaration of such a trading halt. Similarly, although rare, the Exchange has witnessed scenarios where due to extraordinary circumstances a trading halt is declared, then prematurely lifted in error and then re-instituted. It is these types of extraordinary circumstances that the Exchange believes require certainty, and thus, the Exchange believes it necessary to make clear that in such a circumstance any transactions after a trading halt has been declared will be nullified. In the event that a trading halt is declared as of a future time (i.e., if the primary listing exchange declares a trading halt as of a specific, future time in order to ensure coordination amongst market participants), the Exchange would only nullify transactions occurring after the time the trading halt was supposed to be in place until the official end of the trading halt according to the primary listing market.

The Exchange also notes that it currently has authority pursuant to paragraph (f) of Rule 128 to review and nullify transactions that arise during a disruption or malfunction in the operation of any electronic communications and trading facilities of the Exchange. Further, paragraph (f) of Rule 128 gives the Exchange authority to use a lower numerical guideline than is set forth in paragraph (c)(1) of the Rule when necessary to maintain a fair and orderly market and to protect investors and the public interest. Thus, while the Exchange believes that paragraph (f) does give the Exchange the authority to nullify transactions occurring when there is an Exchange technical issue related to the transmission or receipt of the electronic message instituting a trading halt or with respect to a technical issue related to a prematurely lifted trading halt, the Exchange believes that proposed paragraph (k) will provide appropriate authority for the Exchange to nullify all such transactions whether or not the systems problem occurs on the Exchange with respect to trading halts and explicit clarity for market participants that such

transactions will be nullified. The Exchange believes that such authority is appropriate because when relied upon the Exchange will be cancelling trades that should not have occurred in the first instance. Finally, the Exchange believes that such authority is appropriate because a trading halt declared by the primary listing market is indicative of an issue with respect to the applicable security or a larger set of securities.

2. Statutory Basis

The Exchange believes that its proposal is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.¹² In particular, the proposal is consistent with Section 6(b)(5) of the Act,¹³ because it would promote just and equitable principles of trade, remove impediments to, and perfect the mechanism of, a free and open market and a national market system.

The Exchange believes that it is appropriate to adopt a provision granting the Exchange authority to nullify trades that occur if an Event similar to the U.S. Bancorp Event occurs again. The Exchange believes that this provision will allow the Exchange to act in the event of such a severe valuation error, that such action would promote just and equitable principles of trade and that the proposal is therefore consistent with the Act. Similarly, the Exchange believes that adding a provision allowing the Exchange to nullify transactions that occur when a trading halt is declared, then prematurely lifted in error and then reinstated, and providing that in the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of the Exchange, another market center or responsible single plan processor in connection with the transmittal or receipt of a trading halt the Exchange will nullify trades

¹² 15 U.S.C. 78f(b).

¹³ 15 U.S.C. 78f(b)(5).

occurring after a trading halt has been declared by the primary listing market for the security will help to avoid confusion amongst market participants, which is consistent with the protection of investors and the public interest and therefore consistent with the Act. The Exchange further believes that the proposal is appropriate and consistent with the Act because when relied upon the Exchange will be cancelling trades that should not have occurred in the first instance. The Exchange also believes that the proposal is appropriate because a trading halt declared by the primary listing market is indicative of an issue with respect to the applicable security or a larger set of securities.

The Exchange believes that the proposal to update cross-references in existing paragraph (i) of Rule 128 to include new paragraphs (j) and (k) is consistent with the Act because, as is the case with respect to the current rule, this change makes clear that the provisions of paragraph (i) do not alter the application of other provisions of Rule 128.

The Exchange believes that the Financial Industry Regulatory Authority (“FINRA”) and other national securities exchanges are also filing similar proposals to add provisions similar to the provisions proposed by the Exchange above. Therefore, the proposal promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning treatment of transactions as clearly erroneous. The proposed rule change would also help to assure consistent results in handling erroneous trades across the U.S. markets, thus furthering fair and orderly markets, the protection of investors and the public interest.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change implicates any competitive issues. To the contrary, as noted above, the Exchange believes FINRA and other national

securities exchanges are also filing similar proposals, and thus, that the proposal will help to ensure consistency across market centers.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NYSE-2014-22 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSE-2014-22. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer

to File Number SR-NYSE-2014-22 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁴

Kevin M. O'Neill
Deputy Secretary
