(kk) [Reserved]The term "UTP Regulatory Halt" means a trade suspension, halt, or pause called by the UTP Listing Market in a UTP Security that requires all market centers to halt trading in that security.

(aaa) Reserved.

Exchange Traded Product and UTP Exchange Traded Product

(bbb) [Reserved]The term "Exchange Traded Product" means a security that meets the definition of "derivative securities product" in Rule 19b-4(e) under the Securities Exchange Act of 1934 and a "UTP Exchange Traded Product" means an Exchange Traded Product that trades on the Exchange pursuant to unlisted trading privileges.

RULE 5P [Reserved] SECURITIES TRADED**Rule 5.1****(a) General Provisions and Unlisted Trading Privileges.**

(1) Notwithstanding the requirements for listing set forth in these Rules, the Exchange may extend unlisted trading privileges ("UTP") to any security that is an NMS Stock (as defined in Rule 600 of Regulation NMS under the Exchange Act) that is listed on another national securities exchange or with respect to which unlisted trading privileges may otherwise be extended in accordance with Section 12(f) of the Exchange Act. Any such security will be subject to all Exchange trading rules applicable to securities trading on the Pillar trading platform, unless otherwise noted. The Exchange will not list any Exchange Traded Products. Therefore, the provisions of Rules 5P and 8P that permit the listing of Exchange Traded Products will not be effective until the Exchange files a proposed rule change to amend its rules to comply with Rules 10A-3 and 10C-1 under the Exchange Act and to incorporate qualitative listing criteria, and such proposed rule change is approved by the Commission.

(2) UTP Exchange Traded Product. Any UTP security that is a "new derivative securities product" as defined in Rule 19b-4(e) under the Exchange Act (a "UTP Exchange Traded Product") and traded pursuant to Rule 19b-4(e) under the Exchange Act will be subject to the additional following rules:

(A) Form 19b-4(e). The Exchange will file with the Securities and Exchange Commission a Form 19b-4(e) with respect to each UTP Exchange Traded Product within five business days after commencement of trading.

(B) Information Circular. The Exchange will distribute an information circular prior to the commencement of trading in each such UTP Exchange Traded Product that generally includes the same information as is contained in the information circular provided by the listing exchange, including (a) the special risks of trading the new Exchange Traded Product, (b) the Exchange Rules that will apply to the new Exchange Traded Product, including Rules 2090 and 2111, and (c) information about the dissemination of value of the underlying assets or indices.

(C) Product Description.

(i) Prospectus Delivery Requirements. Member organizations are subject to the prospectus delivery requirements under the Securities Act of 1933, unless the UTP Exchange Traded Product is the subject of an order by the Securities and Exchange Commission exempting the product from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and the product is not otherwise subject to prospectus delivery requirements under the Securities Act of 1933.

(ii) Written Description of Terms and Conditions. The Exchange will inform member organizations of the application of the provisions of this subparagraph to UTP Exchange Traded Products by means of an information circular. The Exchange requires that member organizations provide each purchaser of UTP Exchange Traded Products a written description of the terms and characteristics of those securities, in a form approved by the Exchange or prepared by the open-ended management company issuing such securities, not later than the time a confirmation of the first transaction in such securities is delivered to such purchaser. In addition, member organizations will include a written description with any sales material relating to UTP Exchange Traded Products that is provided to customers or the public. Any other written materials provided by a member organization to customers or the public making specific reference to the UTP Exchange Traded Products as an investment vehicle must include a statement substantially in the following form:

"A circular describing the terms and characteristics of [the UTP Exchange Traded Products] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Exchange Traded Products]."

A member organization carrying an omnibus account for a non-member organization is required to inform such non-member organization that execution of an order to purchase UTP Exchange Traded Products for such omnibus account will be deemed to constitute an agreement by the non-member organization to make such written description available to its customers on the same terms as are directly applicable to the member organization under this Rule.

(iii) Customer Requests for a Prospectus. Upon request of a customer, a member organization will also provide a prospectus for the particular UTP Exchange Traded Product.

(D) Trading Halts. If a temporary interruption occurs in the calculation or wide dissemination of the intraday indicative value (or similar value) or the value of the underlying index or instrument and the listing market halts trading in the product, the Exchange, upon notification by the listing market of such halt due to such temporary interruption, also will immediately halt trading in that product on the Exchange. If the intraday indicative value (or similar value) or the value of the underlying index or instrument continues not to be calculated or widely available as of the commencement of trading on the Exchange on the next business day, the Exchange will not commence trading of the product that day. If an interruption in the calculation or wide dissemination of the intraday indicative value (or similar value) or the value of the underlying index or instrument continues, the Exchange may resume trading in the product only if calculation and wide dissemination of the intraday indicative value (or similar value) or the value of the underlying index or instrument resumes or trading in such series resumes in the listing market. The

Exchange also will halt trading in a UTP Exchange Traded Product listed on the Exchange for which a net asset value (and in the case of managed fund shares or actively managed Exchange-Traded Funds, a "disclosed portfolio") is disseminated if the Exchange becomes aware that the net asset value or, if applicable, the disclosed portfolio is not being disseminated to all market participants at the same time. The Exchange will maintain the trading halt until such time as the Exchange becomes aware that the net asset value and, if applicable, the disclosed portfolio is available to all market participants. Nothing in this rule will limit the power of the Exchange under the Rules or procedures of the Exchange with respect to the Exchange's ability to suspend trading in any securities if such suspension is necessary for the protection of investors or in the public interest.

(E) Market Maker Restrictions. The following restrictions will apply to each member organization registered as a market maker on the Exchange in a UTP Exchange Traded Product that derives its value from one or more currencies, commodities, or derivatives based on one or more currencies or commodities, or is based on a basket or index composed of currencies or commodities (collectively, "Reference Assets"):

(i) The member organization acting as a registered market maker on the Exchange in a UTP Exchange Traded Product must file with the Exchange, in a manner prescribed by the Exchange, and keep current a list identifying all accounts for trading the underlying physical asset or commodity, related futures or options on futures, or any other related derivatives, which the member organization acting as registered market maker on the Exchange may have or over which it may exercise investment discretion. No member organization acting as a registered market maker on the Exchange in the UTP Exchange Traded Product will trade in the underlying physical asset or commodity, related futures or options on futures, or any other related derivatives, in an account in which a member organization acting as a registered market maker on the Exchange, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange as required by this Rule.

(ii) A market maker on the Exchange will, in a manner prescribed by the Exchange, file with the Exchange and keep current a list identifying any accounts ("Related Instrument Trading Accounts") for which related instruments are traded:

(a) in which the market maker holds an interest;

(b) over which it has investment discretion; or

(c) in which it shares in the profits and/or losses.

A market maker on the Exchange may not have an interest in, exercise investment discretion over, or share in the profits and/or losses of a Related Instrument Trading Account that has not been reported to the Exchange as required by this Rule.

(iii) In addition to the existing obligations under Exchange rules regarding the production of books and records, a market maker on the Exchange will, upon request by the Exchange, make available to the Exchange any books, records, or other information pertaining to any Related Instrument Trading Account or to the account of any registered or non-registered employee affiliated with the market maker on the Exchange for which related instruments are traded.

(iv) A market maker on the Exchange will not use any material nonpublic information in connection with trading a related instrument.

(F) Surveillance. The Exchange will enter into comprehensive surveillance sharing agreements with markets that trade components of the index or portfolio on which the UTP Exchange Traded Product is based to the same extent as the listing exchange's rules require the listing exchange to enter into comprehensive surveillance sharing agreements with such markets.

Supplementary Material:

.01 The Exchange is permitted to trade, pursuant to UTP, any Exchange Traded Product, as described above and below, that (1) was originally listed on another registered national securities exchange ("Other SRO") and continues to be listed on such Other SRO; and (2) satisfies the Exchange's continued listing criteria that are applicable to the product class that would include such Exchange Traded Product. For the purposes of this rule, the term "Exchange Traded Product" will include securities described in Rules 5.2(j)(2) (Equity Linked Notes); 5.2(j)(3) (Investment Company Units); 5.2(j)(4) (Index-Linked Exchangeable Notes); 5.2(j)(6) (Equity Index-Linked Securities, Commodity-Linked Securities, Currency-Linked Securities, Fixed Income Index-Linked Securities, Futures-Linked Securities and Multifactor Index-Linked Securities); 8.100 (Portfolio Depositary Receipts); and Supplementary Material .01 to Rule 8.200 (Trust Issued Receipts).

(A) Issuer Listing Standards.

The issuer of ELNs must be an entity that:

- (i) has assets in excess of \$100 million and stockholders' equity of at least \$10 million;
- (ii) has one of the following: (1) pre-tax income from continuing operations of at least \$750,000 in its last fiscal year, or in two of its last three fiscal years, (2) assets in excess of \$200 million and stockholders' equity of at least \$10 million; or (3) assets in excess of \$100 million and stockholders' equity of at least \$20 million; and

(B) ELN Listing Standards.

(i) The issue must have:

- (a) a minimum public distribution of one million ELNs (provided, however, that if the ELN is traded in \$1,000 denominations, there is no minimum public distribution);
- (b) a minimum of 400 public holders of the ELNs (provided, however, that if the ELN is traded in \$1,000 denominations, or if the ELNs are redeemable at the option of the holders thereof on at least a weekly basis, there is no minimum number of holders);
- (c) a minimum market value of \$4 million; and
- (d) a minimum term of one year.

(C) Minimum Standards Applicable to the Linked Securities.

(i) Each underlying security must have:

- (a) a market capitalization of at least \$3 billion and trading volume in the United States of at least 2.5 million shares in the one-year period preceding the listing of the ELNs; or

- (b) a market capitalization of at least \$1.5 billion and trading volume in the United States of at least 10 million shares in the one-year period preceding the listing of the ELNs; or
- (c) a market capitalization of at least \$500 million and trading volume in the United States of at least 15 million shares in the one-year period preceding the listing of the ELNs.
- (ii) Each issuer of an underlying security to which the ELN is to be linked will be either a Securities Exchange Act of 1934 reporting company or an Investment Company Act of 1940 registered investment company. In either case, any underlying security to which the ELN is to be linked will be listed on a national securities exchange. In addition, if any underlying security to which the ELN is to be linked is the stock of a non-U.S. company which is traded in the U.S. market as sponsored American Depositary Shares ("ADS"), ordinary shares or otherwise, then for each such security, one of the following conditions must be met:
- (1) the Exchange has a comprehensive surveillance sharing agreement in place with the primary exchange on which each non-U.S. security is traded (in the case of an ADS, the primary exchange on which the security underlying the ADS is traded);
- (2) the combined trading volume of each non-U.S. security (a security issued by a non-U.S. company) and other related non-U.S. securities occurring in the U.S. market or in markets with which the Exchange has in place a comprehensive surveillance sharing agreement represents (on a share equivalent basis for any ADSs) at least 50% of the combined world-wide trading volume in each non-U.S. security, other related non-U.S. securities, and other classes of shares related to each non-U.S. security over the six month period preceding the date of listing; or
- (3) (A) the combined trading volume of each non-U.S. security and other related non-U.S. securities occurring in the U.S. market represents (on a share equivalent basis) at least 20% of the combined world-wide trading volume in each non-U.S. security and in other related non-U.S. securities over the six-month period preceding the date of selection of the non-U.S. security for an ELN listing; (B) the average daily trading volume for each non-U.S. security in the U.S. markets over the six-month period preceding the date of selection of each non-U.S. security for an ELN listing is 100,000 or more shares; and (C) the trading volume for each non-U.S. security in the U.S. market is at least 60,000 shares per day for a majority of the trading days for the six-month period preceding the date of selection of the non-U.S. security for an ELN listing.
- (iii) If any underlying security to which the ELN is to be linked is the stock of a non-U.S. company that is traded in the U.S. market as a sponsored ADS, ordinary

shares or otherwise, then the minimum number of holders of the underlying security will be 2,000.

(D) Limits on the Number of ELNs Linked to a Particular Security.

(i) The issuance of ELNs relating to any underlying U.S. security may not exceed five percent of the total outstanding shares of such underlying security. In addition, the issuance of ELNs relating to any underlying non-U.S. security represented by ADSs, shares, or otherwise, may not exceed:

(a) two percent of the total shares outstanding worldwide if at least 20 percent of the worldwide trading volume in each non-U.S. security and related non-U.S. security occurs in the U.S. market during the six-month period preceding the date of listing; or

(b) three percent of the total shares outstanding worldwide if at least 50 percent of the worldwide trading volume in each non-U.S. security and related non-U.S. security occurs in the U.S. market during the six-month period preceding the date of listing; and

(c) five percent of the total shares outstanding worldwide if at least 70 percent of the worldwide trading volume in each non-U.S. security and related non-U.S. security occurs in the U.S. market during the six-month period preceding the date of listing.

If any non-U.S. security and related securities has less than 20% of the worldwide trading volume occurring in the U.S. market during the six month period preceding the date of listing, then the ELN may not be linked to that non-U.S. security.

If an issuer proposes to list ELNs that relate to more than the allowable percentages specified above, then the Exchange, with the concurrence of the staff of the Division of Trading and Markets of the Securities and Exchange Commission, will evaluate the maximum percentage of ELNs that may be issued on a case-by-case basis.

(E) Prior to the commencement of trading of particular ELNs listing pursuant to this Rule, the Exchange will evaluate the nature and complexity of the issue and, if appropriate, distribute a circular to the member organization providing guidance regarding compliance responsibilities (including suitability recommendations and account approval) when handling transactions in ELNs.

(F) ELNs will be treated as equity instruments.

(3) Investment Company Units

The Exchange will consider for trading, whether by listing or pursuant to unlisted trading privileges, units of trading ("Units") that meet the criteria of this Rule. A Unit is a security that represents an interest in a registered investment company ("Investment Company") that could be organized as a unit investment trust, an open-end management investment company, or a similar entity. The term "US Component Stock" will mean an equity security that is registered under Sections 12(b) or 12(g) of the Securities Exchange Act of 1934 or an American Depositary Receipt, the underlying equity security of which is registered under Sections 12(b) or 12(g) of the Securities Exchange Act of 1934. (i) The Investment Company must:

(a) hold securities (including fixed income securities) comprising, or otherwise based on or representing an interest in, an index or portfolio or securities; or

(b) hold securities in another registered investment company that holds securities as described in (a) above.

An index or portfolio may be revised as necessary or appropriate to maintain the quality and character of the index or portfolio.

(ii) The Investment Company must issue Units in a specified aggregate number in return for a deposit (the "Deposit") consisting of either:

(a) a specified number of shares of securities (and, if applicable, a specified portfolio of fixed income securities) that comprise the index or portfolio, or are otherwise based on or represent an investment in securities comprising such index or portfolio, and/or a cash amount; or

(b) shares of a registered investment company, as described in subsection (A)(i)(a) above, and/or a cash amount.

(iii) Units must be redeemable, directly or indirectly, from the Investment Company for securities (including fixed income securities) and/or cash then comprising the Deposit. Units must pay holders periodic cash payments corresponding to the regular cash dividends or distributions declared with respect to the securities held by the Investment Company, less applicable expenses and charges.

(iv) The minimum number of Units required to be outstanding at the commencement of trading is set forth in Supplementary Material .01 paragraph (d) of this Rule.

(v) The Exchange will obtain a representation from the issuer of each series of Units that the net asset value per share for the series will be calculated daily and will be made available to all market participants at the same time.

(B) *Underlying Indices and Portfolios.* The Exchange may trade, whether by listing or pursuant to unlisted trading privileges, specified series of Units, with each Series based on a specified index or portfolio of securities. The value of the index or portfolio must be calculated and disseminated to the public at least once per business day; provided that, if the securities representing at least half the value of the index or portfolio are securities of a single country other than the United States, then the value of the index or portfolio may be calculated and disseminated to the public at least once per business day in that country.

(C) *Form of Certificates.* Units may be either certified or issued in the form of a single global certificate.

(D) *Limitation of Liability of the Exchange.* Neither the Exchange, the Reporting Authority nor any agent of the Exchange will have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any current index or portfolio value the current value of the portfolio of securities required to be deposited to the open-end management investment company; the amount of any dividend equivalent payment or cash distribution to holders of Units; net asset value; or other information relating to the creation, redemption or trading of Units, resulting from any negligent act or omission by the Exchange, or the Reporting Authority, or any agent of the Exchange, or any act, condition or cause beyond the reasonable control of the Exchange or its agent, or the Reporting Authority, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reporting of transactions in one or more underlying securities. The Exchange makes no warranty, express or implied, as to results to be obtained by any person or entity from the use of Units or any underlying index or data included therein and the Exchange makes no express or implied warranties, and disclaims all warranties of merchantability or fitness for a particular purpose with respect to Units or any underlying index or data included therein. This limitation of liability will be in addition to any other limitation contained in the Exchange's Bylaws and Rules.

In addition, any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on the index or portfolio composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index; and

(2) The current index value for Units listed pursuant to (a) Supplementary Material .01(a)(A) above will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's normal trading hours; (b) Supplementary Material .01(a)(B) above will be widely disseminated by one or more major market data vendors at least every 60 seconds during the Exchange's normal trading hours; or (c) Supplementary Material .01(a)(C) above will be widely disseminated during the Exchange's normal trading hours by one or more major market data vendors at least every 15 seconds with respect to indexes containing only US Component Stocks and at least every 60 seconds with respect to indexes containing Non-US Component Stocks. If the official index value does not change during some or all of the period when trading is occurring on the Exchange (for example, for indexes of Non-US Component Stocks because of time zone differences or holidays in the countries where such indexes' component stocks trade), then the last calculated official index value must remain available throughout the Exchange's normal trading hours.

(c) *Disseminated Information.* One or more major market data vendors will disseminate for each series of Units listed or traded on the Exchange an estimate, updated at least every 15 seconds during the Exchange's normal trading hours, of the value in U.S. dollars of a share of each series (the "Intraday Indicative Value"). The "Intraday Indicative Value" may be based, for example, upon current information regarding the required deposit of securities and cash amount to permit creation of new shares of the series or upon the index value. The Intraday Indicative Value will be updated at least every 15 seconds during the Exchange's normal trading hours to reflect changes in the exchange rate between the U.S. dollar and the currency in which any component stock is denominated. If the Intraday Indicative Value does not change during some or all of the period when trading is occurring on the Exchange, then the last official calculated Intraday Indicative Value must remain available throughout the Exchange's normal trading hours.

(d) *Initial Shares Outstanding.* A minimum of 100,000 shares of a series of Units is required to be outstanding at commencement of trading.

(e) *Hours of Trading.* The hours of trading for series of Units are the Exchange's normal trading hours.

(f) *Surveillance Procedures.* The Exchange will implement written surveillance procedures for Units.

(g) *Disclosures.* The provisions of this subparagraph apply only to series of Units that are the subject of an order by the Securities and Exchange Commission exempting such series from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and are not otherwise subject to prospectus delivery requirements under the Securities Act of 1933. The Exchange will inform member organizations regarding application of these provisions of this subparagraph to a particular series of Units by means of an information circular prior to commencement of trading in such series.

The Exchange requires that member organizations provide to all purchasers of a series of Units a written description of the terms and characteristics of those securities, in a form approved by the Exchange or prepared by the open-end management investment company issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, member organizations will include such a written description with any sales material relating to a series of Units that is provided to customers or the public. Any other written materials provided by a member organization to customers or the public making specific reference to a series of Units as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of (the series of Units) has been prepared by the (open-end management investment company name) and is available from your broker. It is recommended that you obtain and review such circular before purchasing (the series of Units)."

A member organization carrying an omnibus account for a non-member organization is required to inform such non-member organization that execution of an order to purchase a series of Units for such omnibus account will be deemed to constitute agreement by the non-member organization to make such written description available to its customers on the same terms as are directly applicable to member organizations under this rule.

Upon request of a customer, a member organization will also provide a prospectus for the particular series of Units.

(h) *Creation and Redemption.* For Units listed pursuant to Supplementary Material .01(a)(B) or (C) above, the statutory prospectus or the application for exemption from provisions of the Investment Company Act of 1940 for the series of Units must state that the series of Units must comply with the federal securities laws in accepting securities for deposits and satisfying redemptions with redemption securities, including that the securities accepted for deposits and the securities used to satisfy redemption requests are sold in transactions that would be exempt from registration under the Securities Act of 1933.

.02 Fixed Income. Fixed Income Securities are debt securities that are notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or a subdivision thereof. The Exchange may approve a series of Units based on Fixed Income Securities for listing and pursuant to Rule 19b-4(e) under the Securities Exchange Act of 1934 provided such portfolio or index (i) has been reviewed and approved for the trading of options, Units, Portfolio Depository Receipts, Index-Linked Exchangeable Notes or Index-Linked Securities by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934 and rules thereunder and the conditions set forth in the Commission's approval order, continue to be satisfied or (ii) satisfy the following criteria, and provided further, that the Exchange may not so approve a series of Units that are issued by an open-end management investment company that seeks to provide investment results, before fees and expenses, in an amount that exceeds -300% of the percentage performance on a given day of a particular Fixed Income Securities index.

(a) Eligibility Criteria for Index Components. Upon the initial listing of a series of Units pursuant to Rule 19b-4(e) under the Securities Exchange Act of 1934 on the Exchange, the components of an index or portfolio underlying a series of Units will meet the following criteria:

- (1) The index or portfolio must consist of Fixed Income Securities;
- (2) Components that in aggregate account for at least 75% of the weight of the index or portfolio each will have a minimum original principal amount outstanding of \$100 million or more;
- (3) A component may be a convertible security, however, once the convertible security component converts to the underlying equity security, the component is removed from the index or portfolio;
- (4) No component fixed-income security (excluding Treasury Securities and GSE Securities) will represent more than 30% of the weight of the index or portfolio, and the five most heavily weighted component fixed-income securities in the index or portfolio will not in the aggregate account for more than 65% of the weight of the index or portfolio;
- (5) An underlying index or portfolio (excluding one consisting entirely of exempted securities) must include a minimum of 13 non-affiliated issuers; and

(6) Component securities that in aggregate account for at least 90% of the weight of the index or portfolio must be either a) from issuers that are required to file reports pursuant to Sections 13 and 15(d) of the Securities Exchange Act of 1934; b) from issuers that have a worldwide market value of its outstanding common equity held by non-affiliates of \$700 million or more; c) from issuers that have outstanding securities that are notes, bonds debentures, or evidence of indebtedness having a total remaining principal amount of at least \$1 billion; d) exempted securities as defined in Section 3(a)(12) of the Securities Exchange Act of 1934; or e) from issuers that are a government of a foreign country or a political subdivision of a foreign country.

(b) Index Methodology and Calculation.

(i) If the index is maintained by a broker-dealer or fund advisor, the broker-dealer or fund advisor will erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index;

(ii) The current index value for Units listed pursuant to Supplementary Material .02(a) above will be widely disseminated by one or more major market data vendors at least once per day and if the index value does not change during some or all of the period when trading is occurring on the Exchange, the last official calculated index value must remain available throughout the Exchange's normal trading hours; and

(iii) Any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on the index composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index.

(c) Disseminated Information. One or more major market data vendors will disseminate for each series of Units listed pursuant to Supplementary Material .02(a) above an estimate, updated at least every 15 seconds during the Exchange's normal trading hours, of the value of a share of each series (the "Intraday Indicative Value"). The Intraday Indicative Value may be based, for example, upon current information regarding the required deposit of securities and cash amount to permit creation of new shares of the series or upon the index value. The Intraday Indicative Value may be calculated by the Exchange or by an independent third party throughout the day using prices obtained from independent market data providers or other independent pricing sources such as a broker-dealer or price evaluation services. If the Intraday Indicative Value does not change during some or all of the period when trading is occurring on the Exchange, then the last official calculated Intraday Indicative Value must remain available throughout the Exchange's normal trading hours.

(d) Initial Shares Outstanding. The provisions of Supplementary Material .01(d) above will apply to series of Units listed pursuant to Supplementary Material .02(a) above.

(e) Hours of Trading. The provisions of Supplementary Material .01(e) above will apply to series of Units listed pursuant to Supplementary Material .02(a) above.

(f) Surveillance Procedures. The provisions of Supplementary Material .01(f) above will apply to series of Units based on Fixed Income Securities that are listed and/or traded pursuant to UTP.

(g) Disclosures. The provisions of Supplementary Material .01(g) above will apply to series of Units based on Fixed Income Securities.

.03 The Exchange may approve a series of Units based on a combination of indexes or an index or portfolio of component securities representing the U.S. or domestic equity market, the international equity market, and the fixed income market for listing and trading pursuant to Rule 19b-4(e) under the Securities Exchange Act of 1934 provided (i) such portfolio or combination of indexes have been reviewed and approved for the trading of options, Units, Portfolio Depository Receipts, Index-Linked Exchangeable Notes or Index-Linked Securities by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934 and rules thereunder and the conditions set forth in the Commission's approval order continue to be satisfied or (ii) each index or portfolio of equity and fixed income component securities separately meet either the criteria set forth in Supplementary Material .01(a) or .02(a) above, and provided further, that the Exchange may not so approve a series of Units that is issued by an open-end management investment company that seeks to provide investment results, before fees and expenses, in an amount that exceeds -300% of the percentage performance on a given day of a particular domestic equity, international or global equity securities index or Fixed Income Securities index or a combination thereof.

(a) Index Methodology and Calculation

(i) If the index is maintained by a broker-dealer or fund advisor, the broker-dealer or fund advisor will erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index;

(ii) The current composite index value for Units listed pursuant to Supplementary Material .01(a) or .02(a) above will be widely disseminated by one or more major market data vendors at least once every 15 seconds during the Exchange's normal trading hours, provided however, that (a) with respect to the Non-US Component Stocks of the combination index, the impact on the index is only required to be updated at least every 60 seconds during the Exchange's normal trading hours,

and (b) with respect to the fixed income components of the combination index, the impact on the index is only required to be updated at least once each day; and

(iii) Any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on the index composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index.

(b) Other Applicable Provisions. The provisions of Supplementary Material .01(c)-(h) will also apply to series of Units based on a combination of indexes or an index or portfolio of component securities representing the U.S. or domestic equity market, the international equity market, and the fixed income market.

.04 The provisions of this Supplementary Material apply only to series of Units that are issued by an open-end management investment company that (i) seeks to provide investment results, before fees and expenses, that correspond to a specific multiple of the percentage performance on a given day of a particular domestic equity, international or global equity securities index or Fixed Income Securities index or a combination thereof ("Multiple Fund Shares") or (ii) seeks to provide investment results, before fees and expenses, that correspond inversely up to -300% of the percentage performance on a given day of a particular domestic equity, international or global equity securities index or Fixed Income Securities index or a combination thereof ("Inverse Fund Shares"). For the initial and continued listing of Multiple Fund Shares and/or Inverse Fund Shares, the following requirements must be adhered to:

(a) Daily public Web site disclosure of portfolio holdings that will form the basis for the calculation of the net asset value by the issuer of a series of Multiple Fund Shares or Inverse Fund Shares, including, as applicable, the following instruments:

(i) The identity and number of shares held of each specific equity security;

(ii) The identity and amount held of each specific Fixed Income Security;

(iii) The specific types of financial instruments, including, but not limited to, stock index futures contracts; options on futures contracts; options on securities and indices; equity caps, collars and floors; swap agreements; forward contracts; and repurchase agreements (the "Financial Instruments") and characteristics of such Financial Instruments; and

(iv) Cash equivalents and the amount of cash held in the portfolio.

(b) If the Exchange becomes aware that the net asset value related to a Multiple Fund Share or Inverse Fund Share is not being disseminated to all market participants at the same time or the daily public Web site disclosure of portfolio holdings does not occur, the Exchange will halt trading in such series of Multiple Fund Shares or Inverse Fund Shares, as appropriate. The Exchange may resume trading in such Fund Shares only when the net asset value is disseminated to all market participants at the same time or the daily public Web site disclosure of portfolio holdings occurs, as appropriate.

(4) Index-Linked Exchangeable Notes

Index-linked exchangeable notes which are exchangeable debt securities that are exchangeable at the option of the holder (subject to the requirement that the holder in most circumstances exchange a specified minimum amount of notes), on call by the issuer or at maturity for a cash amount (the "Cash Value Amount") based on the reported market prices of the Underlying Stocks of an Underlying Index will be considered for listing and trading by the Exchange pursuant to Rule 19b-4(e) under the Securities Exchange Act of 1934, provided:

- (a) Both the issue and the issuer of such security meet the criteria set forth in NYSE Arca Equities Rule 5.2(j)(1) (Other Securities), except that the minimum public distribution will be 150,000 notes with a minimum of 400 public note-holders, except, if traded in thousand dollar denominations no minimum public distribution and no minimum number of holders.
- (b) The issue has a minimum term of one year.
- (c) The issuer will be expected to have a minimum tangible net worth in excess of \$250,000,000, and to otherwise substantially exceed the earnings requirements set forth in NYSE Arca Equities Rule 5.2(j)(1). In the alternative, the issuer will be expected: (i) to have a minimum tangible net worth of \$150,000,000 and to otherwise substantially exceed the earnings requirements set forth in NYSE Arca Equities Rule 5.2(j)(1); and (ii) not to have issued index-linked exchangeable notes where the original issue price of all the issuer's other index-linked exchangeable note offerings (combined with other index-linked exchangeable note offerings of the issuer's affiliates) listed on a national securities exchange or traded through the facilities of Nasdaq exceeds 25% of the issuer's net worth.
- (d) The index to which an exchangeable-note is linked will either be (i) indices that have been created by a third party and been reviewed and have been approved for the trading of options or other derivatives securities (each, a "Third-Party Index") either by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and rules thereunder or by the Exchange under rules adopted pursuant to Rule 19b-4(e); or (ii) indices which the issuer has created and for which the Exchange will have obtained approval from either the Commission pursuant to Section 19(b)(2) and rules thereunder or from the Exchange

under rules adopted pursuant to Rule 19b-4(e) (each an "Issuer Index"). The Issuer Indices and their underlying securities must meet one of the following:

(i) the procedures and criteria set forth in NYSE Arca Options Rule 5.13(b)-(c); or

(ii) the criteria set forth in subsections (C) and (D) of Rule 5.2(j)(2), the index concentration limits set forth in NYSE Arca Options Rule 5.13(b)(6), and NYSE Arca Options Rule 5.13(b)(12) insofar as it relates to NYSE Arca Options Rule 5.13(b)(6).

(e) Index-linked Exchangeable Notes will be treated as equity instruments.

(f) Beginning twelve months after the initial issuance of a series of index-linked exchangeable notes, the Exchange will consider the suspension of trading in or removal from listing of that series of index-linked exchangeable notes under any of the following circumstances:

(i) if the series has fewer than 50,000 notes issued and outstanding;

(ii) if the market value of all index-linked exchangeable notes of that series issued and outstanding is less than \$1,000,000; or

(iii) if such other event will occur or such other condition exists which in the opinion of the Exchange makes further dealings on the Exchange inadvisable.

(5) Equity Gold Shares

(A) The provisions of this Rule 5.2(j)(5) apply only to Equity Gold Shares, that represent units of fractional undivided beneficial interest in and ownership of the Equity Gold Trust. While Equity Gold Shares are not technically Investment Company Units and thus are not covered by Rule 5.2(j)(3), all other rules that reference "Investment Company Units" will also apply to Equity Gold Shares.

(B) Except to the extent that specific provisions in this rule govern, or unless the context otherwise requires, the provisions of all other Rules and policies will be applicable to the trading of Equity Gold Shares on the Exchange.

(C) The provisions set forth in Rule 8.201(g)-(i) will also apply to Equity Gold Shares.

(6) Equity Index-Linked Securities, Commodity-Linked Securities, Currency-Linked Securities, Fixed Income Index-Linked Securities, Futures-Linked Securities and Multifactor Index-Linked Securities

The Exchange will consider listing equity index-linked securities ("Equity Index-Linked Securities"), commodity-linked securities ("Commodity-Linked Securities"), currency-linked securities ("Currency-Linked Securities"), fixed income index-linked securities

("Fixed Income Index-Linked Securities"), futures-linked securities, ("Futures-Linked Securities") and multifactor index-linked securities ("Multifactor Index-Linked Securities" and, together with Equity Index-Linked Securities, Commodity-Linked Securities, Currency-Linked Securities, Fixed Income Index-Linked Securities and Futures-Linked Securities, "Index-Linked Securities") that in each case meet the applicable criteria of this Rule 5.2(j)(6).

The payment at maturity with respect to Equity Index-Linked Securities, Commodity-Linked Securities, Currency-Linked Securities, Fixed Income Index-Linked Securities, Futures-Linked Securities and Multifactor Index-Linked Securities is based on the performance of:

- (i) in the case of Equity Index-Linked Securities, an underlying index or indexes of equity securities (an "Equity Reference Asset"), or
- (ii) in the case of Commodity-Linked Securities, one or more physical commodities or commodity futures, options or other commodity derivatives or Commodity-Based Trust Shares (as defined in Rule 8.201) or a basket or index of any of the foregoing (a "Commodity Reference Asset"), or
- (iii) in the case of Currency-Linked Securities, one or more currencies, or options or currency futures or other currency derivatives or Currency Trust Shares (as defined in Rule 8.202) or a basket or index of any of the foregoing (a "Currency Reference Asset", or
- (iv) in the case of Fixed Income Index-Linked Securities, one or more indexes or portfolios of notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or a subdivision thereof or a basket or index of any of the foregoing (a "Fixed Income Reference Asset"), or
- (v) in the case of Futures-Linked Securities, an index of (a) futures on Treasury Securities, GSE Securities, supranational debt and debt of a foreign country or a subdivision thereof, or options or other derivatives on any of the foregoing; or (b) interest rate futures or options or derivatives on the foregoing in this subparagraph (b); or (c) CBOE Volatility Index (VIX) Futures (a "Futures Reference Asset"), or
- (vi) in the case of Multifactor Index-Linked Securities, any combination of two or more Equity Reference Assets, Commodity Reference Assets, Currency Reference Assets, Fixed Income Reference Assets or Futures Reference Assets (a "Multifactor Reference Asset", and together with Equity Reference Asset, Commodity Reference Asset, Currency Reference Asset, Fixed Income Reference Asset and Futures Reference Asset, "Reference Assets"). A Multifactor Reference Asset may include as a component a notional investment in cash or a cash equivalent based on a widely

accepted overnight loan interest rate, LIBOR, Prime Rate, or an implied interest rate based on observed market spot and foreign currency forward rates.

Index-Linked Securities may or may not provide for the repayment of the original principal investment amount. The Exchange may submit a rule filing pursuant to Section 19(b)(2) of the Securities Exchange Act of 1934 ("Act") to permit the listing and trading of Index-Linked Securities that do not otherwise meet the standards set forth below. The Exchange will consider for listing and trading pursuant to Rule 19b-4(e) under the Act, Index-Linked Securities provided the following criteria are met:

(A) Requirements Common to All Index-Linked Securities

- (a) Both the issue and the issuer of such security meet the criteria set forth in NYSE Arca Equities Rule 5.2(j)(1) except that: (i) if the Index-Linked Securities are redeemable at the option of the holders thereof on at least a weekly basis, then no minimum number of publicly held trading units, and (ii) a minimum principal amount/market value outstanding of at least \$4 million, and (iii) if the Index-Linked Securities are traded in thousand dollar denominations or are redeemable at the option of the holders thereof on at least a weekly basis, then no minimum number of holders.
- (b) The issue has a minimum term of one (1) year but not greater than thirty (30) years.
- (c) The issue must be the non-convertible debt of the issuer.
- (d) The payment at maturity may or may not provide for a multiple of the direct or inverse performance of an underlying Reference Asset; however, in no event will a loss or negative payment at maturity be accelerated by a multiple that exceeds three times the performance of an underlying Reference Asset.
- (e) The issuer will be expected to have a minimum tangible net worth of \$250,000,000 (if the Index-Linked Securities are fully and unconditionally guaranteed by an affiliate of the issuer, the Exchange will rely on such affiliate's tangible net worth for purposes of this requirement). In the alternative, the issuer will be expected to have a minimum tangible net worth of \$150,000,000 and the original issue price of the Index-Linked Securities, combined with all of the issuer's other Index-Linked Securities listed on a national securities exchange or otherwise publicly traded in the United States, must not be greater than 25 percent of the issuer's tangible net worth at the time of issuance (if the Index-Linked Securities are fully and unconditionally guaranteed by an affiliate of the issuer, the Exchange will apply the provisions of this paragraph to such affiliate instead of the issuer and will include in its calculation all Index-Linked Securities that are fully and unconditionally guaranteed by such affiliate). Government issuers and supranational entities will be evaluated on a case-by-case basis.
- (f) The issuer is in compliance with Rule 10A-3 under the Act.

(B) Requirements Specific to Equity Index-Linked Securities, Commodity-Linked Securities, Currency-Linked Securities, Fixed Income Index-Linked Securities, Futures-Linked Securities and Multifactor Index-Linked Securities.

The issue must meet one of the criteria set forth below.

I. Equity Index-Linked Securities Listing Standards

(1) The Exchange will consider listing Equity Index-Linked Securities that meet the requirements of this subparagraph (B)(I), where the payment at maturity or earlier redemption is based on an index or indexes of equity securities, securities of closed-end management investment companies registered under the Investment Company Act of 1940 (the "1940 Act") and/or investment company units. The issue must meet the following initial listing criteria:

(a) Each underlying index is required to have at least ten (10) component securities.

(b) The index or indexes to which the security is linked will either (1) have been reviewed and approved for the trading of investment company units or options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including comprehensive surveillance sharing agreements for non-U.S. stocks, continue to be satisfied, or (2) the index or indexes meet the following criteria:

(i) Each component security has a minimum market value of at least \$75 million, except that for each of the lowest dollar weighted component securities in the index that in the aggregate account for no more than 10% of the dollar weight of the index, the market value can be at least \$50 million;

(ii) Component stocks that in the aggregate account for at least 90% of the weight of the index each will have a minimum global monthly trading volume of 1,000,000 shares, or minimum global notional volume traded per month of \$25,000,000, averaged over the last six months;

(iii) No underlying component security will represent more than 25% of the dollar weight of the index, and the five highest dollar weighted component securities in the index do not in the aggregate account for more than 50% of the dollar weight of the index (60% for an index consisting of fewer than 25 component securities); and

(iv) 90% of the index's numerical value and at least 80% of the total number of component securities will meet the then current criteria for standardized option trading set forth in NYSE Arca Options Rule 5.3; an index will not be subject to this requirement if (a) no underlying component security

represents more than 10% of the dollar weight of the index and (b) the index has a minimum of 20 components; and

(v) All component securities will be either:

(A) Securities (other than foreign country securities and American Depository Receipts ("ADRs")) that are (x) issued by a 1934 Act reporting company or by an investment company registered under the 1940 Act, which in each case is listed on a national securities exchange, and (y) an "NMS stock" (as defined in Rule 600 of SEC Regulation NMS); or

(B) Foreign country securities or ADRs, provided that foreign country securities or foreign country securities underlying ADRs having their primary trading market outside the United States on foreign trading markets that are not members of the Intermarket Surveillance Group ("ISG") or parties to comprehensive surveillance sharing agreements with the Exchange will not in the aggregate represent more than 50% of the dollar weight of the index, and provided further that:

(i) the securities of any one such market do not represent more than 20% of the dollar weight of the index, and

(ii) the securities of any two such markets do not represent more than 33% of the dollar weight of the index.

(2) Continued Listing Criteria—(a) The Exchange will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Index-Linked Security), if any of the standards set forth above in paragraphs 1(a) and (b)(2) are not continuously maintained, except that:

(i) the criteria that no single component represent more than 25% of the dollar weight of the index and the five highest dollar weighted components in the index cannot represent more than 50% (or 60% for indexes with less than 25 components) of the dollar weight of the Index, need only be satisfied at the time the Index is rebalanced;

(ii) Component stocks that in the aggregate account for at least 90% of the weight of the index each will have a minimum global monthly trading volume of 500,000 shares, or minimum global notional volume traded per month of \$12,500,000, averaged over the last six months.

(b) In connection with an Index-Linked Security that is listed pursuant to paragraph (b)(1) above, the Exchange will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Index-Linked Security) if an underlying index or indexes fails to satisfy the maintenance standards or conditions for such index or indexes as set forth

by the Commission in its order under Section 19(b)(2) of the Act approving the index or indexes for the trading of options or other derivatives.

(c) The Exchange will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Index-Linked Security), under any of the following circumstances:

(i) if the aggregate market value or the principal amount of the Equity Index-Linked Securities publicly held is less than \$400,000;

(ii) if the value of the index or composite value of the indexes is no longer calculated or widely disseminated on at least a 15-second basis with respect to indexes containing only securities listed on a national securities exchange, or on at least a 60-second basis with respect to indexes containing foreign country securities, provided, however, that, if the official index value does not change during some or all of the period when trading is occurring on the Exchange (for example, for indexes of foreign country securities, because of time zone differences or holidays in the countries where such indexes' component stocks trade) then the last calculated official index value must remain available throughout the Exchange's normal trading hours; or

(iii) if such other event will occur or condition exists which in the opinion of the Exchange makes further dealings on the Exchange inadvisable.

(d) Index Rebalancing—Indexes will be rebalanced at least annually.

II. Commodity-Linked Securities Listing Standards

(1) The issue must meet the initial listing standard set forth in either (a) or (b) below:

(a) The Commodity Reference Asset to which the security is linked will have been reviewed and approved for the trading of Commodity-Based Trust Shares or options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including with respect to comprehensive surveillance sharing agreements, continue to be satisfied.

(b) The pricing information for components of a Commodity Reference Asset must be derived from a market which is an ISG member or affiliate or with which the Exchange has a comprehensive surveillance sharing agreement. Notwithstanding the previous sentence, pricing information for gold and silver may be derived from the London Bullion Market Association. A Commodity Reference Asset may include components representing not more than 10% of the dollar weight of such Commodity Reference Asset for which the pricing information is derived from markets that do not meet the requirements of this

subparagraph (b); provided, however, that no single component subject to this exception exceeds 7% of the dollar weight of the Commodity Reference Asset.

In addition, the issue must meet both of the following initial listing criteria:

- (i) the value of the Commodity Reference Asset must be calculated and widely disseminated by one or more major market data vendors on at least a 15-second basis during the Exchange's normal trading hours; and
- (ii) in the case of Commodity-Linked Securities that are periodically redeemable, the indicative value of the subject Commodity-Linked Securities must be calculated and widely disseminated by the Exchange or one or more major market data vendors on at least a 15-second basis during the Exchange's normal trading hours.

(2) The issue must meet the following continued listing criteria:

- (a) The Exchange will commence delisting or removal proceedings if any of the initial listing criteria described above are not continuously maintained.
- (b) The Exchange will also commence delisting or removal proceedings under any of the following circumstances:
 - (i) If the aggregate market value or the principal amount of the Commodity-Linked Securities publicly held is less than \$400,000;
 - (ii) The value of the Commodity Reference Asset is no longer calculated or available and a new Commodity Reference Asset is substituted, unless the new Commodity Reference Asset meets the requirements of this Rule 5.2(j)(6); or
 - (iii) If such other event will occur or condition exists which in the opinion of the Exchange makes further dealings on the Exchange inadvisable.

III. Currency-Linked Securities Listing Standards

(1) The issue must meet the initial listing standard set forth in either (a) or (b) below:

- (a) The Currency Reference Asset to which the security is linked will have been reviewed and approved for the trading of Currency Trust Shares or options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including with respect to comprehensive surveillance sharing agreements, continue to be satisfied.

(b) The pricing information for each component of a Currency Reference Asset must be:

(x) the generally accepted spot or forward price (subject to the list of currencies below), applicable to the component of such Currency Reference Asset, for the currency exchange rate in question or

(y) derived from a market which (i) is an ISG member or affiliate or with which the Exchange has a comprehensive surveillance sharing agreement and (ii) is the pricing source for components of a Currency Reference Asset that has previously been approved by the Commission.

- (iii) a combination of two or more Equity Index Reference Assets or Index Warrants.

.03 Trustee—The following requirements apply:

.04 Voting—Voting rights will be as set forth in the applicable Trust prospectus.

- (3) contains hedge clauses or disclaimers that are not legible, that attempt to disclaim responsibility for the content of such literature or for opinions expressed therein, or that are otherwise inconsistent with such communications.

(b) All advertisements, sales literature and educational material issued by a member organization to any customer or member of the public pertaining to stock index, currency index or currency warrants shall comply with the requirements set forth in the Commentaries to NYSE Arca Equities Rule 9.28. (c) All advertisements, sales literature (except completed worksheets) and educational materials issued by a member organization to any customer or member of the public pertaining to stock index, currency index or currency warrants shall be approved in advance by a Compliance Registered Options Principal or designee thereof. Copies of such advertisements, literature or materials, together with the names of the persons who prepared them, the names of the persons who approved them and, in the case of sales literature, the source of any recommendations contained therein, shall be retained by the member organization and be kept in an easily accessible place for examination by the Exchange for a period of three years.

(d) In addition to the approval required by subsection (c) of this Rule, every advertisement and all educational material of a member organization pertaining to stock index, currency index and currency warrants shall be submitted to the Exchange at least ten days prior to use (or such shorter time as the Exchange may allow in particular instances) for approval and, if changed or expressly disapproved by the Exchange, shall be withheld from circulation until any changes specified by the Exchange have been made or, in the event of disapproval, until such material has been resubmitted for, and has received, Exchange approval. The requirements of this paragraph shall not be applicable to:

(1) advertisements or educational material submitted to another self-regulatory organization having comparable standards pertaining to such advertising or educational material; or

(2) advertisements in which the only reference to stock index, currency index or currency warrants is contained in a listing of services of a member organization.

(e) Definitions. For purposes of this Rule 8.9, the following definitions shall apply:

(1) The term "advertisement" shall include any sales material that reaches a mass audience through public media such as newspapers, periodicals, magazines, radio, television, telephone recordings, motion pictures, audio or video devices, telecommunications devices, billboards, signs or through written sales communications to customers or the public.

describing the general nature of the stock index, currency index or currency warrant markets or one or more strategies.

(3) The term "sales literature" shall include any written communication (not defined as an "advertisement" or as "educational material") distributed or made generally available to customers or the public that contains any analysis, performance report, projection or recommendation with respect to stock index, currency index or currency warrants, underlying indexes or market conditions, any standard forms of worksheets, or any seminar text that pertains to stock index, currency index or currency warrants and that is communicated to customers or the public at seminars, lectures or similar events.

Rule 8.10. Position Limits

(a) Except with prior written approval of the Exchange in each instance, no member organization shall effect for any account in which such member organization has an interest or for the account of any partner, officer, director or employee thereof or for the account of any customer, a purchase or sale transaction (whether on the Exchange or on or through the facilities of, or otherwise subject to the rules of, another national securities exchange or national securities association) in a stock index warrant if the member organization has reason to believe that as a result of such transaction the member organization or partner, officer, director or employee thereof or customer would, acting alone or in concert with others, directly or indirectly, control an aggregate position in an index warrant issue, or in all warrants issued on the same stock index group, on the same side of the market, in excess of the following position limits:

(1) As to index warrants overlying the same index with an initial offering price of \$10 or less, 15 million warrants; and

(2) For stock index warrants with an initial issue price greater than ten dollars, positions in these warrants must be aggregated with positions in stock index warrants on the same index priced initially at or below ten dollars by dividing the original offering price of the index warrant price above ten dollars by ten and multiplying this number by the size of the index warrant position. For example, if an investor held 100,000 stock index warrants priced initially at \$20 per warrant, the size of this position for position limit purposes would be 200,000 or 100,000 times 20/10.

(b) Whenever the Exchange determines that a person or group of persons acting in concert holds or controls an aggregate position (whether long or short) in stock index warrants in excess of the applicable position limits established pursuant to paragraph (a) of this Rule 8.10, it may direct all member organizations carrying a position in stock index warrants for such person or persons to liquidate such position, as expeditiously as possible consistent with the maintenance of an orderly market, to the extent necessary to assure that such person or persons are in compliance with applicable position limits. Whenever such a directive is issued by the Exchange, no member organization receiving

notice thereof shall accept any order to purchase or sell any stock index warrants based on the same stock index for the account of the person or persons named in such directive, unless in each instance the Exchange provides its express approval therefor, or until such directive is rescinded.

Supplementary Material:

.01 The Exchange will not approve any transaction or the carrying of any positions which would exceed the limits established pursuant to this Rule, except in highly unusual circumstances. Requests for such approval must be accompanied by a detailed statement of the facts justifying an exception to such position limits.

.02 The Exchange may establish higher position limits for transactions by member organizations registered as market makers on the Exchange than those applicable with respect to other accounts. Whenever a member organization registered as a market maker on the Exchange reasonably anticipates that he or she may exceed such position limits in the performance of his or her functions as a member organization registered as a market maker on the Exchange, he or she must consult with and obtain the prior approval of the regulatory staff.

Rule 8.11. Exercise Limits

Except with the prior approval of the Exchange in each instance, no member organization shall exercise, for any account in which such member organization has an interest, or for the account of any partner, officer, director or employee thereof, or, for the account of any customer, a long position in any stock index warrant dealt in on the Exchange if as a result thereof such member organization or partner, officer, director or employee thereof or customer, acting alone or in concert with others, directly or indirectly, has or will have exercised within any five (5) consecutive business days aggregate long positions in the number of stock index warrants set forth in Rule 8.10. The Exchange may from time to time institute other limitations concerning the exercise of stock index warrants. All such exercise limitations are separate and distinct from any other exercise limitations imposed by the issuers of index warrants.

Rule 8.12. Trading Halts or Suspensions

Trading on the Exchange in any currency and index warrant will be halted or suspended whenever trading in underlying securities whose weighted value represents more than 20%, in the case of a broad based index, and 10% for all other indices, of the index value is halted or is suspended. Trading in a currency or index warrant will also be halted whenever the Exchange deems such action appropriate in the interests of a fair and orderly market or to protect investors. Among the factors that may be considered by the Exchange are the following:

- (i) all trading has been halted or suspended in the market that is the primary market for a plurality of the underlying stocks;
- (ii) the current calculation of the index derived from the current market prices of the stocks is not available; or
- (iii) other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

Trading in currency or index warrants that have been the subject of a halt or suspension by the Exchange may resume if the Exchange determines that the conditions which led to the halt or suspension are no longer present, or that the interests of a fair and orderly market are best served by a resumption of trading.

Rule 8.13. Reporting of Warrant Positions

(a) Each member organization shall file with the Exchange a report with respect to each account in which the member organization has an interest, each account of a partner, officer, director, or employee of such member organization and each customer account, that has established an aggregate position (whether long or short) of 100,000 warrants covering the same underlying index, currency or currency index, combining for purposes of this Rule: (1) long positions in put warrants and short positions in call warrants, and (2) short positions in put warrants with long positions in call warrants. The report shall be in such form as may be prescribed by the Exchange and shall be filed no later than the close of business on the next day following the day on which the transaction or transactions requiring the filing of such report occurred. Whenever a report shall be required to be filed with respect to an account pursuant to this Rule, the member organization filing the report shall file with the Exchange such additional periodic reports with respect to such account as the Exchange may from time to time prescribe. In computing reportable positions, warrants on a stock index shall not be aggregated with: (1) warrants on any other stock index, (2) options on any stock index or (3) options or warrants on any stock or group of stocks included in such index.

(b) In addition to the reports required by subsection (a) of this Rule, each member organization shall report promptly to the Exchange any instance in which such member organization has reason to believe that a person, acting alone or in concert with others, has exceeded or is attempting to exceed the position limits prescribed in Rule 8.10 or the exercise limits prescribed in Rule 8.11.

(c) All reports required by this Rule shall be filed with the Exchange in such manner and form as prescribed by the Exchange.

Section 2. Portfolio Depositary Receipts

Rule 8.100. Portfolio Depositary Receipts

(a) Definitions.

(1) *Portfolio Depositary Receipt.* The term "Portfolio Depositary Receipt" means a security:

(a) that is based on a unit investment trust ("Trust") that holds the securities that comprise an index or portfolio underlying a series of Portfolio Depositary Receipts;

(b) that is issued by the Trust in a specified aggregate minimum number in return for a "Portfolio Deposit" consisting of specified numbers of shares of stock and/or a cash amount, a specified portfolio of fixed income securities and/or a cash amount and/or a combination of the above;

(c) that, when aggregated in the same specified minimum number, may be redeemed from the Trust which will pay to the redeeming holder the stock and/or cash, fixed income securities and/or cash and/or a combination thereof then comprising the "Portfolio Deposit"; and

(d) that pays holders a periodic cash payment corresponding to the regular cash dividends or distributions declared with respect to the component securities of the securities index or portfolio of securities underlying the Portfolio Depositary Receipts, less certain expenses and other charges as set forth in the Trust prospectus.

(2) *Reporting Authority.* The term "Reporting Authority" in respect of a particular series of Portfolio Depositary Receipts means the Exchange, an institution (including the Trustee for a series of Portfolio Depositary Receipts), or a reporting service designated by the Exchange or by the exchange that lists a particular series of Portfolio Depositary Receipts (if the Exchange is trading such series pursuant to unlisted trading privileges) as the official source for calculating and reporting information relating to such series, including, but not limited to, any current index or portfolio value; the current value of the portfolio of securities required to be deposited to the Trust in connection with the issuance of Portfolio Depositary Receipts; the amount of any dividend equivalent payment or cash distribution to holders of Portfolio Depositary Receipts, net asset value, or other information relating to the creation, redemption or trading of Portfolio Depositary Receipts.

(3) *US Component Stock.* The term "US Component Stock" will mean an equity security that is registered under Sections 12(b) or 12(g) of the Securities Exchange Act of 1934 or an American Depositary Receipt, the underlying equity security of which is registered under Sections 12(b) or 12(g) of the Securities Exchange Act of 1934.

(4) *Non-US Component Stock.* The term "Non-US Component Stock" will mean an equity security that is not registered under Sections 12(b) or 12(g) of the Securities Exchange Act of 1934 and that is issued by an entity that (a) is not organized, domiciled or incorporated in the United States, and (b) is an operating company

(including Real Estate Investment Trusts (REITS) and income trusts, but excluding investment trusts, unit trusts, mutual funds, and derivatives).

(b) *Applicability.* This Rule is applicable only to Portfolio Depositary Receipts. Except to the extent inconsistent with this Rule, or unless the context otherwise requires, the provisions of the Bylaws and all other Rules and policies of the Board of Directors are applicable to the trading on the Exchange of such securities. Portfolio Depositary Receipts are included within the definition of "security" or "securities" as such terms are used in the Bylaws and Rules of the Exchange.

(c) *Disclosures.* The provisions of this subparagraph apply only to series of Portfolio Depositary Receipts that are the subject of an order by the Securities and Exchange Commission exempting such series from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and are not otherwise subject to prospectus delivery requirements under the Securities Act of 1933. The Exchange will inform member organizations regarding application of these provisions of this subparagraph to a particular series of Portfolio Depositary Receipts by means of an information circular prior to commencement of trading in such series.

A member organization will provide to all purchasers of a series of Portfolio Depositary Receipts a written description of the terms and characteristics of such securities, in a form approved by the Exchange, or prepared by the unit investment trust issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, member organizations will include such a written description with any sales material relating to a series of Portfolio Depositary Receipts that is provided to customers or the public. Any other written materials provided by a member organization to customers or the public making specific reference to a series of Portfolio Depositary Receipts as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the series of Portfolio Depositary Receipts] is available from your broker. It is recommended that you obtain and review such circular before purchasing [the series of Portfolio Depositary Receipts]. In addition, upon request you may obtain from your broker a prospectus for [the series of Portfolio Depositary Receipts]."

A member organization carrying an omnibus account for a non-member organization broker-dealer is required to inform such non-member organization that execution of an order to purchase a series of Portfolio Depositary Receipts for such omnibus account will be deemed to constitute agreement by the non-member organization to make such written description available to its customers on the same terms as are directly applicable to member organizations under this Rule.

Upon request of a customer, a member organization will also provide a prospectus for the particular series of Portfolio Depositary Receipts.

(d) *Designation of an Index or Portfolio.* The trading of Portfolio Depositary Receipts based on one or more stock indexes or securities portfolios, whether by listing or

pursuant to unlisted trading privileges, will be considered on a case-by-case basis. The Portfolio Depositary Receipts based on each particular stock index or portfolio will be designated as a separate series and will be identified by a unique symbol. The stocks that are included in an index or portfolio on which Portfolio Depositary Receipts are based will be selected by the Exchange or by such other person as will have a proprietary interest in and authorized use of such index or portfolio, and may be revised from time to time as may be deemed necessary or appropriate to maintain the quality and character of the index or portfolio.

(e) *Initial and Continued Listing and/or Trading.* A Trust upon which a series of Portfolio Depositary Receipts is based will be traded on the Exchange, whether by listing or pursuant to unlisted trading privileges, subject to the following criteria:

(1) Initial Listing

(i) The minimum number of Portfolio Depositary Receipts required to be outstanding at commencement of trading is set forth in Supplementary Material .01 paragraph (d) of this Rule.

(ii) The Exchange will obtain a representation from the issuer of each series of Portfolio Depositary Receipts that the net asset value per share for the series will be calculated daily and will be made available to all market participants at the same time.

(2) Continued Listing

(i) The Exchange will consider the suspension of trading and delisting (if applicable) of a Trust upon which a series of Portfolio Depositary Receipts is based under any of the following circumstances:

(A) if, following the initial twelve month period after the formation of a Trust and commencement of trading on the Exchange, the Trust has more than 60 days remaining until termination and there are fewer than 50 record and/or beneficial holders of Portfolio Depositary Receipts for 30 or more consecutive trading days;

(B) if the value of the index or portfolio of securities on which the Trust is based is no longer calculated or available; or

(C) if such other event will occur or condition exists which in the opinion of the Exchange, makes further dealings on the Exchange inadvisable.

(ii) The Exchange will halt trading in a series of Portfolio Depositary Receipts if the circuit breaker parameters of Rule 80B have been reached. In exercising its discretion to halt or suspend trading in a series of Portfolio Depositary Receipts, the Exchange may consider factors such as the extent to which trading in the

underlying securities is not occurring or whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present, in addition to other factors that may be relevant. The remainder of this paragraph (ii) will apply only when the Exchange is the listing market for a series of Portfolio Depositary Receipts. If the Intraday Indicative Value (as defined in Supplementary Material .01 to Rule 8.100) or the official index value applicable to that series of Portfolio Depositary Receipts is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the Intraday Indicative Value or the index value occurs. If the interruption to the dissemination of the Intraday Indicative Value or the official index value persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption. Procedures for trading halts in connection with an interruption in the calculation or dissemination of the Intraday Indicative Value or the official index value for Portfolio Depositary Receipts traded pursuant to unlisted trading privileges are set forth in Rule 7.18.

(iii) Upon termination of a Trust, the Exchange requires that Portfolio Depositary Receipts issued in connection with such Trust be removed from Exchange listing or have their unlisted trading privileges terminated. A Trust may terminate in accordance with the provisions of the Trust prospectus, which may provide for termination if the value of securities in the Trust falls below a specified amount.

(3) Term—The stated term of the Trust will be as stated in the Trust prospectus. However, a Trust may be terminated under such earlier circumstances as may be specified in the Trust prospectus.

(4) Trustee—The trustee must be a trust company or banking institution having substantial capital and surplus and the experience and facilities for handling corporate trust business. In cases where, for any reason, an individual has been appointed as trustee, a qualified trust company or banking institution must be appointed co-trustee.

(5) Voting—Voting rights will be as set forth in the Trust prospectus. The trustee of a Trust may have the right to vote all of the voting securities of such Trust.

The Intraday Indicative Value may be based, for example, upon current information regarding the required deposit of securities and cash amount to permit creation of new shares of the series or upon the index value. The Intraday Indicative Value may be calculated by the Exchange or by an independent third party throughout the day using prices obtained from independent market data providers or other independent pricing sources such as a broker-dealer or price evaluation services. If the Intraday Indicative Value does not change during some or all of the period when trading is occurring on the Exchange, then the last official calculated Intraday Indicative Value must remain available throughout the Exchange's trading hours.

- (ii) The current composite index value for Portfolio Depository Receipts listed pursuant to Supplementary Material .01(a) or .02(a) above will be widely disseminated by one or more major market data vendors at least once every 15 seconds during the Exchange's normal trading hours, provided however, that (a) with respect to the Non-US Component Stocks of the combination index, the impact on the index is only required to be updated at least every 60 seconds during the Exchange's normal trading hours, and (b) with respect to the fixed income components of the combination index, the impact on the index is only required to be updated at least once each day; and

(2) In addition to the existing obligations under Exchange rules regarding the production of books and records (see, e.g., Rule 440), the member organization acting as a registered market maker on the Exchange in Commodity Futures Trust Shares will make available to the Exchange such books, records or other information pertaining to transactions by such entity or any limited partner, officer or approved person thereof, registered or non-registered employee affiliated with such entity for its or their own accounts in the underlying commodity, related futures or options on futures, or any other related derivatives, as may be requested by the Exchange.

(g) Limitation of Exchange Liability . Neither the Exchange, the Reporting Authority nor any agent of the Exchange will have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any underlying futures contract value; the current value of positions or interests if required to

be deposited to the Trust in connection with issuance of Commodity Futures Trust Shares; net asset value; or other information relating to the purchase, redemption or trading of Commodity Futures Trust Shares, resulting from any negligent act or omission by the Exchange, or the Reporting Authority, or any agent of the Exchange, or any act, condition or cause beyond the reasonable control of the Exchange or its agent, or the Reporting Authority, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reporting of transactions in an underlying futures contract.

(h) The Exchange will file separate proposals under Section 19(b) of the Securities Exchange Act of 1934 before listing and trading separate and distinct Commodity Futures Trust Shares designated on different underlying futures contracts.

Supplementary Material:

.02 Transactions in Commodity Futures Trust Shares will occur during the Exchange's normal trading hours.

.03 If the Indicative Trust Value or the value of the underlying futures contract is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the Indicative Trust Value or the value of the underlying futures contract occurs. If the interruption to the dissemination of the Indicative Trust Value or the value of the underlying futures contract persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption.

In addition, if the Exchange becomes aware that the net asset value with respect to a series of Commodity Futures Trust Shares is not disseminated to all market participants at the same time, it will halt trading in such series until such time as the net asset value or the Disclosed Portfolio is available to all market participants.

.04 The Exchange's rules governing the trading of equity securities apply.

.05 The Exchange will implement written surveillance procedures for Commodity Futures Trust Shares.

Rule 8.300. Partnership Units

(ii) if the value of the underlying benchmark investment, commodity or asset is no longer calculated or available on at least a 15-second delayed basis or the Exchange stops providing a hyperlink on its website to any such investment, commodity, or asset value;

No member organization acting as registered market maker on the Exchange in the Partnership Units will trade in the underlying asset or commodity, related futures or options on futures, or any other related derivatives, in an account in which a member organization acting as a registered market maker on the Exchange, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange as required by this Rule.

(2) In addition to the existing obligations under Exchange rules regarding the production of books and records (See, e.g. Rule 440), the member organization acting as a registered market maker on the Exchange in Partnership Units will make available to the Exchange such books, records or other information pertaining to transactions by such entity or any limited partner, officer or

Rule 8.400. Paired Trust Shares

(a) Applicability. The provisions in this Rule are applicable only to Paired Trust Shares. In addition, except to the extent inconsistent with this Rule, or unless the context otherwise requires, the rules and procedures of the Board of Directors will be applicable to the trading on the Exchange of such securities. Paired Trust Shares are included within the definition of "security" and "equity securities" as such terms are used in Rule 5.1(b).

(b) Definitions. The following terms as used in the Rules will, unless the context otherwise requires, have the meanings herein specified:

(1) Paired Trust Shares. Two distinct types of securities are included in the term "Paired Trust Shares." The term Paired Trust Shares refers to: (i) both "Holding Shares" and "Tradeable Shares," as defined below, or (ii) solely Trading Shares, as defined below.

(A) Holding Shares and Tradeable Shares

(i) Holding Shares. The term "Holding Share" means a security (a) that is issued by either of a matched pair of trusts ("Holding Trusts") whose respective underlying values move in opposite directions as the value of a specified Reference Price (defined in Rule 8.400(c)) varies from its starting level, (b) that is issued in exchange for cash, (c) a majority (but not necessarily all) of which will be acquired and deposited in a related Tradeable Trust (as defined herein), (d) the issuance proceeds of which are invested and reinvested in highly rated short-term financial instruments that mature prior to the next scheduled income distribution date for the security and that serve the functions of (i) securing the contractual obligations between the two paired Holding Trusts, (ii) covering the trust's expenses, and (iii) if any amount remains, providing periodic income distributions to investors, based on income (after expenses) from the financial instruments held by the paired Holding Trusts,¹ (e) that represents a beneficial interest in the Holding Trust that issued it, (f) the value of which is determined by the underlying value of the related Holding Trust, which underlying value will either (1) increase as a result of an increase in the Reference Price and decrease as a result of a decrease in the Reference Price (in the case of an "Up Holding Share" issued by an "Up Holding Trust") or (2) increase as a result of a decrease in the Reference Price and decrease as the result of an increase in the Reference Price (in the case of a "Down Holding Share" issued by the paired "Down Holding Trust"), (g) whose issuing Holding Trust enters into one or more settlement contracts² and an income distribution agreement³ with the other paired Holding Trust, (h) that, when timely aggregated in a specified minimum number or amount of securities, along with a specified multiple of that number or amount of securities issued by the other paired Holding Trust (these minimum specified amounts together constituting a "Creation Unit" of the paired Holding Shares), may be redeemed for a distribution of cash and/or securities on specified dates by authorized parties, and (i) that may be subject to early mandatory redemption of all Holding Shares prior to the final scheduled termination date under specified circumstances.

(ii) Tradeable Shares. The term "Tradeable Share" means a security (a) that is issued by a trust ("Tradeable Trust") in exchange for the deposit of Holding Shares (or cash, which cash is then used to purchase Holding Shares) into the Tradeable Trust, with the Holding Shares that are held by the Tradeable Trust being either (1) Up Holding Shares (in the case of an "Up Tradeable Share" issued by an "Up Tradeable Trust") or (2) "Down Holding Shares" (in the case of a "Down Tradeable Share" issued by a "Down Tradeable Trust"), (b) that represents an undivided beneficial interest in the Tradeable Trust that issued it, (c) the distributions on which (which are solely pass through distributions received on the Holding Shares that are held by the issuing Tradeable Trust) will thereby either (1) increase as a result of an increase in the Reference Price and decrease as a result of a decrease in the Reference Price (in the case of an Up Tradeable Share) or (2) increase as a result of a decrease in the Reference Price and decrease as the result of an increase in the Reference Price (in the case of a Down Tradeable Share), in each case as a result of the corresponding

change in the underlying value of the Holding Trust (see paragraph (b)(2) of this rule) whose Holding Shares are held by the issuing Tradeable Trust, (d) that may have an exchange feature that will allow authorized parties to exchange such Tradeable Shares for the underlying Holding Shares that are held by the Tradeable Trust that issued the Tradeable Shares and that can be redeemed for cash and/or securities (any such redemption to be done in specified aggregates called Creation Units that include Holding Shares issued by the other paired Holding Trust, as described in the preceding paragraph), and (e) that may be subject to early mandatory redemption of all Tradeable Shares prior to the final scheduled termination date under specified circumstances.

(B) Trading Shares. The term "Trading Share" means a security (a) that is issued by either of a matched pair of trusts ("Trading Trusts") whose respective underlying values move in opposite directions as the value of a specified Reference Price (defined in Rule 8.400(c)) varies from its starting level, (b) that is issued in exchange for cash, (c) the issuance proceeds of which are invested and reinvested in highly rated short-term financial instruments that mature prior to the next scheduled income distribution date for the security and that serve the functions of (i) securing the contractual obligations between the two paired Trading Trusts, (ii) covering the trust's expenses, and (iii) if any amount remains, providing periodic income distributions to investors, based on income (after expenses) from the financial instruments held by the paired Trading Trusts, (d) that represents a beneficial interest in the Trading Trust that issued it, (e) the value of which is determined by the underlying value of the related Trading Trust, which underlying value will either (i) increase as a result of an increase in the Reference Price and decrease as a result of a decrease in the Reference Price (in the case of an "Up Trading Share" issued by an "Up Trading Trust") or (ii) increase as a result of a decrease in the Reference Price and decrease as the result of an increase in the Reference Price (in the case of a "Down Trading Share" issued by the paired "Down Trading Trust"), (f) whose issuing Trading Trust enters into one or more settlement contracts and an income distribution agreement with the other paired Trading Trust, (g) that, when timely aggregated in a specified minimum number or amount of securities, along with a specified multiple of that number or amount of securities issued by the other paired Trading Trust (these minimum specified amounts together constituting a "Creation Unit" of the paired Trading Shares), may be redeemed for a distribution of cash and/or securities on specified dates by authorized parties, and (h) that may be subject to early mandatory redemption of all Trading Shares prior to the final scheduled termination date under specified circumstances.

(c) Designation of an Underlying Reference Price. The Exchange may list and trade Paired Trust Shares whose values are determined based on the value of a "Reference Price," which is an index or other numerical variable that may measure assets, prices or other economic interests. The mechanism that incorporates the value of the Reference Price into the value determination for the Paired Trust Shares consists of one or more

settlement contracts and an earnings distribution agreement that are entered into by and between the paired Holding Trusts that issue the Holding Shares or by and between the paired Trading Trusts that issue the Trading Shares, as the case may be. Each issue of Paired Trust Shares will be designated as a separate series and will be identified by a unique symbol.

(d) Initial and Continued Listing. Paired Trust Shares will be listed and traded on the Exchange subject to application of the following criteria:

(1) Initial Listing

(i) For each Holding Trust, Tradeable Trust or Trading Trust, the Exchange will establish a minimum number of Paired Trust Shares required to be outstanding at the time of commencement of trading on the Exchange.

(ii) The Exchange will obtain a representation on behalf of the trusts for each series of Paired Trust Shares that the underlying value per share of each Up Holding Share, Down Holding Share, Up Tradeable Share and Down Tradeable Share (in the case of a series with Holding Shares and Tradeable Shares) or each Up Trading Share and Down Trading Share (in the case of a series with Trading Shares) will be calculated daily and will be made available to all market participants at the same time.

(2) Continued Listing—The Exchange will remove from listing any series of Paired Trust Shares under any of the following circumstances:

(i) if following the initial twelve month period following the commencement of trading of the shares, (A) a Tradeable Trust or a Trading Trust, as the case may be, has more than 60 days remaining until termination and there are fewer than 50 record and/or beneficial holders of Up Tradeable Shares or Down Tradeable Shares, or Up Trading Shares or Down Trading Shares, as the case may be, for 30 or more consecutive trading days; (B) if a Tradeable Trust has fewer than 50,000 Up Tradeable Shares or Down Tradeable Shares issued and outstanding, or if a Trading Trust has fewer than 50,000 Up Trading Shares or Down Trading Shares issued and outstanding; or (C) if the combined market value of all shares issued and outstanding for a matched pair of Holding Trusts, Tradeable Trusts or Trading Trusts representing opposite positions in the value of a Reference Price is less than \$1,000,000;

(ii) if the intraday value of the Reference Price, as specified in the prospectus for the series of Paired Trust Shares, is no longer calculated or available on at least a 15-second delayed basis during the time such Paired Trust Shares trade on the Exchange from a source unaffiliated with the sponsor, custodian, depositor, Tradeable Trust, Trading Trust, Holding Trust or the Exchange that is a major market data vendor (e.g., Reuters or Bloomberg), as applicable; provided, however, that, for a series of Paired Trust Shares for which the value of the Reference Price is

not updated intraday, such value will be calculated and available once each trading day;

- (iii) unless a series of Paired Trust Shares has been approved for listing and trading by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934 without the requirement that an intraday indicative value be made available as set forth in this subparagraph (iii), if the intraday indicative value of the underlying value of each listed Up Holding Share, Down Holding Share, Up Tradeable Share or Down Tradeable Share (in the case of a series with Holding Shares and Tradeable Shares) or each Up Trading Share and Down Trading Share (in the case of a series with Trading Shares), as the case may be, is no longer made available on at least a 15-second delayed basis by a major market data vendor during the time the Tradeable Shares or Trading Shares trade on the Exchange;
- (iv) if a substitute index or other replacement benchmark is selected for the determination of the Reference Price, unless the Exchange files with the Commission a related proposed rule change pursuant to Rule 19b-4 under the Securities Exchange Act of 1934 seeking approval to continue trading the Tradeable Shares or Trading Shares, as the case may be, and such rule change is approved by the Commission; or
- (v) if such other event will occur or condition exists which in the opinion of the Exchange makes further dealings on the Exchange inadvisable.

The Exchange will halt trading in a series of Paired Trust Shares if the circuit breaker parameters of Rule 80B have been reached. In exercising its discretion to halt or suspend trading in a series of Paired Trust Shares, the Exchange may consider factors such as the extent to which trading in the underlying securities is not occurring or whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present, in addition to other factors that may be relevant. The remainder of this paragraph will apply only when the Exchange is the listing market for a series of Paired Trust Shares. If the intraday indicative value of the underlying value allocable to an Up Tradeable Share or Down Tradeable Share (in the case of a series with Holding Shares and Tradeable Shares) or to an Up Trading Share or Down Trading Share (in the case of a series with Trading Shares) or the intraday value of the Reference Price applicable to that series of Paired Trust Shares is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the intraday indicative value of such underlying value allocation or the intraday value of the applicable Reference Price occurs. If the interruption to the dissemination of the intraday indicative value of such underlying value allocation or the intraday value of the applicable Reference Price persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption.

Upon termination of a Holding Trust, Tradeable Trust or Trading Trust, the Exchange requires that Paired Trust Shares issued in connection with such trust be removed from

Exchange listing. A Holding Trust, Tradeable Trust or Trading Trust may terminate in accordance with the provisions of the trust prospectus under circumstances specified therein.

(3) Term - The stated term of a Holding Trust, Tradeable Trust or Trading Trust will be as stated in the trust prospectus. However, a trust may be terminated under such earlier circumstances as may be specified in the trust prospectus.

(4) Trustee - The following requirements apply:

(i) The trustee of a Holding Trust, Tradeable Trust or Trading Trust must be a trust company or banking institution having substantial capital and surplus and the experience and facilities for handling corporate trust business. In cases where, for any reason, an individual has been appointed as trustee, a qualified trust company or banking institution must be appointed co-trustee.

(ii) No change is to be made in the trustee of a listed issue without prior notice to and approval of the Exchange.

(5) Voting - Voting rights will be as set forth in the applicable Holding Trust, Tradeable Trust or Trading Trust prospectus.

(e) Market Maker Accounts.

(1) The member organization acting as a registered market maker on the Exchange in Paired Trust Shares must file, with the Exchange, in a manner prescribed by the Exchange, and keep current a list identifying all accounts for trading the asset, commodity or other economic interest underlying the Reference Price, related options, related futures or options on futures, or any other related derivatives, which the member organization acting as registered market maker on the Exchange may have or over which it may exercise investment discretion. No member organization acting as registered market maker on the Exchange in the Paired Trust Shares will trade in the asset, commodity or other economic interest underlying the Reference Price, related options, related futures or options on futures, or any other related derivatives, in an account in which a member organization acting as a registered market maker on the Exchange, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange as required by this Rule.

(2) In addition to the existing obligations under Exchange rules regarding the production of books and records (See, e.g. Rule 440), the member organization acting as a registered market maker on the Exchange in Paired Trust Shares will make available to the Exchange such books, records or other information pertaining to transactions by such entity or any limited partner, officer or approved person thereof, registered or non-registered employee affiliated with such entity for its or their own accounts in the asset, commodity or other economic interest underlying

the Reference Price, related options, related futures or options on futures, or any other related derivatives, as may be requested by the Exchange.

(f) Limitation of Exchange Liability. Neither the Exchange nor any agent of the Exchange will have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any Reference Price value, the underlying values of the trusts; distribution values; or other information relating to the purchase, redemption or trading of Paired Trust Shares, resulting from any negligent act or omission by the Exchange or any agent of the Exchange, or any act, condition or cause beyond the reasonable control of the Exchange or its agent, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reports of transactions in an underlying economic variable.

Supplementary Material:

.01 The Exchange requires that member organizations provide to all purchasers of newly issued Paired Trust Shares a prospectus for the series of Paired Trust Shares.

.02 Transactions in Paired Trust Shares will occur during the Exchange's normal trading hours.

.03 The Exchange will file separate proposals under Section 19(b) of the Securities Exchange Act of 1934 before listing and trading Paired Trust Shares designated on different Reference Prices.

¹ The periodic distributions from each Holding Trust will be made immediately following the periodic transfer of such income (after expenses) between the paired Holding Trusts under the terms of the income distribution agreement as described in clause (g) of this definition.

² When Holding Shares are redeemed in a paired optional redemption or upon early or final termination, the settlement contracts between the two Holding Trusts provide for the appropriate transfer of assets between the paired Holding Trusts so that the Holding Shares of each Holding Trust may be redeemed in proportion to the per share underlying value of that Holding Trust.

³ The income distribution agreement between the two Holding Trusts provides for the periodic transfer between the paired Holding Trusts of income (after payment of expenses) received by each Holding Trust from the financial instruments held by that Holding Trust, with the amount of each periodic transfer based on the proportionate change in the Reference Price from its starting level at one or more points during the period following the previous periodic transfer of such income between the paired Holding Trusts.

Rule 8.500. Trust Units

(a) Applicability. The provisions in this Rule are applicable only to Trust Units. In addition, except to the extent inconsistent with this Rule, or unless the context otherwise requires, the rules and procedures of the Board of Directors will be applicable to the trading on the Exchange of such securities. Trust Units are included within the definition of "security" and "equity securities" as such terms are used in Rule 5.1(b).

(ii) The Exchange will obtain a representation from the issuer of each series of Trust Units that the net asset value per share for the series will be calculated daily and will be made available to all market participants at the same time.

(2) Continued Listing.

(i) The Exchange will remove from listing Trust Units under any of the following circumstances:

(A) if following the initial twelve month period following the commencement of trading of Trust Units, (A) the trust has more than 60 days remaining until termination and there are fewer than 50 record and/or beneficial holders of Trust Units for 30 or more consecutive trading days; (B) if the trust has fewer than

50,000 Trust Units issued and outstanding; or (C) if the market value of all Trust Units issued and outstanding is less than \$1,000,000; or

(B) if such other event will occur or condition exists which in the opinion of the Exchange makes further dealings on the Exchange inadvisable.

(ii) The Exchange will halt trading in a series of Trust Units if the circuit breaker parameters in Rule 80B have been reached. In exercising its discretion to halt or suspend trading in a series of Trust Units, the Exchange may consider any relevant factors. In particular, if the portfolio and net asset value per share are not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the portfolio holdings or net asset value per share occurs. If the interruption to the dissemination of the portfolio holdings or net asset value per share persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption.

Upon termination of a trust, the Exchange requires that Trust Units issued in connection with such trust be removed from Exchange listing. A trust will terminate in accordance with the provisions of the prospectus.

(3) Term — The stated term of the trust will be as stated in the prospectus. However, such entity may be terminated under such earlier circumstances as may be specified in the prospectus.

No market maker on the Exchange will trade in an underlying commodity, related commodity futures or options on commodity futures, or any other related commodity derivatives, in an account in which a market maker on the Exchange, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange as required by this Rule.

In addition to the existing obligations under Exchange rules regarding the production of books and records, the member organization acting as a market maker on the Exchange in Trust Units will make available to the Exchange such books, records or other information pertaining to transactions by such entity or registered or non-registered employee affiliated with such entity for its or their own accounts for trading the underlying physical commodity, related commodity futures or options on commodity futures, or any other related commodity derivatives, as may be requested by the Exchange.

The Exchange requires that member organizations provide to all purchasers of a series of Managed Fund Shares a written description of the terms and characteristics of those securities, in a form prepared by the open-end management investment company issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser.
