¹⁰ Firm Proprietary manual trades are those trades executed in open outcry on behalf of an ATP holder that clear in the firm range. Firm Proprietary manual or open outcry trades will be subject to tiered pricing based on an ATP holders monthly volume that clears in the firm range. Firm Proprietary volumes executed electronically will not be subject to tiered pricing and will be charged at the flat rate of \$.20 per contract. Any volumes attributable to the Strategy Executions fee cap of either \$750 per option class per day or the \$25,000 monthly Strategy Execution Cap will not be counted towards any of these volume thresholds. Tiered pricing will be aggregated by trading permit unless an ATP Holder elects to apply the tiers at the initiating firm level.
