SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-70902; File No. SR-NYSEArca-2013-121)

November 19, 2013

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change Relating to the Listing and Trading of Shares of AdvisorShares Sage Core Reserves ETF under NYSE Arca Equities Rule 8.600

Pursuant to Section 19(b)(1)\(^1\) of the Securities Exchange Act of 1934 (the “Act”)\(^2\) and Rule 19b-4 thereunder,\(^3\) notice is hereby given that, on November 5, 2013, NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade the shares of the following under NYSE Arca Equities Rule 8.600 (“Managed Fund Shares”): AdvisorShares Sage Core Reserves ETF. The text of the proposed rule change is available on the Exchange’s website at [www.nyse.com](http://www.nyse.com), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places

\(^3\) 17 CFR 240.19b-4.
specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

1. **Purpose**

The Exchange proposes to list and trade shares (“Shares”) of the following under NYSE Arca Equities Rule 8.600, which governs the listing and trading of Managed Fund Shares:4 AdvisorShares Sage Core Reserves ETF (“Fund”). The Shares will be offered by AdvisorShares Trust (the “Trust”), 5 a statutory trust organized under the laws of the State of Delaware and registered with the Commission as an open-end management investment company.6 The

---

4 A Managed Fund Share is a security that represents an interest in an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (“1940 Act”) organized as an open-end investment company or similar entity that invests in a portfolio of securities selected by its investment adviser consistent with its investment objectives and policies. In contrast, an open-end investment company that issues Investment Company Units, listed and traded on the Exchange under NYSE Arca Equities Rule 5.2(j)(3), seeks to provide investment results that correspond generally to the price and yield performance of a specific foreign or domestic stock index, fixed income securities index or combination thereof.

5 The Trust is registered under the 1940 Act. On August 13, 2013, the Trust filed with the Commission an amendment to its registration statement on Form N-1A under the Securities Act of 1933 (15 U.S.C. 77a) (“Securities Act”), and under the 1940 Act relating to the Fund (File Nos. 333-157876 and 811-22110) (“Registration Statement”). The description of the operation of the Trust and the Fund herein is based, in part, on the Registration Statement. In addition, the Commission has issued an order granting certain exemptive relief to the Trust under the 1940 Act. See Investment Company Act Release No. 29291 (May 28, 2010) (File No. 812-13677) (“Exemptive Order”).

investment adviser to the Fund will be AdvisorShares Investments, LLC (the “Adviser”). Sage Advisory Services Ltd. Co. (“Sub-Adviser”) will be the Fund’s sub-adviser and will provide day-to-day portfolio management of the Fund. Foreside Fund Services, LLC (the “Distributor”) will be the principal underwriter and distributor of the Fund’s Shares. The Bank of New York Mellon (the “Administrator”) will serve as the administrator, custodian, transfer agent, and accounting agent for the Fund.

Commentary .06 to Rule 8.600 provides that, if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio. In addition, Commentary .06 further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the open-end fund’s portfolio. 7 Commentary .06 to Rule 8.600 is similar to Commentary .03(a)(i) and (iii) to

7 An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser and Sub-Adviser and their related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated
NYSE Arca Equities Rule 5.2(j)(3); however, Commentary .06 in connection with the establishment of a “fire wall” between the investment adviser and the broker-dealer reflects the applicable open-end fund’s portfolio, not an underlying benchmark index, as is the case with index-based funds. Neither the Adviser nor the Sub-Adviser is registered as a broker-dealer or is affiliated with a broker-dealer. In the event (a) the Adviser or the Sub-Adviser becomes a registered broker-dealer or becomes newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its relevant personnel or its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

**Principal Investments**

According to the Registration Statement, the Fund will seek to preserve capital while maximizing income. Under normal market conditions, the Sub-Adviser will seek to achieve the Fund’s investment objective by investing at least 80% of the Fund’s net assets in a variety of fixed income securities issued by U.S. and foreign issuers. Such fixed income securities will be U.S. dollar-denominated investment grade debt securities rated Baa or higher by Moody’s Investors Service, Inc. (“Moody’s”), or equivalently rated by Standard & Poor’s Ratings

---

8 The term “under normal market conditions” means, without limitation, the absence of extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.
Services (“S&P”) or Fitch, Inc. (“Fitch”), or, if unrated, determined by the Sub-Adviser to be of comparable quality. The Fund may retain a security if its rating falls below investment grade and the Sub-Adviser determines that retention of the security is in the Fund’s best interest.9

The Exchange notes that the Fund’s investment portfolio of fixed income securities will meet certain criteria for index-based, fixed income exchange-traded funds (“ETFs”) contained in NYSE Arca Equities Rule 5.2(j)(3), Commentary .02.10

9 In determining whether a security is of “comparable quality”, the Sub-Adviser will consider, for example, whether the issuer of the security has issued other rated securities; whether the obligations under the security are guaranteed by another entity and the rating of such guarantor (if any); whether and (if applicable) how the security is collateralized; other forms of credit enhancement (if any); the security’s maturity date; liquidity features (if any); relevant cash flow(s); valuation features; other structural analysis; macroeconomic analysis and sector or industry analysis.

10 See NYSE Arca Equities Rule 5.2(j)(3), Commentary .02 governing fixed income based Investment Company Units. The requirements of Rule 5.2(j)(3), Commentary .02(a) that will be met include the following: (i) The index or portfolio must consist of Fixed Income Securities (as defined in Rule 5.2(j)(3), Commentary.02) (Commentary .02(a)(1)); (ii) components that in the aggregate account for at least 75% of the weight of the index or portfolio each must have a minimum original principal amount outstanding of $100 million or more (Rule 5.2(j)(3), Commentary.02(a)(2)); (iii) a component may be a convertible security; however, once the convertible security converts to an underlying equity security, the component is removed from the index or portfolio (Rule 5.2(j)(3), Commentary.02(a)(3)); (iv) no component fixed-income security (excluding Treasury Securities) will represent more than 30% of the weight of the index or portfolio, and the five highest weighted component fixed-income securities do not in the aggregate account for more than 65% of the weight of the index or portfolio (Rule 5.2(j)(3), Commentary.02(a)(4)); and (v) an underlying index or portfolio (excluding exempted securities) must include securities from a minimum of 13 non-affiliated issuers (Rule 5.2(j)(3), Commentary.02(a)(5)).
The average duration of the Fund will vary based on the Sub-Adviser’s forecast for interest rates and will normally not exceed one year. The dollar-weighted average portfolio maturity of the Fund will normally not be expected to exceed three years.

The Fund may invest in debt securities, which are securities consisting of a certificate or other evidence of a debt (secured or unsecured) on which the issuing company or governmental body promises to pay the holder thereof a fixed, variable, or floating rate of interest for a specified length of time, and to repay the debt on the specified maturity date. Some debt securities, such as zero coupon bonds, do not make regular interest payments but are issued at a discount to their principal or maturity value. The debt securities that the Fund will invest in will include a variety of fixed income obligations, including, but not limited to, corporate debt securities, government securities, municipal securities, convertible securities, and mortgage-backed securities.

The Fund may invest in variable and floating rate instruments, which involve certain obligations that may carry variable or floating rates of interest, and may involve a conditional or unconditional demand feature. Such instruments bear interest at rates which are not fixed, but which vary with changes in specified market rates or indices. The interest rates on these securities may be reset daily, weekly, quarterly, or some other reset period, and may have a set floor or ceiling on interest rate changes. There is a risk that the current interest rate on such obligations may not accurately reflect existing market interest rates. A demand instrument with a demand notice exceeding seven days may be considered illiquid if there is no secondary market for such security.

11 Duration is a measure used to determine the sensitivity of a security’s price to changes in interest rates. The longer a security’s duration, the more sensitive it will be to changes in interest rates.
The Fund may invest in bank obligations, including certificates of deposit, bankers’ acceptances, and fixed time deposits. Certificates of deposit are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Bankers’ acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are “accepted” by a bank, meaning, in effect, that the bank unconditionally agrees to pay the face value of the instrument on maturity. Fixed time deposits are bank obligations payable at a stated maturity date and bearing interest at a fixed rate. Fixed time deposits may be withdrawn on demand by the investor, but may be subject to early withdrawal penalties which vary depending upon market conditions and the remaining maturity of the obligation.

The Fund may invest in commercial paper. Commercial paper is a short-term obligation with a maturity ranging from one to 270 days issued by banks, corporations, and other borrowers. Such investments are unsecured and usually discounted. To the extent the Fund invests in commercial paper, the Fund will invest in commercial paper rated A-1 or A-2 by S&P or Prime-1 or Prime-2 by Moody’s.

The Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as Fannie Mae,
Freddie Mac, the Government National Mortgage Association ("Ginnie Mae"), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the National Credit Union Administration, and the Federal Agricultural Mortgage Corporation ("Farmer Mac").

The Fund may invest in inflation-indexed bonds, which are fixed income securities whose principal value is periodically adjusted according to the rate of inflation. Two structures are common. The U.S. Treasury and some other issuers use a structure that accrues inflation into the principal value of the bond. Most other issuers pay out the Consumer Price Index ("CPI") accruals as part of a semiannual coupon. Inflation-indexed securities issued by the U.S. Treasury have maturities of five, ten or thirty years, although it is possible that securities with other maturities will be issued in the future. The U.S. Treasury securities pay interest on a semiannual basis, equal to a fixed percentage of the inflation-adjusted principal amount.

The Fund may invest in mortgage-related securities and asset-backed securities ("ABSs"). Mortgage-related securities are interests in pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks, and others. Pools of mortgage loans are assembled as securities for

---

**Footnote:**

12 ABSs are bonds backed by pools of loans or other receivables. ABSs are created from many types of assets, including auto loans, credit card receivables, home equity loans, and student loans. ABSs are issued through special purpose vehicles that are bankruptcy remote from the issuer of the collateral. The credit quality of an ABS transaction depends on the performance of the underlying assets. To protect ABS investors from the possibility that some borrowers could miss payments or even default on their loans, ABSs include various forms of credit enhancement.
sale to investors by various governmental, government-related and private organizations. The Fund also may invest in debt securities which are secured with collateral consisting of mortgage-related securities. Interests in pools of mortgage-related securities differ from other forms of debt securities, which normally provide for periodic payment of interest in fixed amounts with principal payments at maturity or specified call dates. Instead, these securities provide a monthly payment which consists of both interest and principal payments. In effect, these payments are a “pass-through” of the monthly payments made by the individual borrowers on their residential or commercial mortgage loans, net of any fees paid to the issuer or guarantor of such securities. Additional payments are caused by repayments of principal resulting from the sale of the underlying property, refinancing or foreclosure, net of fees or costs which may be incurred. Some mortgage-related securities (such as securities issued by Ginnie Mae) are described as “modified pass-through”. These securities entitle the holder to receive all interest and principal payments owed on the mortgage pool, net of certain fees, at the scheduled payment dates regardless of whether or not the mortgagor actually makes the payment.

The Fund may invest in agency mortgage-related securities. The principal governmental guarantor of mortgage-related securities is Ginnie Mae. Ginnie Mae is a wholly owned United States Government corporation within the Department of Housing and Urban Development. Ginnie Mae is authorized to guarantee, with the full faith and credit of the United States Government, the timely payment of principal and interest on securities issued by institutions approved by Ginnie Mae (such as savings and loan institutions, commercial banks, and mortgage bankers) and backed by pools of mortgages insured by the Federal Housing Administration (the “FHA”), or guaranteed by the Department of Veterans Affairs (the “VA”).
The Fund may invest up to 10% of its net assets in privately issued (non-government-sponsored entity (“GSE”)) mortgage-related securities, including commercial mortgage-backed securities,\textsuperscript{13} collateralized mortgage obligations (“CMOs”),\textsuperscript{14} and adjustable rate mortgage-backed securities (“ARMBSs”).\textsuperscript{15} Commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers also create pass-through pools of conventional residential mortgage loans. Such issuers may be the originators and/or servicers of the underlying mortgage loans as well as the guarantors of the mortgage-related securities. The Fund will not purchase mortgage-related securities (including non-GSE mortgage-related securities) or any other assets which in the Sub-Adviser’s opinion are illiquid if, as a result, more than 15% of the Fund’s net assets will be invested in illiquid securities.\textsuperscript{16}

The Sub-Adviser will seek to manage the portion of the Fund’s assets committed to privately issued mortgage-related securities in a manner consistent with the Fund’s investment objective, policies and overall portfolio risk profile. In determining whether and how much to

\textsuperscript{13} Commercial mortgage-backed securities include securities that reflect an interest in, and are secured by, mortgage loans on commercial real property.

\textsuperscript{14} CMOs are debt obligations of a legal entity that are collateralized by mortgages and divided into classes. Similar to a bond, interest and prepaid principal is paid, in most cases, on a monthly basis. CMOs may be collateralized by whole mortgage loans or private mortgage bonds, but are more typically collateralized by portfolios of mortgage pass-through securities guaranteed by Ginnie Mae, Freddie Mac, or Fannie Mae, and their income streams.

\textsuperscript{15} ARMBSs have interest rates that reset at periodic intervals. Acquiring ARMBSs permits the Fund to participate in increases in prevailing current interest rates through periodic adjustments in the coupons of mortgages underlying the pool on which ARMBSs are based. Such ARMBSs generally have higher current yield and lower price fluctuations than is the case with more traditional fixed income debt securities of comparable rating and maturity.

\textsuperscript{16} See note 29 and accompanying text, infra.
invest in privately issued mortgage-related securities, and how to allocate those assets, the Sub-Adviser will consider a number of factors. These include, but are not limited to: (1) the nature of the borrowers (e.g., residential vs. commercial); (2) the collateral loan type (e.g., for residential: First Lien – Jumbo/Prime, First Lien – Alt-A, First Lien – Subprime, First Lien – Pay-Option or Second Lien; for commercial: Conduit, Large Loan or Single Asset / Single Borrower); and (3) in the case of residential loans, whether they are fixed rate or adjustable mortgages. Each of these criteria can cause privately issued mortgage-related securities to have differing primary economic characteristics and distinguishable risk factors and performance characteristics.

Other Fund Investments

According to the Registration Statement, to respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in investment grade debt securities and money market instruments, either directly or through ETFs. The Fund may be invested in this manner for extended periods, depending on the Sub-Adviser’s assessment of market conditions. Such debt securities and money market instruments include shares of other fixed income mutual funds, commercial paper, certificates of deposit, bankers’ acceptances, U.S. government securities, repurchase agreements, and bonds that are rated BBB or higher. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited.

The ETFs in which the Fund may invest will be registered under the 1940 Act and include Investment Company Units (as described in NYSE Arca Equities Rule 5.2(j)(3)); Portfolio Depositary Receipts (as described in NYSE Arca Equities Rule 8.100); and Managed Fund Shares (as described in NYSE Arca Equities Rule 8.600). Such ETFs all will be listed and traded in the U.S. on registered exchanges. While the Fund may invest in inverse ETFs, the Fund will not invest in leveraged or inverse leveraged (e.g., 2X, -2X, 3X or -3X) ETFs.
While the Fund, under normal market conditions, will invest at least 80% of its net assets in investment grade fixed income securities, as described above, the Fund may invest its remaining assets in the following.

The Fund may invest in non-investment-grade securities. Non-investment-grade securities, also referred to as “high yield securities” or “junk bonds,” are debt securities that are rated lower than the four highest rating categories by a nationally recognized statistical rating organization (for example, lower than Baa3 by Moody’s or lower than BBB- by S&P) or are determined to be of comparable quality by the Fund’s Sub-Adviser. These securities are generally considered to be, on balance, predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation and will generally involve more credit risk than securities in the investment-grade categories. Investment in these securities generally provides greater income and increased opportunity for capital appreciation than investments in higher quality securities, but they also typically entail greater price volatility and principal and income risk.

The Fund may invest in equity securities, including common stocks, preferred stocks, warrants to acquire common stock, securities convertible into common stock, investments in master limited partnerships and rights. With respect to its equity securities investments, the Fund will invest only in equity securities that trade in markets that are members of the Intermarket Surveillance Group (“ISG”) or are parties to a comprehensive surveillance sharing agreement with the Exchange.18

The Fund may invest in exchange-traded notes (“ETNS”). ETNs (also called “index-linked securities” as would be listed, for example, under NYSE Arca Equities Rule 5.2(j)(6)),

18 See note 38, infra.
are senior, unsecured unsubordinated debt securities issued by an underwriting bank that are designed to provide returns that are linked to a particular benchmark less investor fees. ETNs have a maturity date and, generally, are backed only by the creditworthiness of the issuer.

The Fund may invest in CMO residuals, which are mortgage securities issued by agencies or instrumentalities of the U.S. government or by private originators of, or investors in, mortgage loans, including savings and loan associations, homebuilders, mortgage banks, commercial banks, investment banks, and special purpose entities of the foregoing. CMO residuals, whether or not registered under the 1933 Act, may be subject to certain restrictions on transferability, and may be deemed “illiquid” and subject to the Fund’s limitations on investment in illiquid securities.

The Fund may invest in the securities of exchange-traded pooled vehicles that are not investment companies and, thus, not required to comply with the provisions of the 1940 Act. As a result, as a shareholder of such pooled vehicles, the Fund will not have all of the investor protections afforded by the 1940 Act. Such pooled vehicles may, however, be required to comply with the provisions of other federal securities laws, such as the Securities Act. These pooled vehicles typically hold currency or commodities, such as gold or oil, or other property that is itself not a security. If the Fund invests in, and, thus, is a shareholder of, a pooled vehicle, the Fund’s shareholders will indirectly bear the Fund’s proportionate share of the fees and expenses paid by the pooled vehicle, including any applicable management fees, in addition to

---

19 Such securities include Trust Issued Receipts (as described in NYSE Arca Equities Rule 8.200); Commodity-Based Trust Shares (as described in NYSE Arca Equities Rule 8.201); Currency Trust Shares (as described in NYSE Arca Equities Rule 8.202); Commodity Index Trust Shares (as described in NYSE Arca Equities Rule 8.203); and Trust Units (as described in NYSE Arca Equities Rule 8.500).
both the management fees payable directly by the Fund to the Adviser and the other expenses that the Fund bears directly in connection with its own operations.

The Fund may invest in equities issuers located outside the United States directly, or in financial instruments, ETFs, ETNs and exchange-traded pooled vehicles that are indirectly linked to the performance of foreign issuers.

The Fund may invest directly and indirectly in foreign currencies. The Fund may conduct foreign currency transactions on a spot (i.e., cash) or forward basis (i.e., by entering into forward contracts to purchase or sell foreign currencies). At the discretion of the Adviser, the Fund may, but is not obligated to, enter into forward currency exchange contracts for hedging purposes to help reduce the risks and volatility caused by changes in foreign currency exchange rates. When used for hedging purposes, forward currency contracts tend to limit any potential gain that may be realized if the value of the Fund’s foreign holdings increases because of currency fluctuations.

Securities of such equities issuers may be any one of the following: American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs"), European Depositary Receipts ("EDRs"), International Depositary Receipts ("IDRs"), “ordinary shares,” and “New York shares” issued and traded in the U.S. (collectively, “Equity Financial Instruments”). ADRs are U.S. dollar denominated receipts typically issued by U.S. banks and trust companies that evidence ownership of underlying securities issued by a foreign issuer. Generally, ADRs in registered form are designed for use in domestic securities markets and are traded on exchanges or over-the-counter in the U.S. GDRs, EDRs, and IDRs are similar to ADRs in that they are certificates evidencing ownership of shares of a foreign issuer; however, GDRs, EDRs, and IDRs may be issued in bearer form and denominated in other currencies, and are generally designed for use in specific or multiple securities markets outside the U.S. EDRs, for example, are designed for use in European securities markets while GDRs are designed for use throughout the world. Ordinary shares are shares of foreign issuers that are traded abroad and on a U.S. exchange. New York shares are shares that a foreign issuer has allocated for trading in the U.S. ADRs may be sponsored or unsponsored, but unsponsored ADRs will not exceed 10% of the Fund’s net assets. With respect to its investments in equity securities (including Equity Financial Instruments), the Fund will invest at least 90% of its assets invested in such securities that trade in markets that are members of the ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. See note 38, infra.
The Fund may invest in other mortgage-related securities, which include securities other than those described above that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property, including mortgage dollar rolls (that is, a series of purchase and sale contracts), or stripped mortgage-backed securities ("SMBS"), which are derivative multi-class mortgage securities. Such other mortgage-related securities may be debt securities issued by agencies or instrumentalities of the U.S. government or by private originators of, or investors in, mortgage loans, including savings and loan associations, homebuilders, mortgage banks, commercial banks, investment banks, partnerships, trusts, and special purpose entities of the foregoing.

The Fund may invest in closed-end funds. Closed-end funds are pooled investment vehicles that are registered under the 1940 Act and whose shares are listed and traded on U.S. national securities exchanges.

The Fund may invest in U.S. exchange-traded futures contracts, options on futures contracts, including stock index futures, U.S. Treasury futures, and options on such futures. The

---

21 A mortgage dollar roll involves the sale of mortgage-backed securities by the Fund and its agreement to repurchase the instrument (or one which is substantially similar) at a specified time and price.

22 SMBSs are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. A common type of SMBS will have one class receiving some of the interest and most of the principal from the mortgage assets, while the other class will receive most of the interest and the remainder of the principal. In the most extreme case, one class will receive all of the interest (the "IO" class), while the other class will receive all of the principal (the principal-only or "PO" class). The yield to maturity on an IO class is extremely sensitive to the rate of principal payments (including pre-payments) on the related underlying mortgage assets, and a rapid rate of principal payments may have a material adverse effect on the Fund’s yield to maturity from these securities. If the underlying mortgage assets experience greater than anticipated pre-payments of principal, the Fund may fail to recoup some or all of its initial investment in these securities even if the security is in one of the highest rating categories.
Fund also may invest in U.S. exchange and over-the-counter traded options, which will generally be based on U.S. Treasuries.

The Fund may enter into swap agreements generally based on fixed income securities, including, but not limited to, total return swaps, index swaps, and interest rate swaps. The Fund may utilize swap agreements in an attempt to gain exposure to the securities in a market without actually purchasing those securities, or to hedge a position. The Fund will utilize cleared swaps if available, to the extent practicable and not enter into any swap agreement unless the Adviser believed that the other party to the transaction is creditworthy. Swaps utilized by the Fund will be backed by collateral of the Fund’s assets, as required. The Sub-Adviser will evaluate the creditworthiness of counterparties on an ongoing basis. In addition to information provided by credit agencies, the Sub-Adviser’s credit analysts will evaluate each approved counterparty using various methods of analysis, including company visits, earnings updates, the broker-dealer’s reputation, past experience with the broker-dealer, market levels for the counterparty’s debt and equity, the counterparty’s liquidity and its share of market participation.

The Fund may invest in each of collateralized bond obligations (“CBOs”), collateralized loan obligations (“CLOs”), other collateralized debt obligations (“CDOs”) and other similarly structured securities. CBOs, CLOs and other CDOs are types of ABSs. A CBO is a trust which is often backed by a diversified pool of high risk, below investment grade fixed income securities. The collateral can be from many different types of fixed income securities such as high yield debt, residential privately issued mortgage-related securities, commercial privately issued mortgage-related securities, trust preferred securities and emerging market debt. A CLO is a trust typically collateralized by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior unsecured loans, and subordinate corporate loans,
including loans that may be rated below investment grade or equivalent unrated loans. Other CDOs are trusts backed by other types of assets representing obligations of various parties.\textsuperscript{23}

The Fund may invest in hybrid instruments. A hybrid instrument is a type of potentially high-risk derivative that combines a traditional stock, bond, or commodity with an option or forward contract. Generally, the principal amount, amount payable upon maturity or redemption, or interest rate of a hybrid is tied (positively or negatively) to the price of some security, commodity, currency or securities index or another interest rate or some other economic factor (each a “benchmark”). The interest rate or (unlike most fixed income securities) the principal amount payable at maturity of a hybrid security may be increased or decreased, depending on changes in the value of the benchmark. An example of a hybrid instrument could be a bond issued by an oil company that pays a small base level of interest with additional interest that accrues in correlation with the extent to which oil prices exceed a certain predetermined level. Such a hybrid instrument would be a combination of a bond and a call option on oil.

The Fund may invest in structured notes, which are debt obligations that also contain an embedded derivative component with characteristics that adjust the obligation’s risk/return profile. Generally, the performance of a structured note will track that of the underlying debt obligation and the derivative embedded within it.\textsuperscript{24} The Fund would have the right to receive

\textsuperscript{23} According to the Registration Statement, the risks of an investment in a CBO, CLO or other CDO depend largely on the type of the collateral securities and the class of the instrument in which the Fund invests. Normally, CBOs, CLOs and other CDOs are privately offered and sold, and thus are not registered under the securities laws. As a result, investments in CBOs, CLOs and other CDOs may be characterized by the Fund as illiquid securities; however, an active dealer market may exist for CBOs, CLOs and other CDOs allowing them to qualify for Rule 144A transactions.

\textsuperscript{24} Structured notes are typically privately negotiated transactions between two or more parties. The Fund bears the risk that the issuer of the structured note will default or become bankrupt which may result in the loss of principal investment and periodic
periodic interest payments from the issuer of the structured notes at an agreed-upon interest rate and a return of the principal at the maturity date.

The Fund may invest in shares of exchange-traded real estate investment trusts ("REITs"). REITs are pooled investment vehicles which invest primarily in real estate or real estate related loans. REITs are generally classified as equity REITs, mortgage REITs, or a combination of equity and mortgage REITs.

The Fund may enter into repurchase agreements with financial institutions, which may be deemed to be loans. The Fund follows certain procedures designed to minimize the risks inherent in such agreements. These procedures include effecting repurchase transactions only with large, well-capitalized and well-established financial institutions whose condition will be continually monitored by the Sub-Adviser. In addition, the value of the collateral underlying the repurchase agreement will always be at least equal to the repurchase price, including any accrued interest earned on the repurchase agreement. It is the current policy of the Fund not to invest in repurchase agreements that do not mature within seven days if any such investment, together with any other illiquid assets held by the Fund, amount to more than 15% of the Fund’s net assets.

The Fund may enter into reverse repurchase agreements as part of the Fund’s investment strategy. Reverse repurchase agreements involve sales by the Fund of portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price. Generally, the effect of such a transaction is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase
agreement, while the Fund will be able to keep the interest income associated with those portfolio securities.

The Fund may engage in short sales transactions in which the Fund sells a security it does not own.

The Fund may invest in mortgage-related securities that are equity securities issued by agencies or instrumentalities of the U.S. government or by private originators of, or investors in, mortgage loans, including savings and loan associations, homebuilders, mortgage banks, commercial banks, investment banks, partnerships, trusts, and special purpose entities of the foregoing.²⁵

The Fund, from time to time, in the ordinary course of business, may purchase securities on a when-issued, delayed-delivery or forward commitment basis (i.e., delivery and payment can take place between a month and 120 days after the date of the transaction).

The Fund may invest in U.S. Treasury zero-coupon bonds. These securities are U.S. Treasury bonds which have been stripped of their unmatured interest coupons, the coupons themselves, and receipts or certificates representing interests in such stripped debt obligations and coupons. Interest is not paid in cash during the term of these securities, but is accrued and paid at maturity.

**Investment Restrictions**

According to the Registration Statement, the Fund may not

(i) With respect to 75% of its total assets, purchase securities of any issuer (except securities issued or guaranteed by the U.S. government, its agencies or instrumentalities or shares

²⁵ With respect to its mortgage-related securities holdings that are equity securities, the Fund will invest only in such securities that trade in markets that are members of the ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.
of investment companies) if, as a result, more than 5% of its total assets would be invested in the securities of such issuer; or (ii) acquire more than 10% of the outstanding voting securities of any one issuer. For purposes of this policy, the issuer of the underlying security will be deemed to be the issuer of any respective depositary receipt.\footnote{26}

(ii) Invest 25% or more of its total assets in the securities of one or more issuers conducting their principal business activities in the same industry or group of industries. This limitation does not apply to investments in securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, or shares of investment companies. The Fund will not invest 25% or more of its total assets in any investment company that so concentrates.\footnote{27}

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid securities (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser or Sub-Adviser,\footnote{28} in accordance with Commission guidance, CMO residuals and

\footnote{26}{The diversification standard is set forth in Section 5(b)(1) of the 1940 Act. \textit{See} note 20, \textit{supra}, regarding depositary receipts that the Fund may hold.}

\footnote{27}{\textit{See} Form N-1A, Item 9. The Commission has taken the position that a fund is concentrated if it invests more than 25% of the value of its total assets in any one industry. \textit{See}, e.g., Investment Company Act Release No. 9011 (October 30, 1975), 40 FR 54241 (November 21, 1975). According to the Registration Statement, mortgage-related securities that are issued or guaranteed by the U.S. government, its agencies or instrumentalities, are not subject to the Fund’s industry concentration restrictions by virtue of the exclusion from that test available to all U.S. government securities. The assets underlying such securities may be represented by a portfolio of residential or commercial mortgages (including both whole mortgage loans and mortgage participation interests that may be senior or junior in terms of priority of repayment) or portfolios of mortgage pass-through securities issued or guaranteed by Ginnie Mae, Fannie Mae or Freddie Mac. Mortgage loans underlying a mortgage-related security may in turn be insured or guaranteed by the FHA or the VA.}

\footnote{28}{In reaching liquidity decisions, the Adviser or Sub-Adviser may consider the following factors: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; and the nature of the security and the}
demand instruments with a demand notice exceeding seven days. The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund’s net assets are held in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.29

The Fund may invest in the securities of other investment companies to the extent that such an investment would be consistent with the requirements of Section 12(d)(1) of the 1940 Act, or any rule, regulation or order of the Commission or interpretation thereof. The Trust has entered into agreements with several unaffiliated ETFs that permit, pursuant to a Commission order, the Fund to purchase shares of those ETFs beyond the Section 12(d)(1) limits described nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer).

above. The Fund will only make such investments in conformity with the requirements of Subchapter M of the Internal Revenue Code of 1986 (the “Internal Revenue Code”).

According to the Registration Statement, the Fund will seek to qualify for treatment as a Regulated Investment Company (“RIC”) under the Internal Revenue Code.

The Fund’s investments will be consistent with the Fund’s investment objective and will not be used to enhance leverage.

Creation and Redemption of Shares

The Trust will issue and sell Shares of the Fund in Creation Unit size aggregations of 25,000 Shares or more on a continuous basis through the Distributor, at their NAV next determined after receipt, on any business day. The consideration for purchase of a Creation Unit of the Fund generally will consist of an in-kind deposit of a designated portfolio of securities – the “Deposit Securities” – per each Creation Unit constituting a substantial replication, or a representation, of the securities included in the Fund’s portfolio and an amount of cash – the Cash Component – computed as described below. Together, the Deposit Securities and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component is an amount equal to the difference between the NAV of the shares (per Creation Unit) and the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the market value of the Deposit Securities), the Cash Component shall be such positive amount. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the market value of the Deposit Securities), the Cash Component shall be such negative

\[\text{Cash Component} = \text{NAV of shares} - \text{Market value of Deposit Securities}\]

---

\[30\text{ 26 U.S.C. 851.}\]

\[31\text{ Id.}\]
amount and the creator will be entitled to receive cash from the Fund in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities.

The Administrator, through the National Securities Clearing Corporation (“NSCC”), will make available on each business day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time), the list of the names and the required quantity or number of shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous business day) for the Fund. Such Fund Deposit will be applicable, subject to any adjustments as described below, in order to effect creations of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares or quantity of the Deposit Securities required for a Fund Deposit for the Fund may change as rebalancing adjustments and corporate action events occur from time to time. In addition, the Trust reserves the right to permit or require the substitution of an amount of cash – i.e., a “cash in lieu” amount – to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for transfer (as discussed in the Registration Statement), or which may not be eligible for trading by an Authorized Participant or the investor for which it is acting. The Trust also reserves the right to offer an “all cash” option for creations of Creation Units for the Fund.

In addition to the list of names and numbers of securities constituting the current Deposit Securities of a Fund Deposit, the Administrator, through the NSCC, also will make available on
each business day, the estimated Cash Component, effective through and including the previous business day, per outstanding Creation Unit of the Fund.

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Administrator and only on a business day. The Trust will not redeem Shares in amounts less than Creation Units. Beneficial owners must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust.

With respect to the Fund, the Administrator, through the NSCC, will make available immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time) on each business day, the “Fund Securities” that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day. Fund Securities received on redemption may not be identical to Deposit Securities which are applicable to creations of Creation Units.

For the Fund, unless cash redemptions are available or specified for the Fund, the redemption proceeds for a Creation Unit generally will consist of Fund Securities – as announced by the Administrator on the business day of the request for redemption received in proper form – plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after receipt of a request in proper form, and the value of the Fund Securities (the “Cash Redemption Amount”), less a redemption transaction fee described in the Registration Statement. In the event that the Fund Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder.
If it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem such Shares in cash, and the redeeming beneficial owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash which the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust’s brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities which differs from the exact composition of the Fund Securities but does not differ in NAV.

The Trust also reserves the right to offer an “all cash” option for redemptions of Creation Units for the Fund. The Adviser represents that, to the extent the Trust effects the redemption of Shares in cash, such transactions will be effected in the same manner for all Authorized Participants.

Net Asset Value

The net asset value (“NAV”) per Share of the Fund will be computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares of the Fund outstanding, rounded to the nearest cent. Expenses and fees, including without limitation, the management, administration and distribution fees, are accrued daily and taken into account for purposes of determining NAV per Share.

In calculating NAV, the Fund will generally value its portfolio investments at market prices. In computing the Fund’s NAV, the Fund’s securities holdings will be valued based on
their last readily available market price. Price information on listed securities, including ETFs, ETNs, exchange-traded pooled vehicles, ADRs, equity-related financial instruments and other exchange-traded products, REITs and mortgage-related securities, will be taken from the exchange where the security is primarily traded. Other portfolio securities and assets for which market quotations are not readily available or determined to not represent the current fair value will be valued based on fair value as determined in good faith in accordance with procedures adopted by the Trust’s Board of Trustees and in accordance with the 1940 Act.

The Fund will have an approved pricing matrix at the time of launch. The matrix will be based on pre-determined rules for pricing logic (such as mean) and valuation point (such as market close). Third party pricing sources will be used. For assets such as options, futures, swaps, in general, Bloomberg will be the primary source and Reuters the secondary source.

Spot currency transactions and non-exchange-traded derivatives, including forwards, swaps, and certain options will normally be valued on the basis of quotes obtained from brokers and dealers or pricing services using data reflecting the earlier closing of the principal markets for those assets. Prices obtained from independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange-traded options will be valued at market closing price.

Futures and options on futures will be valued at the settlement price determined by the applicable exchange.

Unsponsored ADRs will be valued on the basis of the market closing price on the exchange where the stock of the foreign issuer that underlies the ADR is listed.

Domestic and foreign fixed income securities generally trade in the over-the-counter
market rather than on a securities exchange. The Fund will generally value these portfolio securities by relying on independent pricing services. The Fund’s pricing services will use valuation models or matrix pricing to determine current value. In general, pricing services use information with respect to comparable bond and note transactions, quotations from bond dealers or by reference to other securities that are considered comparable in such characteristics as rating, interest rate, maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves. Matrix price is an estimated price or value for a fixed-income security. Matrix pricing is considered a form of fair value pricing.

The Administrator will calculate NAV and NAV per Share once each business day as of the regularly scheduled close of normal trading on the New York Stock Exchange, LLC (the “NYSE”) (normally, 4:00 p.m., Eastern Time).

Availability of Information

The Fund’s website (www.advisorshares.com), which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The Fund’s website will include additional quantitative information updated on a daily basis, including, for the Fund, (1) daily trading volume, the prior business day’s reported closing price, NAV and mid-point of the bid/ask spread at the time of calculation of such NAV (the “Bid/Ask Price”), and a calculation of the premium and discount of the Bid/Ask Price against the NAV, and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. On each business day, before commencement of trading in

\[\text{The Bid/Ask Price of the Fund will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund’s NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.}\]
Shares in the Core Trading Session on the Exchange, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund’s calculation of NAV at the end of the business day.33

On a daily basis, the Fund’s website will disclose for each portfolio security and other financial instrument of the Fund the following information: ticker symbol (if applicable); name and, when available, the individual identifier (CUSIP) of the security and/or financial instrument; number of shares (if applicable) and dollar value of securities and financial instruments held in the portfolio; and percentage weighting of the security and financial instrument in the portfolio. The website information will be publicly available at no charge.

In addition, a basket composition file, which includes the security names and share quantities (as applicable) required to be delivered in exchange for Fund Shares, together with estimates and actual cash components, will be publicly disseminated daily prior to the opening of the NYSE via the NSCC. The basket will represent one Creation Unit of the Fund.

Investors can also obtain the Trust’s Statement of Additional Information (“SAI”), the Fund’s Shareholder Reports, and its Form N-CSR and Form N-SAR, filed twice a year. The Trust’s SAI and Shareholder Reports will be available free upon request from the Trust, and those documents and the Form N-CSR and Form N-SAR may be viewed on-screen or downloaded from the Commission’s website at www.sec.gov. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers’ computer screens and other electronic services. Information regarding the previous day’s closing price and trading volume information for the Shares will be

33 Under accounting procedures followed by the Fund, trades made on the prior business day (“T”) will be booked and reflected in NAV on the current business day (“T+1”). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.
published daily in the financial section of newspapers. Quotation and last-sale information for
the Shares and U.S. exchange-listed equity securities, including ETFs, ETNs, exchange-traded
pooled vehicles, ADRs, equity-related financial instruments and other exchange-traded products,
REITs and mortgage-related securities, will be available via the Consolidated Tape Association
(“CTA”) high-speed line, and will be available from the national securities exchange on which
they are listed. Information regarding unsponsored ADRs will be available from major market
data vendors. Intra-day and closing price information relating to the fixed income and equities
investments of the Fund, as well as Fund investments in spot currencies and derivatives,
including futures, forwards, options, options on futures and swaps, will be available from major
market data vendors and from securities and futures exchanges, as applicable. Information
relating to U.S. exchange-listed options will be available via the Options Price Reporting
Authority. In addition, the Portfolio Indicative Value, as defined in NYSE Arca Equities Rule
8.600 (c)(3), will be widely disseminated at least every 15 seconds during the Core Trading
Session by one or more major market data vendors.\(^34\) The dissemination of the Portfolio
Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the
value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of
that value throughout the trading day.

Additional information regarding the Trust and the Shares, including investment
strategies, risks, creation and redemption procedures, fees, portfolio holdings disclosure policies,
distributions, and taxes is included in the Registration Statement. All terms relating to the Fund

\(^{34}\) Currently, it is the Exchange’s understanding that several major market data vendors
display and/or make widely available Portfolio Indicative Values taken from CTA or
other data feeds.
that are referred to, but not defined in, this proposed rule change are defined in the Registration Statement.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments comprising the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the Shares will be subject to NYSE Arca Equities Rule 8.600(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange’s existing rules governing the trading of equity securities. Shares will trade on the NYSE Arca Marketplace from 4 a.m. to 8 p.m. Eastern Time in accordance with NYSE Arca Equities Rule 7.34 (Opening, Core, and Late Trading Sessions). The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in NYSE Arca Equities Rule 7.6, Commentary .03, the minimum price variation (“MPV”) for quoting and entry of orders in equity securities traded on the NYSE Arca Marketplace is $0.01,

35 See NYSE Arca Equities Rule 7.12.
with the exception of securities that are priced less than $1.00 for which the MPV for order entry is $0.0001.

The Shares will conform to the initial and continued listing criteria under NYSE Arca Equities Rule 8.600. Consistent with NYSE Arca Equities Rule 8.600(d)(2)(B)(ii), the Adviser, as the Reporting Authority, will implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the actual components of the Fund’s portfolio. The Exchange represents that, for initial and/or continued listing, the Fund will be in compliance with Rule 10A-3 under the Act,\textsuperscript{36} as provided by NYSE Arca Equities Rule 5.3. A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio as defined in NYSE Arca Equities Rule 8.600(c)(2) will be made available to all market participants at the same time.

**Surveillance**

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by the Financial Industry Regulatory Authority (“FINRA”) on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.\textsuperscript{37} The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

\textsuperscript{36} 17 CFR 240.10A-3.

\textsuperscript{37} FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA’s performance under this regulatory services agreement.
The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares, underlying exchange-traded equity securities (including, without limitation, ETFs, ETNs, exchange-traded pooled vehicles, ADRs, equity-related financial instruments and other exchange-traded products, REITs, and mortgage-related securities), futures, options on futures, and exchange-traded options with other markets and other entities that are members of the ISG, and FINRA, on behalf of the Exchange, may obtain trading information regarding trading in the Shares, underlying exchange-traded equity securities, futures, options on futures, and exchange-traded options from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares, underlying exchange-traded equity securities (including, without limitation, ETFs, ETNs, exchange-traded pooled vehicles, ADRs, equity-related financial instruments and other exchange-traded products, REITs, and mortgage-related securities), futures, options on futures, and exchange-traded options from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s Trade Reporting and Compliance Engine (“TRACE”).

For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.
With respect to its investments in equity securities (including Equity Financial Instruments), each Fund will invest at least 90% of its assets invested in such securities that trade in markets that are members of the ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

**Information Bulletin**

Prior to the commencement of trading, the Exchange will inform its Equity Trading Permit ("ETP") Holders in an Information Bulletin ("Bulletin") of the special characteristics and risks associated with trading the Shares. Specifically, the Bulletin will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Unit aggregations (and that Shares are not individually redeemable); (2) NYSE Arca Equities Rule 9.2(a), which imposes a duty of due diligence on its ETP Holders to learn the essential facts relating to every customer prior to trading the Shares; (3) the risks involved in trading the Shares during the Opening and Late Trading Sessions when an updated Portfolio Indicative Value will not be calculated or publicly disseminated; (4) how information regarding the Portfolio Indicative Value is disseminated; (5) the requirement that ETP Holders deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Bulletin will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Bulletin will discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act. The Bulletin will also disclose that the NAV for the Shares will be calculated after 4:00 p.m. Eastern Time each trading day.
2. **Statutory Basis**

The basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)\textsuperscript{39} that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in NYSE Arca Equities Rule 8.600. The Exchange has in place surveillance procedures that are adequate to properly monitor trading in the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws. FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares, underlying exchange-traded equity securities (including, without limitation, ETFs, ETNs, exchange-traded pooled vehicles, ADRs, equity-related financial instruments and other exchange-traded products, REITs, and mortgage-related securities), futures, options on futures, and exchange-traded options with other markets and other entities that are members of the ISG, and FINRA, on behalf of the Exchange, may obtain trading information regarding trading in the Shares, underlying exchange-traded equity securities, futures, options on futures, and exchange-traded options from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares, underlying exchange-traded equity securities (including, without limitation, ETFs, ETNs, exchange-traded pooled vehicles, ADRs, equity-related financial instruments and other

\textsuperscript{39} 15 U.S.C. 78f(b)(5).
exchange-traded products, REITs, and mortgage-related securities), futures, options on futures, and exchange-traded options with other markets and other entities that are members of the ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s TRACE. With respect to its investments in equity securities (including Equity Financial Instruments), each Fund will invest at least 90% of its assets invested in such securities that trade in markets that are members of the ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. The Fund will utilize cleared swaps if available, to the extent practicable, and not enter into any swap agreement unless the Adviser believes that the other party to the transaction is creditworthy. Swaps utilized by the Fund will be backed by collateral of the Fund’s assets, as required. Neither the Adviser nor the Sub-Adviser is registered as a broker-dealer or is affiliated with a broker-dealer. The Fund may invest up to 10% of the net assets in privately issued (non-GSE mortgage-related securities, including commercial mortgage-backed securities, CMOs, and ARMBSs). The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid securities, including Rule 144A securities deemed illiquid by the Adviser or Sub-Adviser, CMO residuals, and demand instruments with a demand notice exceeding seven days. The Fund will not invest in leveraged or inverse leveraged (e.g., 2X, -2X, 3X, or -3X) ETFs. The Fund’s investment portfolio will meet certain criteria for index-based, fixed income ETFs contained in NYSEArca Equities Rule 5.2(j)(3), Commentary .02, as described above. The Fund’s investments will be consistent with the Fund’s investment objective and will not be used to enhance leverage.
The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information is publicly available regarding the Fund and the Shares, thereby promoting market transparency. Quotation and last-sale information for the Shares will be available via the CTA high-speed line. In addition, the Portfolio Indicative Value will be widely disseminated by the Exchange at least every 15 seconds during the Core Trading Session. The Fund’s website will include a form of the prospectus for the Fund that may be downloaded, as well as additional quantitative information updated on a daily basis. On each business day, before commencement of trading in Shares in the Core Trading Session on the Exchange, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund’s calculation of NAV at the end of the business day. On a daily basis, the Fund will disclose for each portfolio security or other financial instrument of the Fund the following information: ticker symbol, name and, when available, the individual identifier (CUSIP) of the security and/or financial instrument; number of shares or dollar value of securities and financial instruments held in the portfolio; and percentage weighting of the security and/or financial instrument in the portfolio. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Trading in the Shares will be subject to NYSE Arca Equities Rule 8.600(d)(2)(D), which sets forth circumstances
under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund’s holdings, the Portfolio Indicative Value, the Disclosed Portfolio, and quotation and last-sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures that are adequate to properly monitor trading in the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws. In addition, as noted above, investors will have ready access to information regarding the Fund’s holdings, the Portfolio Indicative Value, the Disclosed Portfolio, and quotation and last-sale information for the Shares.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that primarily holds fixed income securities and that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.
III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period up to 90 days after publication (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission’s Internet comment form ([http://www.sec.gov/rules/sro.shtml](http://www.sec.gov/rules/sro.shtml)); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NYSEArca-2013-121 on the subject line.

Paper comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEArca-2013-121. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet website ([http://www.sec.gov/rules/sro.shtml](http://www.sec.gov/rules/sro.shtml)). Copies of the submission, all subsequent amendments, all written statements with respect to the
proposed rule change that are filed with the Commission, and all written communications
relating to the proposed rule change between the Commission and any person, other than those
that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be
available for website viewing and printing in the Commission’s Public Reference Room, 100 F
Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m.
and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the
principal office of the Exchange. All comments received will be posted without change; the
Commission does not edit personal identifying information from submissions. You should
submit only information that you wish to make available publicly. All submissions should refer
to File Number SR-NYSEArca-2013-121 and should be submitted on or before [insert date
21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated
authority.40

Kevin M. O’Neill
Deputy Secretary
