(the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to proposes to [sic] update the description of the data included in the ArcaBook equities data feed. ArcaBook is a real-time market data product that is a compilation of all limit orders in the NYSE Arca limit order book. A 2010 rule filing stated that Exchange [sic] also makes available real-time information relating to transactions and limit orders in debt securities that are traded through the Exchange’s facilities as part of ArcaBook.<sup>4</sup> The Exchange currently does not trade debt securities, and the ArcaBook data feed does not currently include any debt data. There are no separate or additional fees for debt securities data described in the current ArcaBook pricing structure. The Exchange notes that its affiliate, New York Stock Exchange LLC (“NYSE”), lists and trades debt securities under NYSE Rules 86-88. NYSE offers its debt security data for free.<sup>5</sup>

<sup>4</sup> See Securities Exchange Act Release No. 63291 (Nov. 9, 2010), 75 FR 70311 (Nov. 17, 2010) (SR-NYSEArca-2010-97).

<sup>5</sup> See Securities Exchange Act Release No. 55496 (March 20, 2007), 72 FR 14631 (March 28, 2007) (SR-NYSE-2006-37).

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)<sup>6</sup> of the Act, in general, and furthers the objectives of Section 6(b)(5)<sup>7</sup> of the Act, in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest, and it is not designed to permit unfair discrimination among customers, brokers, or dealers. The Exchange believes that updating the description of the ArcaBook product will benefit users by making clearer what data is included. The proposed rule change will have no impact on NYSE's debt data, which is provided free of charge.

In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data to consumers of such data. It was believed that this authority would expand the amount of data available to users and consumers of such data and also spur innovation and competition for the provision of market data. The Commission concluded that Regulation NMS – by lessening regulation of the market in proprietary data – would itself further the Act's goals of facilitating efficiency and competition:

[E]fficiency is promoted when broker-dealers who do not need the data beyond the prices, sizes, market center identifications of the NBBO and consolidated last sale information are not required to receive (and pay for) such data. The Commission also believes that efficiency is promoted when broker-dealers may choose to receive (and pay

for) additional market data based on their own internal analysis of the need for such data.<sup>8</sup>

By removing “unnecessary regulatory restrictions” on the ability of exchanges to sell their own data, Regulation NMS advanced the goals of the Act and the principles reflected in its legislative history.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,<sup>9</sup> the Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is not intended to address any competitive issue but rather to update the description of the ArcaBook product so that it reflects the included data elements. The Exchange does not believe that the proposed rule change would burden competition. The Exchange further notes that the debt securities data of the Exchange’s affiliate, NYSE, will continue to be available from NYSE without charge.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time

as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>10</sup> and Rule 19b-4(f)(6) thereunder.<sup>11</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
