

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-72015; File No. SR-NYSEArca-2014-41)

April 24, 2014

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change Relating to Listing and Trading of Shares of Reality Shares Isolated Dividend Growth Index ETF under NYSE Arca Equities Rule 5.2(j)(3)

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on April 11, 2014, NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade shares of the following under NYSE Arca Equities Rule 5.2(j)(3) (“Investment Company Units”): Reality Shares Isolated Dividend Growth Index ETF. The text of the proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade shares (“Shares”) of the following under NYSE Arca Equities Rule 5.2(j)(3), which governs the listing and trading of Investment Company Units on the Exchange: Reality Shares Isolated Dividend Growth Index ETF (the “Fund”).⁴ The Shares of the Fund will be offered by the Reality Shares ETF Trust (formerly, the ERNY Financial ETF Trust) (the “Trust”). The Trust will be registered with the Commission as an open-end management investment company.⁵ Reality Shares Advisors, LLC (formerly, ERNY Financial Advisors, LLC) will serve as the investment adviser to the Fund (the “Adviser”). ALPS Distributors, Inc. (the “Distributor”) will be the principal underwriter and distributor of

⁴ NYSE Arca Equities Rule 5.2(j)(3)(A) provides that an Investment Company Unit is a security that represents an interest in a registered investment company that holds securities comprising, or otherwise based on or representing an interest in, an index or portfolio of securities (or holds securities in another registered investment company that holds securities comprising, or otherwise based on or representing an interest in, an index or portfolio of securities).

⁵ The Trust will be registered under the Investment Company Act of 1940 (the “1940 Act”) (15 U.S.C. 80a-1). On February 6, 2014, the Trust filed a registration statement on Form N-1A under the Securities Act of 1933 (the “1933 Act”) (15 U.S.C. 77a), and under the 1940 Act relating to the Fund, as amended by Pre-Effective Amendment Number 1, filed with the Commission on February 6, 2014 (File Nos. 333-192288 and 811-22911) (the “Registration Statement”). The description of the operation of the Trust and the Fund herein is based, in part, on the Registration Statement. In addition, the Commission has issued an order granting certain exemptive relief to the Trust under the 1940 Act. Investment Company Act Release No. 30678 (August 27, 2013) (“Exemptive Order”). Investments made by the Fund will comply with the conditions set forth in the Exemptive Order.

the Fund's Shares. The Bank of New York Mellon (the "Administrator," "Transfer Agent" or "Custodian") will serve as administrator, custodian and transfer agent for the Fund.

As described in more detail below, the Fund will seek long-term capital appreciation by tracking the performance of the Reality Shares Isolated Dividend Growth Index (the "Index"). The Index was developed and is maintained by Reality Shares, Inc. (the "Index Provider").⁶ The Adviser is a wholly-owned subsidiary of the Index Provider.

Commentary .01(b)(1) to Rule 5.2(j)(3) provides that, if the applicable index is maintained by a fund advisor or a broker-dealer, such fund advisor or broker-dealer shall erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index, and the index shall be calculated by a third party who is not a broker-dealer or fund advisor.⁷ The Index Provider is not registered as an investment adviser or broker-dealer and is not affiliated with any broker-dealers. The Adviser is not registered as a broker-

⁶ The Index will be calculated by International Data Corporation ("IDC"), which is not affiliated with the Adviser or Index Provider, and which is not a broker-dealer or fund advisor.

⁷ An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the "Advisers Act"). As a result, the Adviser and its related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

dealer and is not affiliated with any broker-dealers.⁸ In the event (a) the Adviser, any sub-adviser or the Index Provider becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser, sub-adviser or Index Provider is a registered broker-dealer or becomes affiliated with a broker-dealer, they will implement a fire wall with respect to their relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

The Exchange is submitting this proposed rule change because the Index for the Fund does not meet all of the “generic” listing requirements of Commentary .01(a)(A) to NYSE Arca Equities Rule 5.2(j)(3) applicable to the listing of Investment Company Units based upon an index of “US Component Stocks”.⁹ Specifically, Commentary .01(a)(A) to NYSE Arca Equities Rule 5.2(j)(3) sets forth the requirements to be met by components of an index or portfolio of US Component Stocks. As discussed in more detail herein, the Index is calculated using a proprietary, rules-based methodology designed to track market expectations for dividend growth conveyed in real-time using bid-ask prices on exchange-listed S&P 500 Index options and exchange-listed options on exchange traded funds (“ETFs”) designed to track the S&P 500 Index.¹⁰ The Fund may also invest up to 20% of its total assets in other securities such as over-

⁸ The Adviser and the Index Provider have represented that a fire wall exists around the respective personnel who have access to information concerning changes and adjustments to the Index.

⁹ NYSE Arca Equities Rule 5.2(j)(3) defines the term “US Component Stock” to mean an equity security that is registered under Sections 12(b) or 12(g) of the Act or an American Depositary Receipt, the underlying equity security of which is registered under Sections 12(b) or 12(g) of the Act.

¹⁰ For purposes of this proposed rule change, such ETFs include Investment Company Units (as described in NYSE Arca Equities Rule 5.2(j)(3)) and Portfolio Depositary Receipts (as described in NYSE Arca Equities Rule 8.100). The ETFs all will be listed and traded

the-counter (“OTC”) options, futures, and forward contracts on the S&P 500 Index and OTC options, futures and forward contracts on ETFs that track the S&P 500 Index. Because the Index will consist primarily of S&P 500 Index options and options on ETFs designed to track the S&P 500 Index, and not US Component Stocks, the Index does not satisfy the requirements of Commentary .01(a)(A).¹¹

Principal Investments

According to the Registration Statement, the Fund will seek long-term capital appreciation and will seek investment results that, before fees and expenses, generally correspond to the performance of the Index. At least 80% of the Fund’s total assets (exclusive of collateral held from securities lending, if any) will be invested in the component securities of the Index. The Fund will seek a correlation of 0.95 or better between its performance and the performance of its Index. A figure of 1.00 would represent perfect correlation. The Fund generally will use a representative sampling investment strategy.

in the U.S. on registered exchanges. The Fund may not invest in leveraged or inverse leveraged (e.g., 2X, -2X, 3X or -3X) ETFs or options on such ETFs.

¹¹ The Exchange notes that the S&P 500 Index has been previously approved by the Commission under Section 19(b)(2) of the Act in connection with the listing and trading of index options and Portfolio Depositary Receipts, as well as other securities. See e.g., Securities Exchange Act Release Nos. 19907 (June 24, 1983), 48 FR 30814 (July 5, 1983) (approving the listing and trading of options on the S&P 500 Index); 31591 (December 18, 1992), 57 FR 60253 (December 18, 1992) (approving the listing and trading of Portfolio Depositary Receipts based on the S&P 500 Index). NYSE Arca Equities Rule 5.2(j)(3), Commentary .01(a)(A)(5) provides that all securities in the applicable index or portfolio shall be US Component Stocks listed on a national securities exchange and shall be NMS Stocks as defined in Rule 600 under Regulation NMS of the Act. Each component stock of the S&P 500 Index is a US Component Stock that is listed on a national securities exchange and is an NMS Stock. Options are excluded from the definition of NMS Stock. The Fund and the Index meet all of the requirements of the listing standards for Investment Company Units in Rule 5.2(j)(3) and the requirements of Commentary .01, except the requirements in Commentary .01(a)(A)(1)-(5), as the Index consists of options on US Component Stocks. The S&P 500 Index consists of Component Stocks and satisfies the requirements of Commentary .01(a)(A)(1)-(5).

The Fund will buy (i.e., hold a “long” position in) and sell (i.e., hold a “short” position in) put and call options. The strategy of taking both a long position in a security through its ex-dividend date (the last date an investor can own the security and receive dividends paid on the security) and a corresponding short position in the same security immediately thereafter is designed to allow the Fund to isolate its exposure to the growth of the level of dividends expected to be paid on such security while minimizing its exposure to changes in the trading price of such security.

The Fund will buy and sell U.S. exchange-listed options on the S&P 500 Index and U.S. exchange-listed options on ETFs designed to track the S&P 500 Index. A put option gives the purchaser of the option the right to sell, and the issuer of the option the obligation to buy, the underlying security or instrument on a specified date or during a specified period of time. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security or instrument on a specified date or during a specified period of time. The Fund will invest in a combination of put and call options designed to allow the Fund to isolate its exposure to the growth of the level of expected dividends reflected in options on the S&P 500 Index and options on ETFs tracking the S&P 500 Index, while minimizing the Fund’s exposure to changes in the trading price of such securities.

Index Methodology

The Index will be calculated using a proprietary, rules-based methodology designed to track market expectations for dividend growth conveyed in real-time using the mid-point of the bid-ask spread on S&P 500 Index options and options on ETFs designed to track the S&P 500

Index.¹² All options included in the Index will be listed and traded on a U.S. national securities exchange. The Index will consist of a minimum of 20 components.

The prices of index and ETF options reflect the market trading prices of the securities included in the applicable underlying index or ETF, as well as market expectations regarding the level of dividends to be paid on such indexes or ETFs during the term of the option. The Index constituents, and, therefore, most of the Fund's portfolio holdings, will consist of multiple corresponding near-term and long-term put and call option combinations on the same reference assets (i.e., options on the S&P 500 Index or options on S&P 500 ETFs) with the same strike price. Because option prices reflect both stock price and dividend expectations, they can be used in combination to isolate either price exposure or dividend expectations. The use of near-term and long-term put and call option combinations on the same reference asset with the same strike price, but with different maturities, is designed to gain exposure to the expected dividends reflected in options on the S&P 500 Index and options on ETFs tracking the S&P 500 Index while neutralizing the impact of stock price.

Once established, this portfolio construction of option combinations will accomplish two goals. First, the use of corresponding buy or sell positions on near and long-term options at the same strike price is designed to neutralize underlying stock price movements. In other words, the corresponding "buy" and "sell" positions on the same reference asset are designed to net against each other and eliminate the impact that changes to the stock price of the reference asset would otherwise have on the value of the Index (and Fund Shares). Second, by minimizing the

¹² There is no guarantee that either the level of overall dividends paid by such companies will grow over time, or that the Index or Fund's investment strategies will capture such growth. The Fund will include appropriate risk disclosure in its offering documents disclosing these risks, which will be available for free on the Commission's website and on the Fund's website, www.realityshares.com.

impact of price fluctuations through the construct of the near- and long-term contract combinations, the strategy is designed to isolate market expectations for dividends implied between expiration dates of the near-term and long-term option contracts. Over time, the Index will increase or decrease in value as the dividend spread between the near-term and long-term option combinations increases or decreases as a result of changing market expectations for dividend growth.

Other Fund Investments

While, as described above, at least 80% of the Fund's total assets (exclusive of collateral held from securities lending, if any) will be invested in the component securities of the Index, the Fund may invest up to 20% of the Fund's total assets in other securities and financial instruments, as described below.

The Fund may invest in U.S. exchange-listed futures contracts based on the S&P 500 Index and ETFs designed to track the S&P 500 Index and forward contracts based on the S&P 500 Index and ETFs designed to track the S&P 500 Index. The Fund's use of exchange-listed futures contracts and forward contracts is designed to allow the Fund to isolate its exposure to the growth of the level of expected dividends reflected in options on the S&P 500 Index and options on ETFs tracking the S&P 500 Index, while minimizing the Fund's exposure to changes in the trading price of such securities. The Fund may also buy and sell OTC options on the S&P 500 Index and on ETFs designed to track the S&P 500 Index.

The Fund may enter into dividend and total return swap transactions (including equity swap transactions) based on the S&P 500 Index and ETFs designed to track the S&P 500 Index.¹³ In a typical swap transaction, one party agrees to make periodic payments to another

¹³ The Fund will transact only with swap dealers that have in place an ISDA agreement with

party (“counterparty”) based on the change in market value or level of a specified rate, index, or asset. In return, the counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index, or asset. Swap transactions are usually done on a net basis, the Fund receiving or paying only the net amount of the two payments. In a typical dividend swap transaction, the Fund would pay the swap counterparty a premium and would be entitled to receive the value of the actual dividends paid on the subject index during the term of the swap contract. In a typical total return swap, the Fund might exchange long or short exposures to the return of the underlying securities or index to isolate the value of the dividends paid on the underlying securities or index constituents. The Fund also may engage in interest rate swap transactions. In a typical interest rate swap transaction one stream of future interest payments is exchanged for another. Such transactions often take the form of an exchange of a fixed payment for a variable payment based on a future interest rate. The Fund intends to use interest rate swap transactions to manage or hedge exposure to interest rate fluctuations.

The Fund may invest up to 20% of its assets (exclusive of collateral held from securities lending, if any) in exchange-listed equity securities and derivative instruments (specifically, futures contracts, forward contracts and swap transactions)¹⁴ relating to the Index and its component securities that the Adviser believes will help the Fund track the Index. For example, the Fund may buy and sell ETFs and, to a limited extent, individual large-capitalization equity securities listed and traded on a U.S. national securities exchange.

the Fund.

¹⁴ Where practicable, the Fund intends to invest in swaps cleared through a central clearing house (“Cleared Swaps”). Currently, only certain of the interest rate swaps in which the Fund intends to invest are Cleared Swaps, while the dividend and total return swaps (including equity swaps) in which the Fund may invest are currently not Cleared Swaps.

The Fund may invest in the securities of other investment companies (including money market funds) to the extent permitted under the 1940 Act.

The Fund's short positions and its investments in swaps, futures contracts, forward contracts and options based on the S&P 500 Index and ETFs designed to track the S&P 500 Index will be backed by investments in cash, high-quality short-term debt securities and money-market instruments in an amount equal to the Fund's maximum liability under the applicable position or contract, or will otherwise be offset in accordance with Section 18 of the 1940 Act. Short-term debt securities and money market instruments include shares of fixed income or money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government Securities (including securities issued or guaranteed by the U.S. government or its authorities, agencies, or instrumentalities), repurchase agreements¹⁵ and bonds that are rated BBB or higher.

In addition to the investments described above, and in a manner consistent with its investment objective, the Fund may invest a limited portion of its net assets in high-quality, short-term debt securities and money market instruments for cash management purposes.¹⁶ Short-term debt securities and money market instruments include shares of fixed income or money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government Securities (including securities issued or guaranteed by the U.S. government or

¹⁵ The Fund may enter into repurchase agreements with banks and broker-dealers. A repurchase agreement is an agreement under which securities are acquired by a fund from a securities dealer or bank subject to resale at an agreed upon price on a later date. The acquiring fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

¹⁶ The Fund may invest in shares of money market mutual funds to the extent permitted by the 1940 Act.

its authorities, agencies, or instrumentalities), repurchase agreements and bonds that are rated BBB or higher.

The Fund will attempt to limit counterparty risk in non-cleared swap, forward and OTC option contracts by entering into such contracts only with counterparties the Adviser believes are creditworthy and by limiting the Fund's exposure to each counterparty. The Adviser will monitor the creditworthiness of each counterparty and the Fund's exposure to each counterparty on an ongoing basis.¹⁷

The Fund's investments in swaps, futures contracts, forward contracts and options will be consistent with the Fund's investment objective and with the requirements of the 1940 Act.¹⁸

Investment Restrictions

To the extent the Index concentrates (i.e., holds 25% or more of its total assets) in the securities of a particular industry or group of industries, the Fund will concentrate its investments

¹⁷ The Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Adviser will evaluate the creditworthiness of counterparties on an ongoing basis. In addition to information provided by credit agencies, the Adviser will evaluate each approved counterparty using various methods of analysis, such as, for example, the counterparty's liquidity in the event of default, the counterparty's reputation, the Adviser's past experience with the counterparty, and the counterparty's share of market participation.

¹⁸ To limit the potential risk associated with such transactions, the Fund will segregate or " earmark " assets determined to be liquid by the Adviser in accordance with procedures established by the Trust's Board of Trustees and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations arising from such transactions. These procedures have been adopted consistent with Section 18 of the 1940 Act and related Commission guidance. In addition, the Fund will include appropriate risk disclosure in its offering documents, including leveraging risk. Leveraging risk is the risk that certain transactions of the Fund, including the Fund's use of derivatives, may give rise to leverage, causing the Fund to be more volatile than if it had not been leveraged. To mitigate leveraging risk, the Adviser will segregate or " earmark " liquid assets or otherwise cover the transactions that may give rise to such risk.

to approximately the same extent as the Index.

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment) deemed illiquid by the Adviser, consistent with Commission guidance.¹⁹ The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.²⁰

The Fund may make secured loans of its portfolio securities; however, securities loans will not be made if, as a result, the aggregate amount of all outstanding securities loans by the Fund exceeds 33 1/3% of its total assets (including the market value of collateral received). To

¹⁹ In reaching liquidity decisions, the Adviser may consider the following factors: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; and the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer).

²⁰ The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also, Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding "Restricted Securities"); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund's portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the 1933 Act).

the extent the Fund engages in securities lending, securities loans will be made to broker-dealers that the Adviser believes to be of relatively high credit standing pursuant to agreements requiring that the loans continuously be collateralized by cash, liquid securities, or shares of other investment companies with a value at least equal to the market value of the loaned securities.

The Fund will be classified as a “non-diversified” investment company under the 1940 Act.²¹

The Fund intends to qualify for and to elect treatment as a separate regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code.²²

The Fund’s investments will be consistent with its investment objective and will not be used to provide multiple returns of a benchmark or to produce leveraged returns.

Creation and Redemption of Shares

According to the Registration Statement, the Fund will issue and redeem Shares only in Creation Units at the net asset value (“NAV”) next determined after receipt of an order on a continuous basis every business day. Creation Unit size is 25,000 Shares per Creation Unit. The Creation Unit size for the Fund may change.

The consideration for purchase of a Creation Unit of the Fund generally will consist of either (i) the in-kind deposit of a designated portfolio of securities (the “Deposit Securities”) per each Creation Unit and the “Cash Component” (defined below), computed as described below or (ii) the cash value of the Deposit Securities (“Deposit Cash”) and the “Cash Component,” computed as described below. Because non-exchange traded derivatives and certain listed derivatives are not currently eligible for in-kind transfer, they will be substituted with an amount

²¹ The diversification standard is set forth in Section 5(b)(1) of the 1940 Act.

²² 26 U.S.C. 851 et seq.

of cash of equal value (i.e., Deposit Cash) when the Fund processes purchases of Creation Units in-kind. Specifically, the Fund will not accept exchange-traded options, OTC options, exchange-traded futures, forward contracts, dividend swap transactions, total return swap transactions and interest rate swap transactions as Deposit Securities.

When accepting purchases of Creation Units for cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities or Deposit Cash, as applicable. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities or Deposit Cash, as applicable.

A portfolio composition file, to be sent via the National Securities Clearing Corporation (“NSCC”), will be made available on each business day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) containing a list of the names and the required amount of each security in the Deposit Securities to be included in the current Fund Deposit for the Fund (based on information about the Fund’s portfolio at the end of the previous business day). In addition, on each business day, the estimated Cash Component, effective through and including the previous business day, will be made available through NSCC.

The Fund Deposit will be applicable for purchases of Creation Units of the Fund until such time as the next-announced Fund Deposit is made available. In accordance with the Exemptive Order, the Fund will reserve the right to accept a non-conforming Fund Deposit. In

addition, the composition of the Deposit Securities may change as, among other things, corporate actions and investment decisions by the Adviser are implemented for the Fund's portfolio.

All purchase orders must be placed by or through an "Authorized Participant". An Authorized Participant must be either a broker-dealer or other participant in the Continuous Net Settlement System ("Clearing Process") of the NSCC or a participant in The Depository Trust Company ("DTC") with access to the DTC system, and must execute an agreement with the Distributor that governs transactions in the Fund's Creation Units. In-kind portions of purchase orders will be processed through the Clearing Process when it is available.

Fund Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Distributor and only on a business day. The Fund, through the NSCC, will make available immediately prior to the opening of business on the Exchange on each business day, the list of the names and quantities of the Fund's portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day ("Fund Securities"). Redemption proceeds for a Creation Unit will be paid either in-kind or in cash or a combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"). In the event that the Fund Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential will be required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust's discretion, an Authorized Participant may receive the corresponding

cash value of the securities in lieu of the in-kind securities representing one or more Fund Securities.²³ Because non-exchange traded derivatives and certain listed derivatives are not eligible for in-kind transfer, they will be substituted with an amount of cash of equal value when the Fund processes redemptions of Creation Units in-kind. Specifically, the Fund will transfer the corresponding cash value of exchange-traded options, OTC options, exchange-traded futures, forward contracts, dividend swap transactions, total return swap transactions and interest rate swap transactions in lieu of in-kind securities. In accordance with the Exemptive Order, the Fund also reserves the right to distribute to the Authorized Participant non-conforming Fund Securities.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the New York Stock Exchange (“NYSE”) is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of the Fund’s NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the Commission.

For an order involving a Creation Unit to be effectuated at the Fund’s NAV on a particular day, it must be received by the Distributor by or before the deadline for such order (“Order Cut-Off Time”). The Order Cut-Off Time for creation and redemption orders for the Fund will be 4:00 p.m. Eastern time. Orders for creation or redemption of Creation Units for cash generally must be submitted by 4:00 p.m. Eastern time. A standard creation or redemption

²³ The Adviser represents that, to the extent the Trust effects the redemption of Shares in cash, such transactions will be effected in the same manner for all Authorized Participants.

transaction fee (as applicable) will be imposed to offset transfer and other transaction costs that may be incurred by the Fund.

Determination of Net Asset Value

The Fund will calculate its NAV by: (i) taking the current market value of its total assets; (ii) subtracting any liabilities; and (iii) dividing that amount by the total number of Shares outstanding. The Fund will calculate NAV once each business day as of the regularly scheduled close of trading on the NYSE (normally, 4:00 p.m., Eastern Time) as described in its Registration Statement.

In calculating the Fund's NAV per Share, the Fund's investments will be valued in accordance with procedures approved by the Trust's Board of Trustees. These procedures, which may be changed by the Trust's Board of Trustees from time to time, generally require investments to be valued using market valuations. A market valuation generally means a valuation (i) obtained from an exchange, an independent pricing service, or a major market maker (or dealer), (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, an independent pricing service, or a major market maker (or dealer) or (iii) based on amortized cost. The Trust may use various independent pricing services, or discontinue the use of any independent pricing service, as determined by the Trust's Board of Trustees from time to time.

The Trust will generally value exchange-listed equity securities (which include common stocks and ETFs) and exchange-listed options, including options on the S&P 500 Index and options on ETFs, at market closing prices. Market closing price is generally determined on the basis of last reported sales prices on the applicable exchange, or if no sales are reported, based on the last reported quotes. The Trust will generally value exchange-listed futures at the settlement price determined by the applicable exchange. Non-exchange-traded derivatives, including OTC

options, swap transactions and forward transactions, will normally be valued on the basis of quotations or equivalent indication of value supplied by an independent pricing service or major market makers or dealers. Debt securities and money market instruments generally will be valued based on prices provided by independent pricing services, which may use valuation models or matrix pricing to determine current value. Investment company securities (other than ETFs) will be valued at NAV. The Trust generally will use amortized cost to value fixed income or money market securities that have a remaining maturity of 60 days or less.

In the event that current market valuations are not readily available or the Trust or Adviser believes such valuations do not reflect current market value, the Trust's procedures require that a security's fair value be determined in accordance with the 1940 Act.²⁴ In determining such value the Trust or the Adviser may consider, among other things, (i) price comparisons among multiple sources, (ii) a review of corporate actions and news events, and (iii) a review of relevant financial indicators (e.g., interest rates or market indices). In these cases, the Fund's NAV may reflect certain portfolio securities' fair values rather than their market prices. Fair value pricing involves subjective judgments and it is possible that the fair value determination for a security is materially different than the value that could be realized upon the sale of the security.

Availability of Information

The Fund's website, www.realityshares.com, which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be

²⁴ The Trust's Board of Trustees has established Fair Value Procedures, in accordance with the 1940 Act, governing the valuation of any portfolio investments for which market quotations or prices are not readily available. The Fund has implemented procedures designed to prevent the use and dissemination of material, non-public information regarding valuation of any portfolio investments.

downloaded. The Fund's website will include additional quantitative information updated on a daily basis, including, for the Fund, (1) the prior business day's reported closing price, NAV and mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),²⁵ and a calculation of the premium and discount of the Bid/Ask Price against the NAV, and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters.

On a daily basis, the Adviser, on behalf of the Fund, will disclose on the Fund's website the following information regarding each portfolio holding, as applicable to the type of holding: ticker symbol, CUSIP number or other identifier, if any; a description of the holding (including the type of holding, such as the type of swap); the identity of the security, commodity, index, or other asset or instrument underlying the holding, if any; for options, the option strike price; quantity held (as measured by, for example, par value, notional value or number of shares, contracts or units); maturity date, if any; coupon rate, if any; effective date, if any; market value of the holding; and the percentage weighting of the holding in the Fund's portfolio. The website information will be publicly available at no charge.

In addition, a portfolio composition file, which includes the security names and quantities, as applicable, required to be delivered in exchange for the Fund's Shares, together with estimates and actual cash components, will be publicly disseminated daily prior to the

²⁵ The Bid/Ask Price of the Fund will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund's NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

opening of the NYSE via NSCC. The portfolio composition file will represent one Creation Unit of Shares of the Fund.

Investors can also obtain the Trust's Statement of Additional Information ("SAI"), the Fund's Shareholder Reports, and the Trust's Form N-CSR and Form N-SAR, filed twice a year. The Trust's SAI and Shareholder Reports are available free upon request from the Trust, and those documents and the Form N-CSR and Form N-SAR may be viewed on-screen or downloaded from the Commission's website at www.sec.gov. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available via the Consolidated Tape Association ("CTA") high-speed line. Information relating to U.S. exchange-listed options is available via the Options Price Reporting Authority. The value of the Index will be published by one or more major market data vendors every 15 seconds during the NYSE Arca Core Trading Session of 9:30 a.m. E.T. to 4:00 p.m. E.T. Information about the Index constituents, the weighting of the constituents, the Index's methodology and the Index's rules will be available at no charge on the Index Provider's website at www.realityshares.com.

In addition, the Intraday Indicative Value ("IIV") as defined in NYSE Arca Equities Rule 5.2(j)(3), Commentary 01(c), will be widely disseminated at least every 15 seconds during the Core Trading Session by one or more major market data vendors.²⁶

²⁶ Currently, it is the Exchange's understanding that several major market data vendors display and/or make widely available IIVs taken from the CTA or other data feeds.

The dissemination of the IIV will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of that value throughout the trading day. The intra-day, closing and settlement prices of the portfolio securities and other Fund investments, including futures and exchange-traded equities, ETFs and exchange-traded options, will also be readily available from the national securities exchanges trading such securities, automated quotation systems, published or other public sources, and, with respect to OTC options, swap transactions and forward transactions, from third party pricing sources, or on-line information services such as Bloomberg or Reuters. The intra-day, closing and settlement prices of debt securities and money market instruments will be readily available from published and other public sources or on-line information services. Price information regarding investment company securities, including ETFs, will be available from on-line information services and from the website for the applicable investment company security.

Additional information regarding the Trust and the Shares, including investment strategies, risks, creation and redemption procedures, fees, portfolio holdings disclosure policies, distributions and taxes is included in the Registration Statement. All terms relating to the Fund that are referred to, but not defined in, this proposed rule change are defined in the Registration Statement.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund.²⁷ Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached. Trading also may be halted because of market conditions or for reasons that, in the

²⁷ See NYSE Arca Equities Rule 7.12.

view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments comprising the portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

If the IIV, the Index Value or the value of the Index Components is not being disseminated as required, the Exchange may halt trading during the day in which the disruption occurs; if the interruption persists past the day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption. The Exchange will obtain a representation from the Fund that the NAV for the Fund will be calculated daily and will be made available to all market participants at the same time. Under NYSE Arca Equities Rule 7.34(a)(5), if the Exchange becomes aware that the NAV for the Fund is not being disseminated to all market participants at the same time, it will halt trading in the Shares until such time as the NAV is available to all market participants.

Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. Shares will trade on the NYSE Arca Marketplace from 4:00 a.m. to 8:00 p.m. Eastern time in accordance with NYSE Arca Equities Rule 7.34 (Opening, Core, and Late Trading Sessions). The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in NYSE Arca Equities Rule 7.6, Commentary .03, the minimum price variation ("MPV") for quoting and entry of orders in equity securities traded on the NYSE Arca Marketplace is \$0.01, with the exception of securities that are priced less than \$1.00 for which the MPV for order entry is \$0.0001.

The Shares will conform to the initial and continued listing criteria under NYSE Arca Equities Rules 5.2(j)(3) and 5.5(g)(2), except that the Index will not meet the requirements of NYSE Arca Equities Rule 5.2(j)(3), Commentary .01(a)(A)(1)-(5) in that the Index will consist of options based on US Component Stocks (i.e., ETFs based on the S&P 500 Index) and options on an index of US Component Stocks (i.e., S&P 500 Index options), rather than US Component Stocks themselves. The Index will include a minimum of 20 components and, therefore, would meet the numerical requirement of NYSE Arca Equities Rule 5.2(j)(3), Commentary .01(a)(A)(4) (a minimum of 13 index or portfolio components). The Exchange represents that, for initial and/or continued listing, the Fund will be in compliance with Rule 10A-3²⁸ under the Act, as provided by NYSE Arca Equities Rule 5.3. A minimum of 100,000 Shares for the Fund will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and will be made available to all market participants at the same time.

Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by the Financial Industry Regulatory Authority (“FINRA”) on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.²⁹ The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange.

²⁸ 17 CFR 240.10A-3.

²⁹ FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA’s performance under this regulatory services agreement.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares, exchange-listed equity securities, ETFs, futures contracts and exchange-traded options contracts with other markets and other entities that are members of the Intermarket Surveillance Group (“ISG”), and FINRA, on behalf of the Exchange, may obtain trading information regarding trading in the Shares, exchange-listed equity securities, ETFs, futures contracts and exchange-traded options contracts from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares, exchange-listed equity securities, ETFs, futures contracts and exchange-traded options contracts from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.³⁰ All exchange-listed equity securities, ETFs, futures contracts and options held by the Fund will be traded on U.S. exchanges, all of which are members of ISG or are exchanges with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s Trade Reporting and Compliance Engine (“TRACE”).

³⁰ For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Information Bulletin

Prior to the commencement of trading, the Exchange will inform its Equity Trading Permit (“ETP”) Holders in an Information Bulletin (“Bulletin”) of the special characteristics and risks associated with trading the Shares. Specifically, the Bulletin will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Unit aggregations (and that Shares are not individually redeemable); (2) NYSE Arca Equities Rule 9.2(a), which imposes a duty of due diligence on its ETP Holders to learn the essential facts relating to every customer prior to trading the Shares; (3) the risks involved in trading the Shares during the Opening and Late Trading Sessions when an updated IIV or Index value will not be calculated or publicly disseminated; (4) how information regarding the IIV and Index value will be disseminated; (5) the requirement that ETP Holders deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Bulletin will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Bulletin will discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act. The Bulletin will also disclose that the NAV for the Shares will be calculated after 4:00 p.m. Eastern time each trading day.

2. Statutory Basis

The basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)³¹ that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in NYSE Arca Equities Rule 5.2(j)(3), except that the Index will consist of options based on US Component Stocks (i.e., ETFs based on the S&P 500 Index) and options on an index of US Component Stocks (i.e., the S&P 500 Index), rather than US Component Stocks themselves. The Shares will be subject to the existing trading surveillances, administered by FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange. The Index Provider is not registered as an investment adviser or broker dealer and is not affiliated with any broker-dealers. The Adviser is not registered as a broker-dealer and is not affiliated with any broker-dealers. In the event (a) the Adviser, any sub-adviser, or the Index Provider becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser, sub-adviser, or Index Provider is a registered broker-dealer or becomes affiliated with a broker-dealer, they will implement a fire wall with respect to their relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the Index or portfolio, and will be subject to procedures designed to prevent

³¹ 15 U.S.C. 78f(b)(5).

the use and dissemination of material non-public information regarding such Index or portfolio. The Adviser and Index Provider have implemented procedures designed to prevent the use and dissemination of material, non-public information regarding the Index. The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment) deemed illiquid by the Adviser, consistent with Commission guidance [sic] All exchange-listed equity securities, ETFs, options and futures contracts held by the Fund will be traded on U.S. exchanges, all of which are members of ISG or are exchanges with which the Exchange has in place a comprehensive surveillance sharing agreement.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV will be made available to all market participants at the same time. In addition, a large amount of information will be publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the IIV will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's Core Trading Session. On each business day, before commencement of trading in Shares in the Core Trading Session on the Exchange, the Fund will disclose on its website the portfolio that will form the basis for the Fund's calculation of NAV at the end of the business day. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information will be available via the CTA high-speed line. Information relating to U.S. exchange-listed options is available via the Options Price Reporting Authority. The intra-day, closing and settlement prices of the portfolio securities and other Fund investments, including

futures and exchange-traded equities and options, will also be readily available from the national securities exchanges trading such securities, automated quotation systems, published or other public sources, and, with respect to swap transactions and forward transactions, from third party pricing sources, or on-line information services such as Bloomberg or Reuters. The intra-day, closing and settlement prices of debt securities and money market instruments will be readily available from published and other public sources or on-line information services. The website for the Fund will include the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the IIV, the Fund's portfolio, and quotation and last sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of issue of Investment Company Units that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Shares will be subject to the existing trading surveillances, administered by FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange. FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares, exchange-traded equity

securities, ETFs, futures contracts and exchange-traded options contracts with other markets and other entities that are members of the ISG, and FINRA, on behalf of the Exchange, may obtain trading information regarding trading in the Shares, exchange-traded equity securities, ETFs, futures contracts and exchange-traded options contracts from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares, exchange-traded equity securities, ETFs, futures contracts and exchange-traded options contracts from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the IIV, and quotation and last sale information for the Shares.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional type of issue of Investment Company Units that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be

disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NYSEArca-2014-41 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEArca-2014-41. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F

Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEArca-2014-41 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³²

Kevin M. O'Neill
Deputy Secretary
