

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-75440; File No. SR-NYSEArca-2015-60)

July 13, 2015

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Allowing the Listing of Options Overlying Portfolio Depository Receipts and Index Fund Shares that are Listed Pursuant to Generic Listing Standards on Equities Exchanges for Series of ETFs Based on International or Global Indexes Under Which a Comprehensive Surveillance Sharing Agreement is not Required

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”),² and Rule 19b-4 thereunder,³ notice is hereby given that on July 2, 2015, NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to allow the listing of options overlying portfolio depository receipts and index fund shares (collectively, “ETFs”) that are listed pursuant to generic listing standards on equities exchanges for series of ETFs based on international or global indexes under which a comprehensive surveillance sharing agreement is not required. The text of the proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to amend Rule 5.3(g) (Criteria for Underlying Securities) to list options overlying ETFs that are listed pursuant to generic listing standards on equities exchanges for series of ETFs based on international or global indexes under which a comprehensive surveillance sharing agreement (“CSSA” or “comprehensive surveillance agreement”) is not required.⁴ This proposal will enable the Exchange to list and trade options on ETFs without a CSSA provided that the ETF is listed on an equities exchange pursuant to the generic listing standards that do not require a CSSA pursuant to Rule 19b-4(e) of the Exchange Act.⁵ Rule 19b-4(e) provides that the listing and trading of a new derivative securities product by a self-regulatory organization (“SRO”) shall not be deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b-4, if the Commission has approved, pursuant to Section 19(b) of the Act, the SRO’s trading rules, procedures and listing standards for the product class that would include the new derivatives securities product, and the SRO has a surveillance program

for the product class.⁶ In other words, this proposal will amend the listing standards to allow the Exchange to list and trade options on ETFs based on international or global indexes to a similar degree that they are allowed to be listed on several equities exchanges.⁷

Exchange-Traded Funds: Current Rule 5.3(g)

Currently, the Exchange allows for the listing and trading of options on ETFs. Rule 5.3(g) provides the listings standards for options on ETFs, such as ETFs based on international or global indexes.⁸ Rule 5.3(g)(2)(A) requires that any non-U.S. component securities in an index or portfolio of securities on which the Fund Shares are based that are not subject to a CSSA do not in the aggregate represent more than 50% of the weight of the index or portfolio. Rule 5.3(g)(2)(B) requires that any component securities of an index or portfolio of securities on which Fund Shares are based for which the primary market is in any one country that is not subject to a CSSA do not represent 20% or more of the weight of the index. And, Rule 5.3(g)(2)(C) requires that any component securities of an index or portfolio of securities on which Fund Shares are based for which the primary market is in any two countries that are not subject to a CSSA do not represent 33% or more of the weight of the index.

Generic Listing Standards for Exchange-Traded Funds

⁶ When relying on Rule 19b-4(e), the SRO must submit Form 19b-4(e) to the Commission within five business days after the SRO begins trading the new derivative securities products. See Securities Exchange Act Release No. 40761 (December 8, 1998), 63 FR 70952 (December 22, 1998).

⁸ See Rule 5.3(g)(2)(A)-(D), to be re-numbered as proposed Rule 5.3(g)(2)(B)(i)-(iv) as discussed herein.

The Exchange notes that the Commission has previously approved generic listing standards pursuant to Rule 19b-4(e) of the Exchange Act for ETFs based on indexes that consist of stocks listed on U.S. exchanges.⁹ In general, the criteria for the underlying component securities in the international and global indexes are similar to those for the domestic indexes, but with modifications as appropriate for the issues and risks associated with non-U.S. securities. In addition, the Commission has previously approved the listing and trading of ETFs based on international indexes – those based on non-U.S. component stocks, as well as global indexes – those based on non-U.S. and U.S. component stocks.¹⁰

In approving ETFs for equities exchange trading, the Commission thoroughly considered the structure of the ETFs, their usefulness to investors and to the markets, and SRO rules that govern their trading. The Exchange believes that allowing the listing of options overlying ETFs that are listed pursuant to the generic listing standards on equities exchanges for ETFs based on international and global indexes and applying Rule 19b-4(e) should fulfill the intended objective of that rule by allowing options on those ETFs that have satisfied the generic listing standards to commence trading, without the need for the public comment period and Commission approval. The proposed rule has the potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The failure of a particular ETF to comply with the generic listing standards under Rule 19b-4(e) would not,

however, preclude the Exchange from submitting a separate filing pursuant to Section 19(b)(2),¹¹ requesting Commission approval to list and trade options on a particular ETF.

Requirements for Listing and Trading Options Overlying ETFs Based on International and Global Indexes

Options on ETFs listed pursuant to these generic standards for international and global indexes would be traded, in all other respects, under the Exchange's existing trading rules and procedures that apply to options on ETFs and would be covered under the Exchange's surveillance program for options on ETFs.

Pursuant to the proposed rule, the Exchange may list and trade options on an ETF without a CSSA provided that the ETF is listed pursuant to generic listing standards for series of ETFs based on international or global indexes under which a comprehensive surveillance agreement is not required.¹² The Exchange believes that these generic listing standards are intended to ensure that stocks with substantial market capitalization and trading volume account for a substantial portion of the weight of an index or portfolio.

The Exchange believes that this proposed listing standard for options on ETFs is reasonable for international and global indexes, and, when applied in conjunction with the other listing requirements,¹³ will result in options overlying ETFs that are sufficiently broad-based in scope and not readily susceptible to manipulation. The Exchange also believes that allowing the Exchange to list options overlying ETFs that are listed on equities exchanges pursuant to generic

¹¹ 15 U.S.C. 78s(b)(2).

¹² See proposed Rule 5.3(g)(2)(A).

¹³ All of the other listing criteria under the Exchange's rules will continue to apply to any options listed pursuant to the proposed rule change.

standards for series of portfolio depositary receipts or index fund shares¹⁴ based on international or global indexes under which a CSSA is not required, will result in options overlying ETFs that are adequately diversified in weighting for any single security or small group of securities to significantly reduce concerns that trading in options overlying ETFs based on international or global indexes could become a surrogate for trading in unregistered securities.

The Exchange believes that ETFs based on international and global indexes that have been listed pursuant to the generic standards are sufficiently broad-based enough so as to make options overlying such ETFs not susceptible instruments for manipulation. The Exchange believes that the threat of manipulation is sufficiently mitigated for underlying ETFs that have been listed on equities exchanges pursuant to generic listing standards for series of portfolio depositary receipts or index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required and for the overlying options, that the Exchange does not see the need for a CSSA to be in place before listing and trading options on such ETFs. The Exchange notes that its proposal does not replace the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a CSSA, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts or index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, the proposed rule adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the

¹⁴ The Exchange notes that the proposed rule text differs slightly from that of other exchanges, with the exception of BATS Exchange, in order to make clear that the rule applies to ETFs that have been listed on equities exchanges pursuant to generic listing standards for series of “portfolio depositary receipts or index fund shares” rather than “portfolio depositary receipts and index fund shares.” Such difference does not represent a substantive difference from the rules of other exchanges. See infra n. 18.

Exchange.

Finally, the Exchange is also proposing to make several non-substantive changes to the rule text in order to make it easier to read and understand. Specifically, the Exchange is proposing to move Rule 5.3(g)(1)(C) (regarding Commodity Pool Units) to become Rule 5.3(g)(2)(B)(v). In addition, to account for proposed Rule 5.3(g)(2)(A), the Exchange proposes to re-number paragraphs (g)(2)(A)-(D) as paragraphs (g)(2)(B)(i)-(iv), and to make clear that each of the proposed newly numbered paragraphs (i.e., Rule 5.3(g)(2)(B)(i)-(v)) apply to the series of Exchange-Traded Fund Shares that do not meet the criteria in proposed Rule 5.3(g)(2)(A).

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)¹⁵ of the Securities Exchange Act of 1934 (the “Act”), in general, and furthers the objectives of Section 6(b)(5),¹⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rule change has the potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The Exchange also believes that enabling the listing and trading of options on ETFs pursuant to this new listing standard will benefit investors by providing them with valuable risk management tools. The Exchange notes that its proposal does not replace the need for a

¹⁵ 15 U.S.C. 78f(b).

¹⁶ 15 U.S.C. 78f(b)(5).

comprehensive surveillance agreement as provided in the current rule. The provisions of the current rule, including the need for a CSSA, remain materially unchanged and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts or index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, proposed Rule 5.3(g)(2)(A) adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the Exchange in a manner that is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange also believes that the proposed non-substantive organizational changes are reasonable, fair, and equitable because they are designed to make the rule easier to comprehend. As noted above, the proposed non-substantive changes do not change the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a CSSA, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts or index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. These non-substantive changes to the rules are intended to make the rules clearer and less confusing for participants and investors and to eliminate potential confusion, thereby removing impediments to and perfecting the mechanism of a free and open market and a national market system, and, in general, protecting investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,¹⁷ the Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the proposed rule change is a competitive change that is substantially similar to recent rule changes filed by MIAX Options Exchange (“MIAX”), NASDAQ OMX PHLX LLC (“Phlx”), International Securities Exchange LLC (“ISE”), BOX Options Exchange LLC (“BOX”) and BATS Exchange (“BATS”).¹⁸ Furthermore, the Exchange believes this proposed rule change will benefit investors by providing additional methods to trade options on ETFs, and by providing them with valuable risk management tools. Specifically, the Exchange believes that market participants on the Exchange would benefit from the introduction and availability of options on ETFs in a manner that is similar to equities exchanges and will provide investors with a venue on which to trade options on these products. For all the reasons stated above, the Exchange does not believe that the proposed rule changes will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, and believes the proposed change will enhance competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

¹⁸ See Securities Exchange Act Release Nos. 74509 (March 13, 2015), 80 FR 14425 (March 19, 2015) (SR-MIAX-2015-04); 74553 (March 20, 2015) 80 FR 16072 (March 26, 2015) (SR-Phlx-2015-27); 74832 (April 29, 2015), 80 FR 25738 (May 5, 2015) (SR-ISE-2015-16); 75132 (June 9, 2015), 80 FR 34175 (June 15, 2015) (SR-BOX-2015-21), 75166, (June 12, 2015), 80 FR 34946 (June 18, 2015) (SR-BATS-2015-43).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁹ and Rule 19b-4(f)(6) thereunder.²⁰

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act²¹ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)²² permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Exchange stated that waiver of the operative delay will permit the Exchange to list and trade certain ETF options on the same basis as other options markets.²³ The Commission believes the waiver of the operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.²⁴

²⁰ 17 CFR 240.19b-4(f)(6). As required under Rule 19b-4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and the text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change.

²² 17 CFR 240.19b-4(f)(6)(iii).

²³ See supra note 18.

²⁴ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
