(“Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> a proposed rule change regarding investments of the Janus Short Duration Income ETF (“Fund”), which is currently listed and traded on the Exchange under NYSE Arca Equities Rule 8.600. The proposed rule change was published for comment in the Federal Register on February 17, 2017.<sup>3</sup> On March 13, 2017, the Exchange filed Amendment No. 1 to the proposed rule change, which replaced and superseded the proposed rule change as originally filed. On March 30, 2017, the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.<sup>4</sup> On April 10, 2017, the Exchange filed Amendment No. 2 to the proposed rule change, which replaced and superseded the proposed rule change as modified by Amendment No. 1.<sup>5</sup> The Commission received no comments on the proposed rule change. In the event (a) the Adviser becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or broker-dealer affiliate regarding access to information concerning the composition of and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

<sup>10</sup> The term "normal market conditions" is defined in NYSE Arca Equities Rule 8.600(c)(5).

receipts, and participation interests; structured notes and indexed securities; and money market instruments.

### Investment Restrictions

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment) deemed illiquid by the Adviser, consistent with Commission guidance.<sup>12</sup> The Fund monitors its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund is diversified within the meaning of the 1940 Act.

The Fund intends to qualify annually and elect to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code.<sup>13</sup>

The Fund will not concentrate its investments in a particular industry, as that term is used in the 1940 Act, and as interpreted, modified, or otherwise permitted by a regulatory authority having jurisdiction from time to time.

### Application of Generic Listing Requirements

As noted above, the Shares are currently listed and traded on the Exchange under Commentary .01 to NYSE Arca Equities Rule 8.600, which provides generic listing standards for

<sup>12</sup> Under the guidelines established by the Trust's Board of Trustees ("Board"), the Adviser will consider the following factors: (1) the frequency of trades and quoted prices for the security; (2) the number of dealers willing to purchase or sell the security and the number of other potential purchasers; (3) the willingness of dealers to undertake to make a market in the security; and (4) the nature of the security and the nature of the marketplace trades, including the time needed to dispose of the security, the method of soliciting offers, and the mechanics of the transfer.

Managed Fund Shares. Commentary .01(e) to NYSE Arca Equities Rule 8.600 currently requires that, on both an initial and ongoing basis, no more than 20% of the Fund's assets may be invested in OTC derivatives (calculated as the aggregate gross notional value of the OTC derivatives). The Exchange now proposes that up to 50% of the Fund's assets (calculated as the aggregate gross notional value) may be invested in OTC derivatives that are used to reduce currency, interest rate, or credit risk arising from the Fund's investments, including forwards, OTC options, and OTC swaps. The Fund's investments in OTC derivatives other than OTC derivatives used to hedge the Fund's portfolio against currency, interest rate, or credit risk will be limited to 20% of the assets in the Fund's portfolio, calculated as the aggregate gross notional value of such OTC derivatives.

According to the Exchange, other than Commentary .01(e), the Fund's portfolio will meet all other requirements of NYSE Arca Equities Rule 8.600.

### III. Discussion and Commission's Findings

After careful review, the Commission finds that the proposed rule change, as modified by Amendment No. 2, is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange.<sup>14</sup> In particular, the Commission finds that the proposed rule change, as modified by Amendment No. 2, is consistent with Section 6(b)(5) of the Act,<sup>15</sup> which requires, among other things, that the Exchange's rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

---

<sup>14</sup> In approving this proposed rule change, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

<sup>15</sup> 15 U.S.C. 78f(b)(5).

As noted above, the Exchange proposes that up to 50% of the Fund's assets (calculated as the aggregate gross notional value) may be invested in OTC derivatives that are used to reduce currency, interest rate, or credit risk arising from the Fund's investments, including forwards, OTC options, and OTC swaps.<sup>16</sup> The Exchange states that the Adviser believes that it is important to provide the Fund with additional flexibility to manage risk associated with its investments. The Exchange states that OTC derivatives can be tailored to hedge the specific risk arising from the Fund's investments and may be a more efficient hedging vehicle than listed derivatives. The Exchange also states that if the Fund were limited to investing up to 20% of assets in OTC derivatives, the Fund might have to "over hedge" or "under hedge" if round lot sizes in listed derivatives were not available. As proposed, on a daily basis, the Fund will disclose on its website the information regarding the Disclosed Portfolio required under NYSE

---

<sup>16</sup> According to the Exchange, the Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Adviser will monitor the financial standing of counterparties on an ongoing basis. This monitoring may include information provided by credit agencies, as well as the Adviser's credit analysts and other team members who evaluate approved counterparties using various methods of analysis, including but not limited to earnings updates, the counterparty's reputation, the Adviser's past experience with the broker-dealer, market levels for the counterparty's debt and equity, the counterparty's liquidity and its share of market participation. Moreover, the Exchange states that investments in derivative instruments are made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies. To limit the potential risk associated with such transactions, the Fund segregates or "earmarks" assets determined to be liquid by the Adviser in accordance with procedures established by the Trust's Board and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations under derivative instruments. These procedures have been adopted consistent with Section 18 of the 1940 Act and related Commission guidance. In addition, the Fund has included appropriate risk disclosure in its offering documents, including leveraging risk.

Arca Equities Rule 8.600(c)(2) to the extent applicable.<sup>17</sup> The website information will be publicly available at no charge.

The Commission also finds that the proposal is consistent with Section 11A(a)(1)(C)(iii) of the Act,<sup>18</sup> which sets forth Congress's finding that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for, and transactions in, securities. Quotation and last-sale information for the Shares will be available via the Consolidated Tape Association ("CTA") high-speed line. The PIV, as defined in NYSE Arca Equities Rule 8.600(c)(3), will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's Core Trading Session. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Intra-day and closing price information regarding CEFs will be available from the exchange on which such securities are traded. Intra-day and closing price information regarding exchange-traded options (including options on futures) and futures will be available from the exchange on which such instruments are traded. Intra-day and closing price information regarding Fixed Income Instruments will be

<sup>17</sup> NYSE Arca Equities Rule 8.600(c)(2) requires that the website for each series of Managed Fund Shares disclose the following information regarding the Disclosed Portfolio, to the extent applicable: (A) ticker symbol; (B) CUSIP or other identifier; (C) description of the holding; (D) with respect to holdings in derivatives, the identity of the security, commodity, index or other asset upon which the derivative is based; (E) the strike price for any options; (F) the quantity of each security or other asset held as measured by (i) par value, (ii) notional value, (iii) number of shares, (iv) number of contracts, and (v) number of units; (G) maturity date; (H) coupon rate; (I) effective date; (J) market value; and (K) percentage weighting of the holding in the portfolio.

available from major market data vendors. Price information relating to forwards, currencies, OTC options and swaps will be available from major market data vendors. Intra-day price information for exchange-traded derivative instruments will be available from the applicable exchange and from major market data vendors. Exchange-traded options quotation and last sale information for options cleared via the Options Clearing Corporation is available via the Options Price Reporting Authority. In addition, the Fund's website includes a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information.

The Commission also believes that the proposal is reasonably designed to promote fair disclosure of information that may be necessary to price the Shares appropriately and to prevent trading when a reasonable degree of transparency cannot be assured. The Exchange has obtained a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. Trading in Shares of the Fund will be halted if the circuit-breaker parameters in NYSE Arca Equities Rule 7.12 have been reached. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable.<sup>19</sup> Moreover, trading in the Shares will be subject to NYSE Arca Equities Rule 8.600(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

The Exchange states that it has a general policy prohibiting the distribution of material, non-public information by its employees. The Exchange states that the Adviser is not registered as a broker-dealer but the Adviser is affiliated with a broker-dealer and has implemented and will maintain a "fire wall" with respect to such broker-dealer regarding access to information

---

<sup>19</sup> These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments constituting the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

concerning the composition of and/or changes to the Fund's portfolio. Further, the Commission notes that the Reporting Authority that provides the Disclosed Portfolio must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material, non-public information regarding the actual components of the portfolio.<sup>20</sup>

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. In support of this proposal, the Exchange represents that:

- (1) Other than Commentary .01(e), the Fund's portfolio will meet all other requirements of NYSE Arca Equities Rule 8.600.
- (2) Up to 50% of the Fund's assets (calculated as the aggregate gross notional value) may be invested in OTC derivatives that are used to reduce currency, interest rate, or credit risk arising from the Fund's investments, including forwards, OTC options, and OTC swaps. The Fund's investments in OTC derivatives other than OTC derivatives used to hedge the Fund's portfolio against currency, interest rate, or credit risk will be limited to 20% of the assets in the Fund's portfolio, calculated as the aggregate gross notional value of such OTC derivatives.
- (3) The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment) deemed illiquid by the Adviser, consistent with Commission guidance.
- (4) Trading in the Shares will be subject to the existing trading surveillances administered by the Exchange, as well as cross-market surveillances administered by the Financial Industry Regulatory Authority ("FINRA") on behalf of the

<sup>20</sup> See NYSE Arca Equities Rule 8.600(d)(2)(B)(ii).

Exchange, and these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

- (5) The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares, certain CEFs, certain exchange-traded bank capital securities, certain exchange-traded options, and certain futures with other markets and other entities that are members of the Intermarket Surveillance Group (“ISG”), and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading in such securities and financial instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in such securities and financial instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange is able to access from FINRA, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s Trade Reporting and Compliance Engine. FINRA also can access data obtained from the Municipal Securities Rulemaking Board relating to certain municipal bond trading activity for surveillance purposes in connection with trading in the Shares.
- (6) The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions.
- (7) For initial and continued listing, the Fund must be in compliance with Rule 10A-3 under the Act.<sup>21</sup>

---

<sup>21</sup> See 17 CFR 240.10A-3.

The Exchange represents that all statements and representations made in the filing regarding (1) the description of the portfolio; (2) limitations on portfolio holdings or reference assets; or (3) the applicability of Exchange listing rules specified in the rule filing constitute continued listing requirements for listing the Shares on the Exchange. In addition, the issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to comply with the continued listing requirements and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will monitor<sup>22</sup> for compliance with the continued listing requirements. If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under NYSE Arca Equities Rule 5.5(m).

This approval order is based on all of the Exchange's statements and representations, including those set forth above and in Amendment No. 2.

For the foregoing reasons, the Commission finds that the proposed rule change, as modified by Amendment No. 2, is consistent with Section 6(b)(5) of the Act<sup>23</sup> and Section 11A(a)(1)(C)(iii) of the Act<sup>24</sup> and the rules and regulations thereunder applicable to a national securities exchange.

---

<sup>22</sup> The Commission notes that certain proposals for the listing and trading of exchange-traded products include a representation that the exchange will “surveil” for compliance with the continued listing requirements. See, e.g., Securities Exchange Act Release No. 77499 (April 1, 2016), 81 FR 20428, 20432 (April 7, 2016) (SR-BATS-2016-04). In the context of this representation, it is the Commission’s view that “monitor” and “surveil” both mean ongoing oversight of compliance with the continued listing requirements. Therefore, the Commission does not view “monitor” as a more or less stringent obligation than “surveil” with respect to the continued listing requirements.

V. Accelerated Approval of Proposed Rule Change as Modified by Amendments No. 2

The Commission finds good cause to approve the proposed rule change, as modified by Amendment No. 2, prior to the thirtieth day after the date of publication of Amendment No. 2 in the Federal Register. As noted above, Amendment No. 2 revises the proposed rule change by changing the proposed limit on the Fund's investments in OTC derivatives that are used for hedging purposes, from an unlimited amount to up to 50% of the Fund's assets. Amendment No. 2 also provides clarifications and additional information to the proposed rule change. The changes and additional information in Amendment No. 2 helped the Commission to evaluate, among other things, whether the listing and trading of the Shares would be consistent with the protection of investors and the public interest. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,<sup>25</sup> to approve the proposed rule change, as modified by Amendment No. 2, on an accelerated basis.
