Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX LLC to Permit the Listing of Series with \$0.50 and \$1 Strike Price Increments on Certain Options Used To Calculate Volatility Indexes

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that, on May 25, 2011, NASDAQ OMX PHLX LLC (the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as constituting a non-controversial rule change under Rule 19b-4(f)(6) under the Act,³ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing with the Commission a proposal to permit the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and of strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes.

The Exchange requests that the Commission waive the 30-day operative delay period contained in Exchange Act Rule 19b-4(f)(6)(iii).⁴

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to add new Commentary .12 to Rule 1012 to permit the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and of strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes.

The proposal is based on a recently approved rule change by the Chicago Board Options Exchange ("CBOE").⁵

New Commentary .12 will permit the listing of strike prices in \$0.50 intervals and \$1.00 intervals within specified strike price ranges for option series used to calculate volatility indexes.

⁵ See Securities Exchange Act Release No. 64189 (April 5, 2011), 76 FR 20066 (April 11, 2011)(SR-CBOE-008)(order granting approval). Other Exchanges have submitted similar proposals. See also Securities Exchange Act Release No.64325 (April 22, 2011), 76 FR 23632 (April 27, 2011)(SR-NYSEAmex-2011-26)(notice of filing and immediate effectiveness).

Volatility indexes are calculated and disseminated by the CBOE, which also lists options on the resulting index.⁶ At this time, the Exchange has no intention of listing volatility options or selecting options on any equity securities, Exchange-Traded Fund Shares, Trust Issued Receipts, Exchange Traded Notes, Index-Linked Securities, or indexes to be the basis of a volatility index.

To the extent that the CBOE or another exchange selects a multiply listed product as the basis of a volatility index, proposed Commentary .12 would permit the Exchange to list and compete in all series listed by the CBOE or another Exchange for purposes of calculating a volatility index.

The Exchange has analyzed its capacity and represents that it believes the Exchange and the Options Price Reporting Authority (OPRA) have the necessary systems capacity to handle the additional traffic associated with the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes in securities selected by the CBOE or another exchange.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁷ in general, and furthers the objectives of Section 6(b)(5) of the Act⁸ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating

⁶ For example, CBOE calculates the CBOE Gold ETF Volatility Index ("GVZ"), which is based on the VIX methodology applied to options on the SPDR Gold Trust ("GLD"). The current filing would permit \$0.50 strike price intervals for GLD options where the strike price is \$75 or less. The Exchange is currently permitted to list strike prices in \$1 intervals for GLD options (where the strike price is \$200 or less), as well as for other exchange-traded fund ("ETF") options. See Rule 1012, Commentary .05(a)(iv).

transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, by allowing the Exchange to offer a full range of all available option series in a given class, including those selected by other exchanges to be the basis of a volatility index.

While this proposal may potentially generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal is restricted to a limited number of classes. Further, the Exchange does not believe that the proposal will result in a material proliferation of additional series because it is restricted to a limited number of classes.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business

The Exchange has requested that the Commission waive the 30-day operative delay. The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest because the proposal should promote competition by allowing the Exchange, without undue delay, to list and trade option series that are trading on other options exchanges. Therefore, the Commission designates the proposal operative upon filing.¹¹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
