Options Surcharge in BKX	N/A	N/A	\$.10	\$.10	\$.10	\$.10	\$.10

* * * * *

• ROTs and Specialists are subject to a “Monthly Market Maker Cap” of \$550,000 for equity option transaction fees and QCC Transaction Fees, as defined in this section above. The trading activity of separate ROTs and Specialist member organizations will be aggregated in calculating the Monthly Market Maker Cap if there is at least 75% common ownership between the member organizations. All dividend, merger, short stock interest and reversal and conversion strategy executions (as defined in this Section II) will be excluded from the Monthly Market Maker Cap. In addition, ROTs and Specialists that (i) are on the contra-side of an electronically-delivered and executed Customer complex order; and (ii) have reached the Monthly Market Maker Cap will be assessed a \$0.05 per contract fee. For QCC Orders as defined in Exchange Rule 1080(o), and Floor QCC Orders, as defined in 1064(e), a Service Fee of \$0.07 per side will apply once a ROT or Specialist has reached the Monthly Market Maker Cap. This \$0.07 Service Fee will apply to every contract side of the QCC Order and Floor QCC Order after a ROT or Specialist has reached the Monthly Market Maker Cap. The Service Fee will not be assessed to a ROT or Specialist that does not reach the Monthly Market Maker Cap in a particular calendar month.

II. Equity Options Fees

(Includes options overlying equities, ETFs, ETNs, indexes and HOLDERS which are Multiply Listed)

- Firms are subject to a maximum fee of \$75,000 ("Monthly Firm Fee Cap"). Firm equity option transaction fees and QCC Transaction Fees, as defined in this section above, in the aggregate, for one billing month will not exceed the Monthly Firm Fee Cap per member organization when such members are trading in their own proprietary account. All dividend, merger, short stock interest and reversal and conversion strategy executions (as defined in this Section II) will be excluded from the Monthly Firm Fee Cap. The Firm equity options transaction fees will be waived for members executing facilitation orders pursuant to Exchange Rule 1064 when such members are trading in their own proprietary account. QCC Transaction Fees are included in the calculation of the Monthly Firm Fee Cap. Member organizations must notify the Exchange in writing of all accounts in which the member is not trading in its own proprietary account. The Exchange will not make adjustments to billing invoices where transactions are commingled in accounts which are not subject to the Monthly Firm Fee Cap. In addition, Firms that (i) are on the contra-side of an electronically-delivered and executed Customer complex order; and (ii) have reached the Monthly Firm Fee Cap will be assessed a \$0.05 per contract fee. For QCC Orders as defined in Exchange Rule 1080(o), and Floor QCC Orders, as defined in 1064(e), a Service Fee of \$0.07 per side will apply once a Firm has reached the Monthly Firm Fee Cap. This \$0.07 Service Fee will apply to every contract side of the QCC Order and Floor QCC Order after a Firm has reached the Monthly Firm Fee Cap. The Service Fee will not be assessed to a Firm that does not reach the Monthly Firm Fee Cap in a particular calendar month.
- Proprietary orders of affiliates of member organizations (non-member organizations) that qualify for the Monthly Firm Fee Cap ("Qualifying Member Organization") effected for purposes of hedging the proprietary over-the-counter trading of the Qualifying Member Organization or its affiliates will be included in calculating the Monthly Firm Fee Cap. Member organizations must notify the Exchange in writing of the account(s) designated for purposes of hedging the proprietary over-the-counter trading of the Qualifying Member Organization or its affiliates. The Exchange would require member organizations to segregate other orders from that of its affiliates for those orders to be eligible for the Monthly Firm Fee Cap. The Exchange will not make adjustments to billing invoices where transactions are commingled in accounts which are not subject to the Monthly Firm Fee Cap.
- Specialist, ROT, SQT and RSQT, Professional, Firm and Broker-Dealer equity option transaction fees will be capped at \$1,000 for dividend, merger and short stock interest strategies executed on the same trading day in the same options class when such members are trading in their own proprietary accounts. Equity option transaction fees for dividend, merger and short stock interest strategies combined will be further capped at the greater of \$10,000 per member or \$25,000 per member organization per month when such members are trading in their own proprietary accounts. A dividend strategy is defined as transactions done to achieve a dividend arbitrage involving the purchase, sale and exercise of in-the-money options of the same class, executed the first business day prior to the date on which the underlying stock goes ex-dividend. A merger strategy is defined as transactions done to achieve a merger arbitrage involving the purchase, sale and exercise of options of the same class and expiration date, executed the first business day prior to the date on which shareholders of record are required to elect their respective form of consideration, i.e., cash or stock. A short stock interest strategy is defined as transactions done to achieve a short stock interest arbitrage involving the purchase, sale and exercise of in-the-money options of the same class.

II. Equity Options Fees**(Includes options overlying equities, ETFs, ETNs, indexes and HOLDRS which are Multiply Listed)**

- Specialist, ROT, SQT and RSQT, Professional, Firm and Broker-Dealer options transaction fees in Multiply Listed Options will be capped at \$500 per day for reversal and conversion strategies executed on the same trading day in the same options class ("Reversal and Conversion Cap"). Reversals are established by combining a short stock position with a short put and a long call position that shares the same strike and expiration. Conversions are established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration. The Reversal and Conversion Cap will only apply to executions occurring on either of the two days preceding the standard options expiration date, which is typically the third Thursday and Friday of every month.
