Rule 1099. Order Protections

The following order protections apply to simple orders.

(a) – (c) No change.

(d) **Market Order Spread Protection.** Market Orders will be rejected if the best of the NBBO and the internal market PBBO (the “Reference PBBO”) is wider than a preset threshold at the time the Market Order is received by the System. Market Order Spread Protection shall not apply to the Opening Process or during a halt.
