

K.J. Martijn Cremers

**Assistant Professor of Finance
Yale School of Management**

Professor Cremers' research focuses on empirical issues in asset pricing, including the implications of corporate governance for the pricing of the firm's securities. His interests also cover the development of new methodologies for the estimation and evaluation of asset pricing models, and the use of Bayesian as well as classical statistical analysis.

Professor Cremers earned his MS at Vrije Universiteit Amsterdam in 1997 and his PhD at New York University in 2002. A list of his publications and working papers is available at <http://mba.yale.edu/faculty/profiles/cremers.shtml>.
