# 1 Overview

The 2019 draft release will update two of the nine SEC-maintained XBRL taxonomies for acceptance in EDGAR, as shown below.

The Commission will notify the public as to when EDGAR will begin accepting the 2019 taxonomies, and subsequently, when it will no longer accept a taxonomy with a double strike-through in the table above. For reference purposes, taxonomy versions in gray and a single strike-through have already been deleted from EDGAR in an earlier release.

Note that the taxonomies are independent of one another; the following is an exception:

- Some rr-2012 linkbases refer to the dei-2012 schema.
