Management Report to Accompany the Office of Inspector General Semiannual Report to Congress

October 1, 2021 – March 31, 2022

Section 5(b) of the Inspector General Act of 1978, as amended, (Inspector General Act), requires the Commission to transmit to the appropriate committees or subcommittees of the U.S. Congress a Management Report, containing certain statistical tables and any comments deemed appropriate, to accompany the Office of Inspector General's (OIG's) Semiannual Report. This Management Report presents the required information for the reporting period of October 1, 2021 through March 31, 2022.

I. Overview of SEC Audit Follow-up Activities

The SEC is committed to timely completion of corrective actions on OIG audit recommendations. At the commencement of this semiannual reporting period, there were 44 open OIG recommendations. During the period, management succeeded in obtaining OIG concurrence to close 23 recommendations. Of the 23 closed recommendations, management submitted 9 (or 39 percent) completed corrective actions to OIG for review and concurrence to close in less than one year. The SEC also received 3 new OIG reports during the reporting period containing a total of 22 recommendations for improvement to the agency's processes and programs. At period-end, final action was pending on 43 recommendations from 12 reports. One recommendation was pending OIG concurrence for closure.

II. Reports with Monetary Savings

Sections 5(b)(2) and (3) of the Inspector General Act require the SEC Management Report to include statistical tables summarizing the progress that the agency has made in responding to audit, inspection, and evaluation reports containing "disallowed costs" and "recommendations that funds be put to better use."

Disallowed Costs. The term "disallowed costs" means a questioned or unsupported cost that management, in a management decision, has sustained or agreed should not be charged to the agency. For OIG reports that contain questioned or unsupported costs, SEC management will review the facts and determine whether such costs, and the extent to which, should be disallowed. If the SEC agrees that such costs should be disallowed, the agency will then evaluate whether to attempt to recover such costs.

During the reporting period, OIG did not issue a report that contained any questioned or unsupported costs. In addition, there are no outstanding management decisions on questioned or unsupported costs identified in OIG reports issued prior to the reporting period.

(ii) Dollar value of disallowed costs that were written off by management		\$0
D. For which no final action has been taken by the end of the period	0	\$0

Recommendation that Funds be Put to Better Use. The term “recommendation that funds be put to better use” means a recommendation that funds could be used more efficiently if management took actions to implement and complete the accompanying recommendation. For OIG reports that contain recommendations that funds be put to better use, SEC management will review the facts and determine whether to implement such recommendations.

During the reporting period, OIG did not issue a report that contained a recommendation that funds be put to better use as reflected in Table 2.

III. Reports on Instances of Whistleblower Retaliation

Section 5(b)(4) of the Inspector General Act requires the SEC Management Report to include a statement with respect to any settlement agreement entered into by the agency with an official found by the Inspector General to have engaged in retaliation against a whistleblower. The SEC has no such settlement agreements to report.

IV. Reports More than One Year Old with Pending Corrective Action

Section 5(b)(5) of the Inspector General Act requires the SEC Management Report to include a statement with respect to audit reports on which management decisions have been made but final action has not been taken, other than audit reports on which a management decision was made within the preceding year. Table 3 presents the required information.
